## CHANCELLOR ST.

The south end of Chancellor St has suffered from 2 years of heavy trucks. (Worthingtons/Danner) The road appears to be breaking up

The evaluation of road conditions omits that the West Side kerb and deep channel dip and ponds to the extent that it submerges the crossing blocks

There has been no consultation with Chancellor St. residents re time frame - 10-15yrs!!

Who cleans the lichen off the Footpath

Potholes

## CRYSTAL ST.

What changes will be put in place around improving communications re road closures & diversions. Commas around Nth Ave Road - p.w. - 2020

When fixing paths/roads no consideration seems to be given to pedestrian access/mobility please give better consideration

If budgets are so constrained why are not street closures with narrow bits & no curves & landscaping being done? Just fix broken roads..

Why are things being done so poorly that the roads (CARANO NEW ROPS) break up every time it rains?

Please stop using this shitty loose seal that throws up stones constantly!

Why when deciding the street in no both ends fixed @ same time old tired repairs/Repairs both ends fixed

SCRT  
MANAGED  
REPAIRS NOT  
PATCH (AVERILL

PHYSICALLY CALLED THE  
COUNCIL PLEADING FOR  
THE WATER TO BE  
DRAINED & LEAVES  
CLEARED. THE WATER  
OVER THE LAST 2  
MONTHS HAS NEVER  
CLEARED RESULTING  
IN A DISGUSTING  
STENCH WHEN CARS  
RUN OVER THE WATER  
IS THAT NOT A  
HEALTH HAZARD?  
PERHAPS COUNCIL  
NEED TO LOOK AT  
REMOVING THE  
MASSIVE TREES  
THAT COULD BE  
CAUSING THE PROBLEM

## GUILD ST.

GUILD ST WAS  
BADLY DAMAGED IN  
THE QUAKES THAT HAD  
PATCH REPAIRS AND  
MUCH PREVIOUS HEAVY  
TRAFFIC FURTHER DAMAGED  
ROAD.

you use our street as  
a ByPass for traffic  
diversion off hills rd  
this has happened 3  
times the road has  
been upgraded either  
before or after the  
events - very very bad

Guild St. /  
Hills Rd FLOODS

## NICHOLLS ST.

Not functional  
Not Draining  
houses shaking } But why  
is it  
assessed as  
"Average".

Drains on  
Dudley end  
do not work

NOT "average"  
Need fixing ASAP.

Why did you take  
us out of WTP  
without informing  
us?

Houses shake  
when vehicles  
drive past.

Stop spending \$\$\$\$  
on new assets  
before fixing roads

Can we have  
speed reduced  
to 30 kph?

Footpaths not  
adequate for  
elderly, less mobile

Budget -  
need to know. You  
need to find \$\$\$\$  
elsewhere. The gap  
is too much.

Council needs to  
find more \$\$.  
Leaving these roads  
15 yrs the final  
bill will be twice  
as much.

Come back with  
a new plan.

Email: sharonhogg@petriestreet.co.nz

1. We contacted the City Council in the summer of 2017 to discuss the water main problem. During the heavy rain in July 2017 the water leaked to the ground flooding the street and our property. It was thought that stormwater pipes might be broken by the Council.

2. We contacted the Christchurch City Council again in December 2017 about the water main problem. It was agreed that the Council would investigate the problem and make a decision on the best way to fix it.

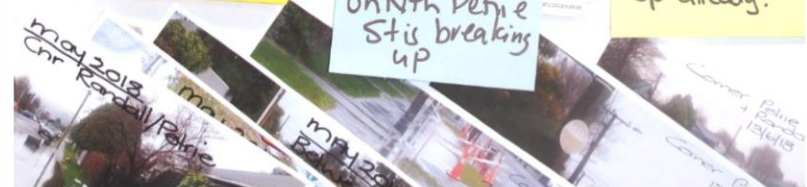

Questions: When will the civil works to replace the stormwater line be completed at the corner of Petrie and Randall Streets?

3. Parts of our footpaths, gutters and road have sustained significant damage from the flooding. One month ago, 2 residents (including us) had their gutters and footpaths replaced and the road was repaved. Residents in other parts of Petrie Street (near Shirley Road) have had their gutters, roads and footpaths replaced and other sections of the street have a road renewal plan in place.

Questions: Will the rest of the properties on Petrie St between North Avon Road and Randall Street also have their footpaths and gutters renewed? Is there a street renewal plan for this part of Petrie Street?

Many thanks for the time you have given to reading our letter. It is

the new seal on Nth Petrie St is breaking up

## SLATER ST

Why is Dudley  
Creek project  
15 months overdue?

Street trees  
put in  
natives

Waterways Maintenance  
of the Mad Butcher Sho

Slater Street  
- look at alt.  
traffic calming & along  
measures

Rear

South end of  
Slater St  
West side still  
needs curbing on  
side

Gutters (btw Dudley  
and North Ave) have  
permanently had water  
in them for 2+ yrs.

WP7 - When will  
"be completed?  
1/2 Rd - Slater St

Would be good to see  
Slater St cut in half  
to stop people cutting  
through at speed. This  
would make it safer  
& noise level it would  
reduce by a lot.

The chip coverage  
of the south block  
(Dudley to North Ave)  
has not addressed the  
issue

NORTH END  
OF SLATER  
ST (VARENTO  
SHIRLEY) IS REALLY  
BAD

What future impact  
on Slater St  
when WP7 is  
completed?

Finish remaining  
Shirley Stream  
part ASAP.

Culvert to Guild-

SLATER ST BY DUDLEY  
CREEK (1/2) GUTTER  
TERMINATES AT SHAKES

NOW THE LOWEST POINT  
DRAINAGE NEEDS TO BE GUTTERED

S.E.I.P.P  
FABULOUS!! 100%  
confident. Professional  
prompt, respectful.  
The entire street  
rated then very high.

When will Slater  
Street be opened  
for thorough-thru  
traffic?

Why were cabbage  
trees planted? That  
their leaves drop &  
congest the water  
ways!!

Why no urgency  
on Dudley Creek?  
No penalty clause?

Properties are  
water logged because  
stormwater won't drain  
into already full drains

EELS SWIM  
IN THE GUTTER  
(SLATER - SOUTH END)

What is going to be  
done to ease congestion  
for turning traffic at  
the corner of North Ave  
and Hills Road?

build in road  
add parking  
bays

SLATER ST - NORTH  
END - GUTTERS HAVE

WATER + DON'T DRAIN.  
+ FLOOD IN AUTUMN/WINTER

Why do council/s
