

3Halswell Skate and Recreation Park - site selection (280 submissions in total)

Halswell Domain

145 (60%) submitters indicated that this location was their first choice.

No.	Submitter ID #	Address 2	City	Postcode	Halswell Domain	Proposed Knights Stream Sports Park	Scott Park	Westlake Reserve	Full Comments	Project Team Response
1.	1	Halswell	Christchurch	8025	1					Thanks for your submission.
2.	2	Kennedys Bush	Christchurch	8025	1	4	2	3	Central, one stop destination, car parking	Thanks for your submission.
3.	3	Aidenfield	Christchurch	8025	1	4	3	2	Wigram Parks??	Thanks for your submission. Wigram Parks are outside the scope of this project.
4.	4	Halswell	Christchurch	8025	1					Thanks for your submission.
5.	5	Halswell	Christchurch	8025	1	2	3	4	The domain already has other facilities in place like the toilets & carparking and shops & bus route close by so it seems an obvious choose.	Thanks for your submission.
6.	6	Halswell	Christchurch	8025	1	2	3	4	(concerned Resident of Westlake) Westlake park has been an area of vandalism & graffiti - namely toilet block. Bullies are present. Also notorious for random fireworks that upset neighbours in surrounding residential areas - A lot of dogs are walked in this park and it would be preferable not to have further activity here.Also, worth mentioning is the birdlife on the lakes, I am sure you can see disadvantages of having a lot of hullabaloo here!	Thanks for your submission. Your concerns have been noted.
7.	7	Halswell	Christchurch	8025	1	2			I feel that Halswell Domain is the Number One Site for a Skate Park. Near our new Library in Summer the Pool. Then in Winter we have Football & Rugby League Located near the Trains that are extremely popular in a Wonderful Location. Westlake Park has TOO MUCH Vandalsim. We have lived next to the Park since it was developed. Playground was Burnet out, Bridge was wrecked The Toilets & Changing sheds Burnt twice Island damaged plus seats damaged also Planting damaged. Halswell Domain have more activities around which means more Adults. Westlake Reserve is a great Hang Out for young ones to hang out as Night as well (I have nothing against Skate Parks. Great for the Children)	Thanks for your submission. Your concerns have been noted.
8.	9	Halswell	Christchurch	8025	1					Thanks for your submission.
9.	10	Halswell	Christchurch	8025	1	3	4	2	prefer Halswell Domain strongly - lots of active activities there already, plus shops, café, bus etc reasonably handy. Also, many adults using the park which means better supervision. Knights Stream too far away - over edge of suburb. Westlake is a 'passive' area - lakes, birds etc. Scott Park surrounded by close housing.	Thanks for your submission.
10.	11	Halswell	Christchurch	8025	1	2	3	4	No1) MOST SUITABLE LOCATION. ADEQUATE CARPARKING, NOT TOO CLOSE TO RESIDENTIAL HOUSING, GOOD TOILETS No2) BUS SERVICE NEARBY, CARPARKING WILL BE ADDRESSED TOILETS ETC WILL BE BUILT. NOT TOO CLOSE TO RESIDENCES. PLAYGROUND WILL BE CLOSEBY. No3) SCOTT PARK IS TOO SMALL WITH TOO MANY NEIGHBOURING HOUSES. NO PUBLIC TOILETS AVAILABLE. No4) TOILETS HAVEN'T BEEN OPERABLE FOR 2-3 YEARS SINCE BEING BURNT DOWN BY ARSONISTS! THE PORTALOO WAS ALSO BURNT DOWN. THIS DISGRACEFUL BLOT ON THE LAND IS GARFFITED REGULARLY (CONTRARY TO THE INITIAL OPTED	Thanks for your submission. Your concerns have been noted.

									ASSESSMENT!) CONTINUAL FIREWORKS, BOTTLES BROKEN & CIGARETTE BUTTS ARE ENOUGH. A SKATE PARK WOULD MAKE THE PROBLEMS WORSE.	
11.	12	Halswell	Christchurch	8025	1	2	3	4		Thanks for your submission.
12.	15	Halswell	Christchurch	8025	1	2	3	4	The Domain is a great central location with other facilities to draw people there. It is also a large open space so it is less likely to receive noise complaints.	Thanks for your submission.
13.	18	Halswell	Christchurch	8025	1	3	4	2	Would be a fantastic asset for the younger people of Halswell.	Thanks for your submission.
14.	20	Halswell	Christchurch	8025	1	2	3	4	Halswell Domain is the best place because of close proximity of facilities, and supporting activities also good separation from residents. Scott Park is too small an area with no parking or facilities. Westlake Reserve has a lot of sports activity year round close to this site. The site is close to residential properties. The reserve has a small busy carpark and Westlake Drive is a busy roadway. The toilets have been set on fire and the playground equipment has suffered damage in the past.	Thanks for your submission. Your concerns have been noted.
15.	21	Aidenfield	Christchurch	8025	1	2	3	4		Thanks for your submission.
16.	22	Halswell	Christchurch	8025	1	2	4	3	I think Halswell Domain and Knight Stream are more accessible to a larger number of young people, and especially residents of primary school age children who will be users for several years to come. Scott Park is not big, and the basketball halfcourt is a big drawcard for teens there, whereas teens are less well catered for at the Domain and Knightstream in terms of informal recreation.	Thanks for your submission.
17.	23	Halswell	Christchurch	8025	1	2	3	4	We object to the use of Westlake Reserve from the following observation. Currently the outstanding feature of Westlake Reserve is the peace and tranquility provided by the lakes and wildlife going about its business. We have observed 3 types of people who use this park: 1- People who sit and contemplate, enjoying the peace & tranquility. 2- Mainly older generation people who walk their dogs everyday. 3- Young parents with small children who play in the play area, and enjoy feeding the wildlife, often surrounded with ducks, geese and sometimes sea gulls. The less desirable of the adolescent skate park would bring would be tempted to throw stones and generally torment the wildlife, overall their presence would upset the peace and quiet and safe feeling the current 3 groups all enjoy. When Sports groups use the playing field but they are organized and under proper control.	Thanks for your submission. Your concerns have been noted.
18.	25	Halswell	Christchurch	8025	1			2	Only interested in Halswell	Thanks for your submission.
19.	26	Halswell	Christchurch	8025	1				<u>HALSWELL DOMAIN:</u> It is more central for all sports and more central to stop vandalism <u>KNIGHTS STREAM:</u> Too far out for Halswell children would encourage older hoodlums from Hornby etc. Drinking sessions <u>SCOTT PARK:</u> children soccer will lose their patch and preschool not able to have free run for kiddie sport. <u>WESTLAKE RESERVE:</u> Definite NO. It would spoil the reserve setting among the houses, and children play park. The hoodlums can't leave it alone now climbing pylons & burning the toilet block etc We have seen it all plus losing the league field.	Thanks for your submission. Your concerns have been noted.
20.	27	Halswell	Christchurch	8025	1	2			Scott Park - this reserve is too small for this activity. Residents are too close, on all 4 boundaries. Too disturbing for them. Westlake Reserve - this park already has a high volume of vandalism, drug taking & dealing, even the toilet block has been burnt & is now closed. Installing a skatepark here would worsen the vandalism & encourage loitering in a troubled park.	Thanks for your submission. Your concerns have been noted.
21.	28	Halswell	Christchurch	8025	1				Halswell Domain by the new library as next to pool & fish chip shop & other car park & bus stops. ? In heart of Halswell on Park area as out back (NIMBY) as shown "PUT IT IN A PUBLIC SCENE PLACE" BY THE SHOPS & TOILETS	Thanks for your submission. Suitable space is limited beside the new library.

22.	29		Christchurch		1	2	4	3		Thanks for your submission.
23.	31	Halswell	Christchurch	8025	1	2	3	4		Thanks for your submission.
24.	32	Halswell	Christchurch	8025	1	3	4	2	We believe that Halswell Domain and alternatively Westlake Reserve would be suitable locations for such a park as the potential for parking and ease of accessibility is good. Scott Park is too small and Checketts Avenue and the other street bordering the park are already badly crowded with cars therefore the introduction of such a park may increase congestion and cause problems.	Thanks for your submission.
25.	36	Halswell	Christchurch	8025	1	2	3	4	Westlake is already used by a large number of under 5 year olds. Therefore a skate park would change the culture of this area. Scott park is too small. Knight Park & Halswell Domain are the correct size for a skate park.	Thanks for your submission. The skate and recreation facility will be targeted at beginner to intermediate users which could include under 5 year olds.
26.	41	Halswell	Christchurch	8025	1					Thanks for your submission.
27.	42	Oaklands	Christchurch	8025	1	2	4	3	The size and availability of Halswell Domain is why I have placed it at No 1. Close to housing but won't be intrusive. Plus existing facilities make it ideal.	Thanks for your submission.
28.	43		Christchurch		1	4	2	3		Thanks for your submission.
29.	44	Halswell	Christchurch	8025	1	2	3	4	Prefer Halswell Domain for unity of sports.	Thanks for your submission.
30.	48	Halswell	Christchurch	8025	1	2	3	4		Thanks for your submission.
31.	49	Halswell	Christchurch	8025	1	2	3		Strongly against Westlake Reserve	Thanks for your submission.
32.	50	Halswell	Christchurch	8025	1	2	4	3	In my view Halswell Domain, it is the easiest location with all Halswell buses stopping near by.	Thanks for your submission.
33.	52	Halswell	Christchurch	8025	1	2	3	4		Thanks for your submission.
34.	55	Halswell	Christchurch	8025	1	2	4	3	Scott Park is FAR too small and surrounded by residential property. No public toilets nearby Scott Park. Halswell Domain has a number of other amenities and ample space.	Thanks for your submission.
35.	57	Halswell	Christchurch	8025	1	4	3	2	Halswell Domain seems the obvious choice to me. It's already well established as a sporting facility and very easily accessed from all areas of Halswell.	Thanks for your submission.
36.	61	Halswell	Christchurch	8025	1					Thanks for your submission.
37.	62	Halswell	Christchurch	8025	1	3	4	2	Scott Park is too small. Too many toddlers at the playground. No toilets handy. No transport handy. Too many residents live around Street and a lot are elderly.	Thanks for your submission.
38.	63	Knights Stream Park	Christchurch	8025	1	4	3	2		Thanks for your submission.
39.	64	Halswell	Christchurch		1				Westlake toilets & playground are always being graffitied or set fire to. Domain has, train, tennis courts, bowling green, swimming pool, playground, cafes, play areas a much better facility than the others.	Thanks for your submission.
40.	65	Halswell	Christchurch	8025	1	2				Thanks for your submission.
41.	74	Halswell	Christchurch	8025	1	4	3	2	We are very excited about the possibility of having a skate park in Halswell, we frequently drive to other areas of the city so that our children (3 & 5yrs) can use similar facilities. We feel that Halswell Domain is the best place for the proposed skate park as its location beside the playground, trains & grassed area/playing fields means that families can come to the park for a variety of activities for all age groups, therefore creating a real family atmosphere. This will mean it has high use and will likely decrease any anti social behaviour. As a family with young children we believe a location with toilet facilities nearby, such as Halswell Domain, is essential.	Thanks for your submission.
42.	75	Halswell	Christchurch	8025	1	3	4	2	Halswell Domain & Westlake Reserve are to me, the most logical sites for a skate & recreation park, with Halswell Domain being the best. Westlake Reserve is not handy to shops. Scott Park has no existing facilities, Knights Stream is still a developing area and has no shops, toilets etc. I do not believe a skateboard facility should be built next to the childrens playground but in a separate area.	Thanks for your submission. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.

43.	80		Christchurch	7674	1	4	3	2	We think the Halswell Domain is the most suitable due to the fact there is easy access to the village. Family groups will be using other activities in the area and this will provide some observation of the boarding area. The proximity to the sports areas may also encourage an interest in the energetic youth. They may even wander past or through the church grounds and perhaps question its reason for being there.	Thanks for your submission.
44.	81	Halswell	Christchurch	8025	1	3	4	1	Halswell Domain would be a first choice option as it would be located with other so call 'Hub' activities, is centrally located, handy to toilets and other amenities. Westlake is also relatively central with toilet facilities. Cannot comment on Knights Stream Sports Park as not familiar with that area. Totally opposed to Scott Park. it has no immediate toilet facilities and is very close all round to neighbouring housing. We only live one street over and can clearly hear noise levels when functions are going on in the Park. The noise from a skate park in that area would be very annoying indeed in what is now a relatively quiet area. Also would hate to see the sport field moved.	Thanks for your submission. Your concerns have been noted.
45.	82	Halswell	Christchurch		1	3	4	2	Halswell Domain would be the best location for an area like this. It would be a great destination for families to go to due to it's current facilities and playing fields etc. Halswell Domain is already a popular place for families and the proposed skate park would be very well utilised. The addition of an exercise circuit similar to Wigram Skies would also be welcomed in this area.	Thanks for your submission.
46.	85			8025	1	4	3	2	Domain seems obvious choice with the te hapua centre there now. Skate park should be designed with scooters in mind. Move trees planted or shade sails? (in playground/skate park area). Only other site would be where fort playground is by league club rooms. Be lovely if there were more than 2 toilets at domain also.	Thanks for your submission. The facility will cater for skate, bikes and scooters. Shade will be considered as part of the detailed design. Beside the league clubrooms was considered during site selection, however was noted in CPTED review that there was limited visual surveillance of site. Additional toilets outside scope of project.
47.	86	Halswell	Christchurch	8025	1	2	4	3	Halswell Domain would be the most central to existing population. But put it in the old pony club area next to the old cricket oval now league oval instead of by the new playground. That would still be close to amenities but further from housing and playground could stay as is.	Thanks for your submission. Beside the league clubrooms was considered during site selection, however was noted in CPTED review that there was limited visual surveillance of site.
48.	87	Halswell	Christchurch	8025	1	4	3	2	Halswell Domain has everything close, bus, shops, café, pool and other activities. Why not make this an even better place for families. The other 2 Scott Park & Westlake have some close amenities. Knightstream has no public toilets even close, graffiti is already in this area. Transport is at least 2km away as is 1 café, no convenience shop close either.	Thanks for your submission. Toilets are proposed at Knights Stream Sport park.
49.	88	Halswell	Christchurch	8245	1	3	4	2	1. Halswell Domain - higher associate uses, open view for surveillance. Existing toilets, central Halswell. 2. Westlake - Good buffer area services residence. Toilets can be reinstated also on bus route. 3. Knights Stream - quite removed from existing residential. Half way to central Halswell or Prebbleton Skate Park? 4. Scott Park - Basketball area used frequently by 10+ kids location not suitable as no toilets, residential too close.	Thanks for your submission.
50.	90	Halswell		8025	1	2	4	3	Halswell domain has already all the amenities, shops close by, well populated in the weekends and away from residential property the area of grass between the cemetery and the pre-school (between the league club and the football club) would be my choice of location, it also already has a playground next to it.	Thanks for your submission. Beside the league clubrooms was considered during site selection, however was noted in CPTED review that there was limited visual surveillance of site.
51.	91	Halswell	Christchurch	8025	1	2	4	3	From looking on the information attached it is most logical to have it at Halswell Domain, because it is the largest space available. I am opposed to it being in Scott Park and it is a small area in a very populated space. Meaning it would cause disruption to the surrounding houses. This park is also used by small children who could be harassed by older youths using the skate park and out of the parks suggested this one has no toilet facilities.	Thanks for your submission. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
52.	92	Halswell	Christchurch	8025	1		3	2	1. Due to the new redevelopment of the Halswell Domain, I feel it would be beneficial to keep all the facilities central. Youth would have somewhere to come together for a variety of social and supporting reasons. 2. As we live in close proximity to Westlake we would be	Thanks for your submission. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and

									concerned about teenagers hangin around for extended periods with a large number of small children and elderly who use the paths for walks. It would also need new toilet facilities. 3. Scott Park would require a toilet, it would take kids a considerable walk to use public facilities! There would also be the mix of Oaklands students mixing with teenagers (after school holidays).	recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
53.	93	Halswell	Christchurch	8025	1	3	4	2	My only concern is the congragation of young unsavour young people during the hours of darkness. Some form of sensor lighting - not enough to encourage the use of the facility but to show people are in the area. Infra red camera connected to the Council/Police monitored cameras. Good idea - but it will be that minority that spoil it for the majority.	Thanks for your submission. As per CPTED guidelines, lighting of parks is discouraged unless it's an essential designated route. Lighting will not be provided, as Council do not want to promote night time use of the space. As no additional lighting will be provided, it is not envisaged that this asset will attract use after dark Installing CCTV cameras into parks has a high install cost and require good quality lighting. For the best solution to support safety and discourage antisocial behaviour, it is better to look at ways to mitigate antisocial behaviour. This can include a detailed site specific CPTED report during the design phase of the skate and recreation park.
54.	97	Halswell	Christchurch	8025	1	2	3	4	The climbing tower and existing play equipment is outdated and young children don't stay in this area long as there is not much to do. Beside Suburbs Club Rooms at Halswell Domain. I'd like to see this area developed more as it is not close to residential, plenty of parking. New toilets are needed to replace the Portaloo, which was put there when the earthquakes damaged the Scout Den toilets. Not Westlake as the age group that would be attracted to a skate park there would further endangered the wild life there. (Older boys frequently seen throwing stones at ducks). Also too close to residential housing. Also it is frequently vandalised.	Thanks for your submission. Beside the league clubrooms was considered during site selection, however was noted in CPTED review that there was limited visual surveillance of site. There is funding in CCC's draft annual plan for renewing the pavilion and toilet in 2022. Your concerns about Westlake have been noted.
55.	99	Halswell	Christchurch	8025	1	2	4	3	We like the idea of the skate park at Halswell Domain, but not in the location currently identified as it takes up a large part of the existing playground and adjacent planting. We would prefer other locations in the Halswell Domain to be considered, such as on the other side of the model railway. We would also like to use this opportunity to ask for the path to the playground to be continued through to Halswell Road. This would provide an all weather path from William Britton Ave, through the park to the Shopping area and Te Hapua centre.	Thanks for your submission. Other side of model railway is not suitable as part of retention basin and limited visual surveillance. The playground would be integrated into the skate facility design. There would be no loss of existing equipment and additional play and recreation activities could possibly be included if demand exist. Request for pathway extension will be passed on to Parks Unit.
56.	101	Halswell	Christchurch	8025	1	2	3	4	Halswell Domain - Highly suitable because - 1. Established activities and sport will be a modifying factor. 2. This is a high usage - well used community area. 3. Shops - bus - community facilities in the location. 4. Good distance from housing to alleviate noise issues.	Thanks for your submission.
57.	102	Halswell	Christchurch	8025	1	2	4	3	There is enough young children crossing the road at Scott Park with Oaklands school very close. It can be quite dangerous around school times so we don't need anymore kids crossing the road at that intersection as a lot don't look. I have lived in this street for 45 years.	Thanks for your submission.
58.	104	Addington	Christchurch	8024	1	3	2	4	Hopefully we can have a full basketball court and a tennis court in Halswell Domain. Thank you.	Thanks for your submission. There is a tennis court and a ½ basketball court located nearby at Forgan Reserve on Marsack Crescent and at Six Silvers Reserve on Six Silvers Avenue.
59.	105	Halswell	Christchurch	8025	1	2	4	3	Halswell Domain is a very central location, family oriented, open and free from vandalism.	Thanks for your submission.
60.	106	Halswell	Christchurch	8025	1	2	4	3	Halswell Domain is the best option by far!	Thanks for your submission.
61.	110	Halswell	Christchurch	8025	1	2				Thanks for your submission.
62.	111	Halswell	Christchurch	8025	1	4	2	3	No1 option If possible a skate park should become part of the existing sport & recreation area at Halswell Domain. Fully support a skating area in the district, Wish it wass there when family were younger. No2 option is more central for users than 3 & 4.	Thanks for your submission.
63.	112	Halswell	Christchurch	8025	1	2	3	4	1) Halswell Domain <u>For</u> Close to shopping centre bus stop large area so skate park wont take over the grounds. Already a hub for the community. 2) Knights Stream <u>For</u> : Good for the community being developed there - large no of children in area being bounded by main road and proposed	Thanks for your submission.

									school will have little impact on housing. 3) Scott Park <u>Against</u> : Will take over a large proportion of the park. A through route for children going to Oaklands school a drawback. 4) Westlake Reserve <u>Against</u> : The lake having a path around it attracts many people. There is a constant stream of walkers at all times of the day doing the circuit. The proposed siting of the skate park would make all these people pass between it and the lake. - not ideal for toddlers on scooters, dogs etc.	
64.	113	Halswell	Christchurch	8025	1	3	4	2	There seems to be a natural focus developing around the library & pool where young teens are meeting. A skate park there would be fantastic for them especially as it wouldn't be too near any residential properties.	Thanks for your submission. Suitable space is limited beside the new library.
65.	115	Halswell	Christchurch	8025	1				Already an established park and good central location with Halswell, close to library, swimming pool and sports grounds. Other options are less central with little other facilities.	Thanks for your submission.
66.	116	Halswell	Christchurch	8025	1	2	3	4	As residents of Westlake we strongly oppose any development of a Skate Park in the Westlake Res. I've been here 11yrs we have called the police on many occasions to deal with anti social behaviour near pavilion/playground. The CCC operated a camera overlooking the pavilion which was floodlit playground area. Over this time there was very little antisocial activity. Since the camera was removed the lighting reduced the complex is regularly covered in graffiti. Still an obvious eyesore on the roof which is too damaged to work on. It is now 12 months since this arson occurred, I have phd CCC on numerous occasions asking for repairs - to be told there are no funds available. Hence we are not in favour of a skatepark attracting any more low life arsonists to our enjoyable area.	Thanks for your submission. Your concerns around Westlake have been noted. Installing CCTV cameras into parks has a high install cost and require good quality lighting. For the best solution to support safety and discourage antisocial behaviour, it is better to look at ways to mitigate antisocial behaviour. This can include a detailed site specific CPTED report during the design phase of the skate and recreation park. The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised.
67.	117	Halswell	Christchurch	8025	1	3	2	4	Westlake Park is very busy with families walking dogs maybe a dog park at the end furthest from the playground Keep Scott Park as the basketball court. Maybe make bigger Knights Stream is too far away from the hub of Halswell. Maybe another skate park for the future.	Thanks for your submission. Dog park is outside the scope of the project. Suggestion has been passed onto parks unit.
68.	119	Halswell	Christchurch	8025	1	2			I am strongly against the having a skate park being built in the Westlake Reserve. We have had vandels in the past that have damaged the changing rooms & toilets & feel it would bring more young people to the reserve. I am also concerned about the number of cars that could be parked in my cul de sac as it is busy enough now. Our reserve is just lovely as it is please do not change it.	Thanks for your submission. Your concerns have been noted.
69.	121	Halswell	Christchurch	8025	1				Westlake Reserve - Can't believe you would even consider putting it here - we have had so much vandalism & graffiti - not to mention burning of toilet block - even burnt replacement Portaloo! Park is used by many sports groups, local walking groups children from nearby childcare centres visit playground also. plus many dogs & owners I have phoned Police & Council many times re vandalism & behavioural problems after dark by toilet block and playground. I am not against Skate park at all but Halswell domain is a definite plus Westlake Reserve - so close to houses as well	Thanks for your submission. Your concerns have been noted.
70.	122	Halswell	Christchurch	8025	1				Following the success of Te Hapua the obvious choice is to create a skatepark with close proximity to the centre of Halswell. The Domain is a magnet for children with numerous activities undertaken here on a regular basis. I know we will take our two sons to the future skatepark - being within walking distance. Lets continue to enhance the centre of Halswell as the vibrant heart of our community!	Thanks for your submission.
71.	124	Halswell	Christchurch	8025	1				Westlake reserve - I don't think is suitable due to it being a reserve with wildlife that would be disrupted due to noise & increased numbers of young people. The peace & tranquility of this park would be severely impacted.	Thanks for your submission.

72.	125	Halswell	Christchurch	8025	1	2	4	3	We believe that number one, two and three are the best options due to park size and not too close to housing one and three have toilet facilities. We feel that Scott Park is too small with close housing around it. There are no toilets, no lighting and currently have problems with youth and noise all hours of the night and mornings also graffiti problems.	Thanks for your submission. Your concerns have been noted.
73.	126	Westlake	Christchurch	8025	1	3	2	4	The skatepark would best be suited to the Halswell Domain. It is already on established recreational area with good proximity to shops and other facilities. Especially the bus route. Also the level of existing activity in the area will serve to minimise vandalism or anti social behaviour	Thanks for your submission.
74.	128	Halswell	Christchurch	8025	1				Please don't have it at the Scotts Park. Already we have young people tagging up our fences and leaving rubbish everywhere, along with the noise late at night. Keep those sort of things at the Domain	Thanks for your submission. Your concerns have been noted.
75.	129	Halswell	Christchurch	8025	1				Halswell Domain - Open to road - security officers to see - sports teams practice nearby & childrens park - plenty of people around "to keep an eye on skate park: Also has miniature railway nearby - will need more lighting because older children will use later in day - lights could turn off at pre-determined time. A park should be closed after determined time. - Security guards on roster at night to give residents close - quieter evening	Thanks for your submission. The car park at Halswell Domain is locked at night, local community watch could be involved in checking skate park if required.
76.	131	Halswell	Christchurch	8025	1	2	4	3	Halswell Domain would be an ideal spot - have pool there and sports grounds. The shops are handy to pick up food, if required. Also the essential facilities are at the domain also.	Thanks for your submission.
77.	132	Halswell	Christchurch	8025	1	2	4	3	Halswell Domain already has amenities such as toilet, + is v. close to community shops. It would be nice to have all the options for young people in the similar space - swimming, library, food, toilets, skatepark, parks, tennis etc I have grave concerns about Scott Park as it already attracts young people into the late hours. This causes noise, is intimidatng + on occassion furniture + rubbish have been left there. Living on the edge of this park would worry me. The other options are bigger + would not be so invasive on residents nearby. Also the football field at scott park is used every year for the football season.	Thanks for your submission. Concerns about Scott Park have been noted.
78.	137	Halswell	Christchurch	8025	1	2	4	3		Thanks for your submission.
79.	138	Halswell	Christchurch	8025	1	3	4	2		Thanks for your submission.
80.	139	Halswell	Christchurch	8025	1			2		Thanks for your submission.
81.	140	Halswell	Christchurch	8025	1	4	3	2	I really like the idea of a skate park in Halswell. I believe the Halswell Domain is the most suitable location as it's quite central & in my opinion the easiest to walk to from the majority of Halswell. Also with the pool / playgrounds / sports fields there it would be a great recreation hub. Would be great to include basketball/netball courts & update the playground. if the playground was "crawler" friendly, that would be fantastic.	Thanks for your submission. There is a tennis court and a ½ basketball court located nearby at Forgan Reserve on Marsack Crescent and at Six Silvers Reserve on Six Silvers Avenue. Additional play and recreation activities could be included if demand existed.
82.	142		Christchurch	8245	1	3	4	2		Thanks for your submission.
83.	144	Halswell	Christchurch	8025	1	3	2	4	Within Westlake Reserve it would be fantastic to have a Basketball hoop and backboard area, if at all possible. Thanks	Thanks for your submission. Suggestion has been passed onto CCC Parks Unit.
84.	145	Halswell	Christchurch	8025	1	3	4	2	To avoid noise complaints from residents and to provide Human facilities for Skateboarders and other uses the skate park needs to be built at Halswell Domain or Westlake Reserve where these facilities are located.	Thanks for your submission.
85.	146	Halswell	Christchurch	8025	1	4	2	3	The Halswell Domain option is the most appropriate for the following reasons: 1. It is ideally located with ready access to public toilets, local shops and public amenities, bus stop and off street car parking. It is the only option that meets all of the criteria. 2. Being on a main thoroughfare, it is visible and less likely to attract vandalism and other anti-social activities.	Thanks for your submission.

									3. Users are most likely to choose ice creams and cold soft drinks for refreshment and these are available from nearby shops. 4. Any noise generated from the skating etc will have minimal impact on local residents. 5. Skating is complementary to the adjacent playground. None of the other options are suitable, e.g. Knights Stream Sports Park is too far from a bus stop and shops. It is a 10 - 15 minute walk from Longhurst and the shops are not the kinds that attract users of skate parks. The facility would be too close to residences and is highly likely to create noise issues.	
86.	148	Halswell	Christchurch	8025	1	3	4	2	The park should be located near to other facilities where young people can eat, drink, socialize in safety and use toilet facilities. These are already in place near the domain. Additionally this creates a 'hub' where families can recreate and enjoy a variety of sport and physical activity opportunities; recognizing the social and community building benefits of the experience also.	Thanks for your submission.
87.	149	Halswell	Christchurch	8025	1	3	4	2	I think Halswell Domain is the best location as it is central and already a meeting point for many things	Thanks for your submission.
88.	152	Halswell	Christchurch	8025	1	3	4	2		Thanks for your submission.
89.	153	Halswell	Christchurch	8025	1	2	3	4	In my opinion, Halswell Domain is an ideal location for a skate park. It would be the least intrusive to residents, it has adequate car parking and facilities nearby and users can be as noisy as they like!	Thanks for your submission.
90.	156	Halswell	Christchurch	8025	1	2	3	4	NOT AT WESTLAKE PARK. GRAFITTI & BURNT CHANGING ROOMS SHOULD ALREADY BE ENOUGH CAUSE FOR CONCERN. LIGHTING AT NIGHT ALSO A CONCERN FOR HOUSE THAT OVERLOOK PARK, IF YOUR SERIOUS YOU'LL NEED GOOD SECURITY AT NIGHT, WELL LIT. THIS IS NOT POSSIBLE AT WESTLAKE PARK	Thanks for your submission. As per CPTED guidelines, lighting of parks is discouraged unless it's an essential designated route. Lighting will not be provided, as Council do not want to promote night time use of the space. As no additional lighting will be provided, it is not envisaged that this asset will attract use after dark Installing CCTV cameras into parks has a high install cost and require good quality lighting. For the best solution to support safety and discourage antisocial behaviour, it is better to look at ways to mitigate antisocial behaviour. This can include a detailed site specific CPTED report during the design phase of the skate and recreation park.
91.	157	Halswell	Christchurch	8025	1				Halswell domain is the most preferred location for the skate park.	Thanks for your submission.
92.	159	Halswell	Christchurch	8025	1	3	4	2		Thanks for your submission.
93.	160	Halswell	Christchurch	8025	1					Thanks for your submission.
94.	161	Halswell	Christchurch	8025	1	2	3	4	I think It makes sense to keep facilities centralised	Thanks for your submission.
95.	167	Halswell	Christchurch	8025	1	2	4	2		Thanks for your submission.
96.	169	Halswell	Christchurch	8025	1				The Skate structures needs to be situated where people will see what's happening so that children/teenagers 'safety' is enhanced. Too remote & there is likely to be 'trouble' since potential perpetrators will not be easily seen. Also easier to get to by bus	Thanks for your submission.
97.	171	Tower Junction	Christchurch	8149	1	4	3	2	The access to other community facilities, shops and public transport seems best at the Halswell Domain. It is already a meeting, family outing and recreation area in the suburb.	Thanks for your submission.
98.	173	Halswell	Christchurch	8025	1	4	3	2	Much needed facility for the area sooner the better	Thanks for your submission.
99.	179	Halswell	Christchurch	8025	1	2	3	4	Halswell Domain is the most logical location. Being near the pool supermarket bus routes and other amenities Westlake Reserve suffers from constant vanderialism waterfowl being shot tagging post broken on a weekly basis A skateboard park would increase this to a level which would cost more in repairs and constant monitoring	Thanks for your submission An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell.
100.	181	Halswell	Christchurch	8025	1	2	3	4	I do not believe Westlake Reserve is suitable for a skate park, I believe the Reserve is full and meeting the needs of the area, in particular the many walking routes, and young children being able to feed the ducks and access the playground. I do not concur there are a lot of under 14's in the immediate area, while whoever completed your research has been misled or out of touch. There has been significant antisocial behaviour in	Thanks for your submission. Your concerns around Westlake have been noted.

									the area, namely damage, fires, graffiti and injury to animals. The gates to the park are locked at night as a result! I think closeness to the lake could also be a problem for unsupervised children.	
101.	183	Halswell	Christchurch	8025	1	2	3	4		Thanks for your submission.
102.	185	Halswell	Christchurch	8025	1					Thanks for your submission.
103.	186	Halswell	Christchurch	8025	1		2		Halswell Domain is ideal because its close to pool & library & there are lots of people around therefore reducing the chances of crime & vandalism. Westlake Reserve is terrible idea look what the vandals have done to the sports praviion & toilets!!! It's outrageous!! Also I think a decent size skate park at Westlake would encrouch too much on the existing cricket pitch & rugby/soccer fields.	Thanks for your submission.
104.	188	Halswell	Christchurch	8025	1	2	4	3		Thanks for your submission.
105.	191	Halswell	Christchurch	8025	1	2	3	4		Thanks for your submission.
106.	192	Halswell	Christchurch	8025	1				I think the domain is a great location as it's like a hub for Halswell residents. It's central for all kids growing up in Halswell and combines both Halswell + Oaklands school kids. The other proposed areas may be seen as where the Oaklands kids hang out rather than the Halswell residents. Being close to the sports grounds it brings more opportunities for community feel.	Thanks for your submission.
107.	193	Oaklands	Christchurch	8025	1				On the detail sheet Halswell Domain could not it be moved sideways ove into part more along William Brittan Ave and save remaking existing playground section would save cost of doing this again or to move part of it east on the other side of access road into what is existing car park of William Britten Ave. the carpark is not propose it exist now - You main photo of grater Halswell with the four position marked should have been a up to date Aerial Photo which would show all the Housing Delopment in 1) Halswell junction Rd 2) Knight Stream, 3, Wigram Air field, 4 Wigram Rd east side, 5 Aidanfield, 6 Halswell on the Park, and other newer section being built on. The Halswell Domain is the best place as it has toitels, carparking, by Halswell pool, and shopping center plus new library center.	Thanks for your submission. Proposed to integrate play and skate to create a community facility orientated space. This space was selected as has suitable separation from neighbouring residents.
108.	194	Halswell	Christchurch	8025	1	2	3	4	As very close residents of Westlake Park, living directly opposite at 45 Westlake Drive, we would like to voice our concerns and opposition to siting a Skateboard Park within this vicinity. This park is already used extensively by a varied range of weekend sports and other social activities, with many walkers of all ages just appreciating the peacefulness and tranquillity of the park and lake environment, which would be adversely affected by this noisy activity. We strongly disagree with much of your assessment of the suitability of Westlake reserve, especially the statement which says there is NO evidence of antisocial behaviour. This is absolutely unbelievable for, as residents of 18 years, we have heard and seen the results of an incredible amount of vandalism and other very antisocial behaviour, including several arson incidents and many graffiti episodes. The most recent was the burning of the toilet block building, followed shortly after by the complete destruction of the "temporary" portaloo by fire. There have also been numerous incidents of fires being lit in the vegetation surrounding the lake and in rubbish bins. The playground slide was also destroyed by fire. Graffiti on the building and neighbouring fences has been a constant problem, and young ones have been observed on the building roof and several times the guttering has been torn off. A large amount of rubbish including bottles, cans, paper, etc, are left close to the car park and playground, but as much of this is picked up and disposed of by diligent neighbours and local residents, the council, etc, would be unaware of the extent of this problem. The	Thanks for your submission Your concerns around Westlake have been noted An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.

									proposed site will be VERY close to residential properties and the majority of close neighbours are of an older age group with no children, and many of the users of the park also appear to be in this age bracket. (walkers and dog walkers prevail during daylight hours). The young children's playground is well used by locals, but this age group is supervised and, with the large, deepish lake so close, we have concerns for unsupervised older children who would be attracted to the skateboard site. Just this summer, I personally have had to explain to 3 different groups of 10 yr - 14 yr old children who were cooling off in the water, that the lake is not suitable for swimming, as the water is "storm water and wildlife" polluted and is thick with weed. I rang the City Council regarding this and although an official warning notice is now on the jetty gate it does not prevent children of this age group from wanting to cool off - as would happen after skate boarding. Another potential hazard is the power pylon which is virtually next to the proposed site. Unfortunately a young man lost his life in 2004, when he climbed this tower and was electrocuted. Teenagers on testosterone/alcohol/drugs do not always appreciate the dangers of such hazards and we would hate to see a repeat of this tragedy. The wildlife living on and close to the lake, would no doubt pollute a nearby skate board area - but these ducks, swan, geese, etc, already get a lot of agro from unsupervised children, such as throwing stones, slingshots and even guns have been used. It is unpleasant for neighbours to have to pick up these injured and dying birds. Finally, much as we agree that teenagers needs some recreation facilities in Halswell, we do not believe that Westlake Park is a suitable location for all the above mentioned reasons. We feel the Halswell Domain, which is much more central and already has quite a number of compatible activities and facilities, is the more logical location, especially as residential properties are not so close. Thanks for giving us this opportunity to "have our say" on what could have quite an impact on our immediate neighbourhood.	
109.	195	Halswell	Christchurch	8025	1	2	3	4	As a resident living nearby to Westlake reserve, I object to the development of a skate park in Westlake Reserve. This is NOT an appropriate location for a skate park. Already, residents are often wakened at night with fireworks, noise associated with alcohol consumption and other anti-social activity. The toilet block was vandalised and burnt down, and there is graffiti in the area. Having a skatepark in the area will further encourage unsupervised youth activity late at night, and disturbance to neighbourhood households. If the Council decides to build a skatepark in Halswell, the only suitable area is the Halswell domain, where it can be part of the community complex, comprising the new library and community pool. There are fewer residents in this area, and having the proposed park located alongside the other community recreational amenities will allow monitoring by council staff and other users of the community facilities. There will be less disruption to residents. If any remedies are required (such as removal of rubbish and graffiti), it will be more likely these would be promptly attended to as part of the community facilities complex	Thanks for your submission. Your concerns around Westlake have been noted. An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell.
110.	197	Halswell	Christchurch	8025	1	2	3	4	As a resident living nearby to Westlake reserve, I object to the development of a skate park in Westlake Reserve. This is NOT an appropriate location for a skate park. Already, residents are often wakened at night with fireworks, noise associated with alcohol consumption and other anti-social activity. 									by council staff and other users of the community facilities. There will be less disruption to residents. If any remedies are required (such as removal of rubbish and graffiti), it will be more likely these would be promptly attended to as part of the community facilities complex	
111.	198	Tower Junction	Christchurch	8149	1	4	3	2	The access to other community facilities, shops and public transport seems best at the Halswell Domain. It is already a meeting, family outing and recreation area in the suburb.	Thanks for your submission.
112.	199	Halswell	Christchurch	8025	1	2	4	3	The reasons I would disagree with having the skate park at Scott park is that it is the smallest of all the proposed sites meaning it would take up a large proportion of the area, the neighbours would be very close, there are no toilet facilities but the most important I feel is that a lot of young children have to walk through it to get to Oaklands School. I just wouldn't feel safe sending my young children through when the possibility of a lot of teenagers hanging around smoking,drinking and just loitering is going to be made higher. Also its a nice park to stop halfway home from school to let the kids have a play and a catch up.	Thanks for your submission. Your concerns have been noted.
113.	200	Halswell	Christchurch	8025	1	2	4	3		Thanks for your submission.
114.	201	Halswell	Christchurch	8025	1	2	3	4	I can't understand why you have money/budget to do this, but cannot repair the toilet block at Westlake Reserve. We have noticed an increase in undesirable behaviour in the Westlake area, tagging, car tampering & grafitti, we pay large rate bills + want to keep our community safe from such behaviour so location in Westlake Park definitely not supported.	Thanks for your submission. Your concerns have been noted. An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell. The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised,
115.	202	Halswell	Christchurch	8025	1	4	2	3		Thanks for your submission.
116.	204	Halswell	Christchurch	8025	1	3	2	4	The Westlake Reserve has enough tagging and damage done there to property and wildlife with out having a skate park in there. There is always constant vandilisation in there toilet burned tagged. Not a good idea.	Thanks for your submission. Your concerns have been noted.
117.	207	Halswell	Christchurch	8025	1	2		3	In our view Halswell domain would be the suitable location for a possible skate park. It has large areas not bordering neighbours properties, which we believe must be a pre requisite for any park of this type, it has bus stops close at hand, and is the most central site in Halswell. The proposed area would make Scott Park unsuitable for any other activity, we do not accept that under 14 year olds living in the area is high compared to the Christchurch average, living and working in this area does not bear this out. Willing to attend any meeting relating to this proposal, please keep us informed of times and places of such meetings, and please give reasonable advance notice of such eg 2 weeks at minimum Reasons to keep Scott park in Checketts Avenue as it is 1) Basketball Court, Childrens playground, used every day in observations made over a 3 month period 2) Children fly a lot of kites in the park a large area is needed to be able to do this 3) Large numbers of people exercise thier dogs and themselves at this park 4) During Autumn, winter, and early spring a football/soccer field gets a lot of use by teams and individuals alike. 5) Familys have regular picnics in the park during summer 6) This park caters for and is used by ALL age group residents and citizens from the many streets around it. 7) installing a skate park in this park would ruin its use by the majority of people who use it now, and excessive noise will become a problem if situated in this park	Thanks for your submission.

118.	208		Christchurch	8025	1	3	4	2	<p>Starting with the least area</p> <p>#4 SCOTT PARK: BY YOUR OWN OBSERVATIONS. TOILETS - NO: PUBLIC TRANSPORT - NO - GRAFFITTI PRONE TO NEAR RESIDENTS</p> <p>#3 KNIGHTS STREAM: TO BE DEVELOPED AND COULD INCLUDE A SKATE PARK</p> <p>#2 WESTLAKE RES: TOILETS - YES (need repairs) EXISTING PLAY AREA - YES PLUS CARPARKING WELL AWAY FROM RESIDENTS - YES SHOPPING AREA NEARBY - NO - 2.00KMS (Westlake carpark to N/W carpark)</p> <p>#1 HALSWELL DOMAIN (area off W.Brittan Dr) TOILETS - YES, PLAY AREA - YES CARPARKING - YES WELL AWAY FROM RESIDENTS - MAYBE</p>	Thanks for your submission.
119.	209	Halswell	Christchurch	8025	1	2	3	4	<p>Not sure where you got the information about no vandalism at Westlake Park. The toilet block is covered in graffiti. Toilet block has been painted a number of times to cover graffiti, also fences on boundary. Signage has been broken. So there is evidence of unsavoury behavior already.</p> <p>We are also concerned this will be a congregation area with teens and cars coming and going at speed around our corner and in the existing carpark, which will upset dogs resulting in them barking which will be annoying the neighbours, then we will be in trouble with dog patrol.</p> <p>This park is a great place for walking dogs and meeting people. We feel this will be lost to a large extend if the skateboard area is here. It will also impact on the existing playground if the area defined in red is the whole area dedicated to the skate park. There would also be tree removal.</p> <p>A skate park would negatively impact the lovely ambiance of the reserve.</p> <p>This reserve is also the home to many lovely bird varieties. A significant concern with a skate park is that noise levels would increase significantly and frighten the bird life.</p>	Thanks for your submission. Your concerns have been noted.
120.	210	Halswell	Christchurch	8025	1	1	1	1	<p>Halswell Residents Association is happy with the 4 proposed locations as potential sites. We have no view as to which might be the best.</p>	Thanks for your submission.
121.	211	Halswell	Christchurch	8025	1	2	3	4	<p>Westlake Reserve is already having issues with vandalism and much of the park is not easy visible from the road making it a vulnerable spot.</p> <p>Scott Park is a small and popular area, very popular with primary school children.</p> <p>Halswell Domain seems the logical place for a skate park. It is already the centre of recreation for the Halswell area, easily accessible with being on main road, near shops, less likely to have issues with neighbours as all the other facilities are for the community too.</p>	Thanks for your submission.
122.	212	Halswell	Christchurch	8025	1	2	4	3	<p>Halswell Domain would be the best of the proposed locations as it is already set out as a multi-use facility. It is a central location so it is easy to access. The wide open spaces mean that it is well enough away from homes but there are good viewing points from the boundaries. There is a lot of car parking available and it is close to bus services. Not all family members may want to partake in the skating but there is other options close by such as the playground, open fields to play ball sports etc., Te Hapua and the swimming pool. Close proximity to the shops and cafes mean that families are able to purchase food and drink from local businesses. The proposed site is also close to a toilet block that has not been a target of vandalism to date.</p> <p>The other locations I believe are not as suitable due to the fact they are not as central and therefore at risk of excluding some of our youth. Scott Park is too close to housing and not a very open space. Knights Stream</p>	Thanks for your submission.

									Sports Park is out on a bit of a limb. Westlake Reserve is not suitable either due to the location. Another disadvantage of Westlake is the fact that the toilet block has been burnt down, tagged with graffiti and vandalised. The portaloos have been knocked over on several occasions. Trees have sustained damage at different times. To my knowledge these issues have not arisen at Halswell Domain.	
123.	214	Halswell	Christchurch	8025	1	2			I feel this would be best located at Halswell Domain give the big sporting complex & number of kids their plus train complexes - Halswell Domain is large & central to all of Halswell Space away from neighbourhood residence homes re noise/ voices.	Thanks for your submission. Your concerns have been noted.
124.	216	Halswell	Christchurch	8025	1	2	4	3	1) Halswell Domain is the best of the sites space, toilets, shops, library & Pool, parking & buses 2) Buses Shops Toilets Parking all available & facilities can be planned to not encroach on neighbouring properties 3) Westlake has it's own quiet character Bus, Toilets, no shops 4) We are absolutely opposed to the skateboard facility in Scott Park. We live along-side the play equipment & will suffer from the noise & behaviour of the users. This park is well used during the day & evenings by family groups. Kindy & school & sports groups We have had over 30yrs of night time noise, shouting, swearing, crying & fighting Friday Saturday & Sundays & school holidays. Please don't add to this with a skate park. These young young folk are 12-18 yr olds	
125.	218	Halswell	Christchurch	8025	1	4	3	2	I believe the Halswell Domain is best suited for the skate park. It is almost equal distance between Halswell Primary and Oaklands School, there are existing parking, toileting facilities. It is close to the library, pool, shops and on a main bus route. When it comes to the design phase, I would suggest looking at the Reefton Community Skate Park and consulting with their designers, as this is a park that works with all ages and abilities. It also caters for skateboards, scooters, BMX and inline skaters.	Thanks for your submission.
126.	219	Halswell	Christchurch	8025	1	2	3	4	. I believe that the Halswell Domain is the most appropriate site because this is the one park in our area with the size to accommodate multiple sports and activities in a complimentary fashion without interference or imposition on other activities. I would describe all other sites as community recreational areas rather than sporting and recreational areas. Sports are played on the other sites but they share the area. For example there are clubrooms on the domain but not on the other parks.	Thanks for your submission.
127.	221	Halswell	Christchurch	8025	1				Halswell Domain is the <u>only</u> serious location that would work. Youth attending the skate park need easy/handy access to shops (Fish & Chips and Supermarket) for purchases, along with other activities/sport associated with the Domain. There also is too much density of residential housing around all other proposed parks - except perhaps Carrs Reserve & Knight Stream, but these 2 locations are isolated from shops. Just make Halswell Domain the "Sporting Hub" of the area please.	Thanks for your submission
128.	223	Halswell	Christchurch	8025	1	2	4	3	SCOTT PARK NOT SUITABLE - TOO CLOSE TO RESIDENTS. As the smallest of the considered locations, I feel Scott Park is <u>not</u> suitable. Sound already carries from the basketball court, sometimes as late as midnight, and wheels on concrete are much louder & continuous than a bouncing ball. The grass park is well utilised already by people exercising dogs, children playing with balls/riding bikes & adults playing touch/cricket during the day. Placing a skate park here would mean the loss of these grass activities. Other sites have better bus route access.	Thanks for your submission.
129.	224	Halswell	Christchurch	8025	1	4	3	2	Halswell Domain would be ideal - it has the necessary facilities already & is the furthest from existing houses.	Thanks for your submission.
130.	225	Halswell	Christchurch	8025	1	2	3	4	We favour Halswell Domain due to the fact that it is a large area That is already well set up for children/family activities with the playground area, pond for model boats and the miniature trains. (which drew many families in the summer weekends) It has also a new carpark area that contains a	Thanks for your submission. Your concerns have been noted An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes

								large number of carparks, plus a bus route nearby. From a noise point of view, it would not be too close to the nearby houses if located adjacent to the carpark. Knights stream Park is a brand new area, where people moving in will accept a skatepark as part of The package. We are stongly opposed to the Westlake Res. site. As we live opposite the Westlake Reserve, we see first hand the vandalism - fire in the toilet block, burnt trees and destructon by fire of the Japanese style tori-gate. As recently as 2 weeks ago an information signpost in the carpark was broken at the base. We don't want to encourage gatherings of undesirable people.	negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell.
131.	226	Westlake, Halswell	Christchurch	8025	1				Thanks for your submission.
132.	227	Oaklands	Christchurch	8025	1			I prefer Halswell Domain as it is reasonably central & has many other activities going on in the area therefore it is less likely to be damaged or tagged. Although Westlake has houses overlooking it the playground etc has been damaged a number of times so I would definety not favour this area.	Thanks for your submission.
133.	228	Halswell	Christchurch	8025	1	2		Halswell Domain best - near all facilities. Easy to drop kids off while parents shopping. Far enough away from Houses. Traffic & activities will "normalise" sound. Knights Stream with other sports activities & school the noise levels will be normalised. Scott Prak Far too small - intrusive to neighbours toilets far to far away. Get real! Westlake - this is a passive restful area for walking & contemplation. Noise from people is not masked. The continuous rumpling & noise from a skateboard will not be masked by traffic or other sports (fields used very recreationally - casually) I know this seems NIMBY but sound here really carries. Toilets - get them fixed now! Shops - etc close - Get real nearest drinks 2km.	Thanks for your submission The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised.
134.	229	Halswell	Christchurch	8025	1			Skate parks historlicly cause trouble and Westlake reserve is not the place We already have the toilets torched the portoloo tipped over on more occasions than once, I have stopped teenagers pelting the ducks with stones and I regually have to pick up cans & bottles Why would you want to put this adjaent to quality housing when the obvious choice is Halswell domain.	Thanks for your submission. Your concerns have been noted An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell.
135.	230	Oaklands - Halswell	Christchurch	8025	1	2	4	3 Scott Park 1. Too close to existing houses, noise aspect means a large drift of noise. 2. Dangerous curve in Nottingham Avenue's southern end - Cars & heavy trucks speed around the blinding 3 curves. Much traffic congestion with parked cars means children trying to cross street are in constant danger of being run-over. 3. Too far from Bus Routes, Parking congestion will increase danger to children and traffic users. 4. Local sport teams will lose playing space. 5. Vandalism and graffitti will increase. 136.	231	Halswell	Christchurch	8025	1	3	2	4	Thanks for your submission.
137.	232	Halswell	Christchurch	8025	1	3	2	4	Thanks for your submission.
138.	234	Halswell	Christchurch	8025	1	2	3	4 What facilities such as toilets and shops are nearby? Other than a toilet block there are no shops "nearby". The toilet block was vandalised and burnt beyond use. The nearest shops would be 2-4 kilometres away from the park. • How do people get to the site e.g. walking, biking, public transport or car? The nearby bus stop only takes you back to the Halswell Shopping Centre or through Hornby to the Airport etc – the nearest bus stop to town is about 5km walk away. • Is a skate and recreational area compatible with other user groups in the space and are there any supporting activities such as playgrounds? Westlake Reserve is an area inhabited by a wide range of birdlife which	Thanks for your submission. The proposed skate park is for local community use of a beginner to intermediate skill level. It is not expected that users will travel from other areas of town to use the space. Your concerns about Westlake have been noted.

									use the lake and islands to roost and breed. Westlake lies on the flyway between Lake Ellesmere and the Estuary and is used by the birds as a stopping point. The birds already have to deal with uncontrolled dogs, and youth throwing stones. A nearby skate park is not compatible with the birdlife reserve that the Council has established.	
									<ul style="list-style-type: none">• Is there suitable separation from neighbouring residents? The noise created by the clashing of skateboards on concrete, and after-dark noise would be a nuisance for the neighbourhood.	
									We think Halswell Domain would be the ideal place. It is close to a Supermarket and shopping centre, close to Library / Service Centre, close to a bus route direct to town and is not near any homes.	
139.	235	Halswell	Christchurch	8025	1	4	3	2	Halswell domain is ideal. It away from residential housing and plenty of space.	Thanks for your submission.
									Halswell domain needs improving so would be a good start	
140.	238	Kennedys Bush	Christchurch	8025	1	3	4	2	The Halswell Domain is our preferred site as it is more central, has current lighting, offers better security and there is ample room available.	Thanks for your submission.
141.	239	Halswell	Christchurch	8025	1	4	3	2	<p>We the undersigned, as owners of properties on Denali Street, Halswell, comment on the consideration by Christchurch City Council of the proposed Knights Stream Sports Park ("Sports Park") as a location for the Halswell Skate and Recreation Park. In general we support the construction of a skate and recreation park in Halswell. It is important that young children and teenagers have outdoor options for their leisure time and that all sporting/leisure pursuits are accommodated as best as possible in our community. However we submit that the proposed location at the Sports Park is not acceptable for the following reasons:</p> <p>There is no suitable separation or distance from neighbouring residential properties. The properties fronting the Sports Park on the western side of Denali Street are very close to the proposed location - approximately 20 - 30 metres based on the plan provided by the Council.</p> <p>Nosie effects. The boundary fence between the Sports Park and the neighbouring properties is "pool-type" fencing. These fences offer no noise/sound dampening qualities whatsoever. The close proximity of the neighbouring properties to the proposed location and the potential noise levels generated by the skate and other recreational activities in such close proximity will create unreasonable levels of noise pollution and nuisance for the neighbouring properties. The existing baseline of the Sports Park is open sports fields and although organised sporting activities at the Sports Park will have their own noise effects, these for the most part will be contained to specific times of the day relative to their sports use (e.g. Saturday afternoons for senior rugby) whereas the use of the skate and recreation park will be at all times of the day (and potentially carry into at evening/night).</p> <p>Visual amenity. The visual amenity of neighbouring properties will be reduced. Owners have purchased the neighbouring properties at such time as the Sports Park was identified as sports fields, with any parking or pavilion located towards the Richmond Avenue frontage. The construction of the skate park and recreational facilities will reduce the visual amenity of these neighbouring properties. In addition, if Council were to erect lighting a the skate park for security purposes, this would have negative effects on night visual amenity for neighbouring properties due to increased light pollution in what is effectively a "rural" night time aspect.</p> <p>Outlying location. Although there are a number of new residential lots in the Knight Stream subdivisions, the Sports Park is still an outlying location for the majority of Halswell residents. The three other locations are closer to greater concentrations of residents, more centralised to Halswell as a</p>	<p>Thanks for your submission</p> <p>Noise assessments completed by acoustics engineers for other skate park projects have suggested a suitable separation between skate parks and residential dwellings is at least 40m. This formed part of the site selection criteria for this project. Specific measures will be considered during the design of the park to limit noise.</p> <p>Council does not have a management plan for Knights Stream Park as it is not in Council ownership yet, and hasn't formally been vested as a Recreation Reserve. This will occur during the subdivision process when title is transferred to Council. In any event the Reserves Act 1977 is silent as to the consequences or implications of a failure to adopt a management plan. The general empowering provisions in sections 40 and 53 of the Act also make no reference to management plans being a pre-requirement to powers being exercised.</p> <p>Legal advice to Council is that a management plan does not have to be prepared and adopted before development can proceed on a reserve. If this park is chosen to be the site for the skate park then constructing a facility for scooters, skate boarders and BMX bikers, which are recreational activities, is consistent with the purpose of a recreation reserve.</p> <p>As per CPTED guidelines lighting of parks is discouraged unless it's an essential designated route. Lighting will not be provided, as Council do not want to promote night time use of the space. As no additional lighting will be provided, it is not envisaged that this asset will attract use after dark</p> <p>There is no evidence that a skate park will impact on property prices in Halswell. Anecdotal evidence of house values surrounding Prebbleton Community Park show no evidence of a decrease in house prices following the installation of a skate park.</p> <p>When the sports park is developed (regardless of whether or not there is a skate facility) it will have a post and cable fence along the boundary with Halswell Junction Road and Richmond Avenue. This is in common with most Sports Parks in Christchurch. A car park will be provided on the sports park with entrances from Richmond Avenue with approximately 50 car park spaces.</p> <p>There is a residential boundary on the Western side of the park, therefore the proposed location for a skate facility has the most suitable separation from neighbouring properties while remaining a location in the park that has suitable visual surveillance. The proposed sports and training fields cannot be rearranged.</p> <p>The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and</p>

									<p>suburb, and closer to other suburban amenities (e.g. Halswell shops) than the Sports Park. There is no bus stop at Knights Stream and it is still a 1.5 kilometre walk to the Longhurst shopping area.</p> <p>Property values. The negative connotations of a skate park (including the potential to attract a minority that exhibit antisocial behaviour), together with the decrease in visual amenity and increase in noise will have a potential negative and unreasonable effect on the value of neighbouring properties, particularly given that such properties were purchased when the Sports Park was identified for open sports fields only (as indicated on Fulton Hogan's plan for the Knights Stream subdivision).</p> <p>Traffic. The proposed location is bounded on two sides by unrestrained access to Halswell Junction Road and Richmond Avenue. Halswell Junction Road is a significant thoroughfare for traffic heading towards the Christchurch Southern Motorway (at 60k/h plus). Richmond Avenue, once connected to Halswell Junction Road, will also be subject to increased traffic levels as the main connector to Longhurst and Halswell Junction Road. There is no evidence that Council will construct fencing or other controls to stop children from exiting the Sports Park on to such dangerous roads. In addition, Denali Street is not built to a width comparable with Richmond Avenue and does not provide for off-street parking bays. Spillover parking n Denali Street from the proposed primary school (during drop off and pick up times) and organised sports at the Sports Park is to be expected. However, given the outlying location of the Sports Park is likely to increase the congestion on Denali Street by the further "squeezing" of available road between parked cars on either side of the road. It will also reduce the parking ability for visitors and other invitees of the properties on Denali Street.</p> <p>No reserve management plan. The Sports Park will eventually vest as reserve in Council for use as a district park. The Reserves Act 1977 requires Council to administer its reserves in accordance with a reserve management plan and such requirement is mandatory. It would be unlawful for Council to allow an activity to establish on a reserve without a management plan being in place. There is no evidence that Council has a reserve management plan for the Sports Park. The Reserves Act provides for a public consultation process to be completed before a reserve management plan is adopted. It cannot be assumed that a reserve management plan would authorise the use of the site for a skate park facility or other recreational use. A reserve management plan will need to be in place before Council can even consider whether to site the skate and recreational park at the Sports Park.</p> <p>If the Riccarton/Wigram Community Board decides that the preferred location for the skate and recreation park is the Sports Park, then we submit that the proposed location should be moved to a location to the west of the carpark/pavilion area or to the extreme west of the Sports Park. This would require a rearrangement of the proposed sports and training field locations within the Sports Park. Such alternative location may mitigate a number of the issues raised in paragraph 3 but would not reduce them entirely.</p> <p>We submit that of the other alternatives, the proposed location at Halswell Domain is the most appropriate location for the following reasons:</p> <p>Existing use. Halswell Domain is currently used for existing activities over and above a standard sports field, such as playgrounds and a model railway. Halswell Domain is already a destination for many Halswell residents and provides a wide range of activities (e.g. sports fields, swimming pool, model railway) that will be enhanced and complement by a skate and recreation park.</p> <p>Separation. The proposed location at Halswell Domain is at least 100 metres from neighbouring properties, and is separated from those properties by a local road and landscaping measures.</p>	<p>recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.</p> <p>An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege.</p>
--	--	--	--	--	--	--	--	--	---	--

									<p>Location. Halswell Domain is centrally located to the population of Halswell and is also in close proximity to the Halswell Shopping centre and other Council facilities (e.g. library). This area is also better served by public transport.</p> <p>Security. Given the greater accessibility to Halswell Domain, both due to proximity with population and public access, there are more "eyes" on the ground to deter any antisocial behaviour. In addition, there are also existing street lights on William Brittan Avenue which provides added security (and the erection of any security lights in the proposed location would not have the same negative effect on visual amenity as at the Sports Park due to such exiting lights).</p> <p>We hope that the Board takes in account these factors in making its decision.</p>

Halswell Domain - Your Voice submissions

19 (51%) submitters indicated this location as their first choice.

No.	ID #	Halswell Domain	Proposed Knights Stream	Scott Park	Westlake Reserve	Full Comments	Project Team Response
1.	6	1	3	2	4	<p>Halswell Domain - Location wise I think this is best. Close to other things & shops.</p> <p>Westlake Reserve - Please don't put it here. I feel very strongly about it not going here!!!</p> <p>Scott Park - This is to residential I think.</p>	Thanks for your submission.
2.	7	1	2	4	3	<p>Halswell Domain - The Halswell Domain would be a site where it is further away from houses/ resident. We already have issues with young people gathering and causing mess and being loud late at night in Scott Park. An added attraction there would create more noise and potential trouble right in people's back door steps. Halswell Domain has the space, toilets and other facilities nearby. It makes sense to make one big hub. Halswell Domain would be the ideal place to have it.</p> <p>Scott Park - There are already groups of young people gathering on the basketball court and at times leaving rubbish and creating noise late into night. I would be afraid if more people were to gather there. Also having no toilet would not be very sanitary.</p>	Thanks for your submission. Your concerns around Scott Park have been noted.
3.	10	1	2	4	3	<p>Halswell Domain - This would place the skate park close to shops, toilets and public transport, making it the best connected option socially and economically.</p> <p>Westlake Reserve - I know a lot of locals wouldn't like it there, and it would be hidden away to some extent, but other than that it is on a bus route and other recreation facilities exist.</p> <p>Knight Stream - Too new and unknown to the rest of Halswell, not sure how well this would go down with the target population or the new locals.</p> <p>Scott Park - No toilets and overall this is a small reserve - a skate park would only make it smaller.</p>	Thanks for your submission.
4.	11	1	3	4	2	<p>Halswell Domain - I think this would be the ideal place, central to Halswell and in an area where it would be regularly observed by the wider community creating a safer environment for younger children, also being in the vicinity of other facilities it would be utilized more often than a stand alone park</p> <p>Westlake Reserve - it's rather isolated and under utilized making it more likely to be used by older kids as a hangout as per the fire, cig butts and mess that lies around the place, not a nice place for you get children just currently</p>	Thanks for your submission.

						Knight Stream - Not very centralized for the greater Halswell Scott Park - Don't even know where that is	
5.	15	1	2	3	4		Thanks for your submission.
6.	16	1				This is by far the best option. The consolidation of activities here means that all facilities benefit from the surveillance provided by all users. Families can visit the domain and slit up into smaller groups to partita try in different activities.. eg mum and toddlers at the playground while dad and 8yr old are across at the skate Park.	Thanks for your submission.
7.	18	1	2	4	3	Halswell Domain - I think this would be the best place as plenty of off street parking and no surrounding homes for noise disturbance. It is also central & easy to find. Westlake Reserve - not answered Knight Stream - not answered Scott Park - I don't know where this is	Thanks for your submission.
8.	19	1	4	3	2	Halswell Domain - Excellent spot close to infrastructure capable of handling the people who will be attracted to this facility. Secure with the pools, park etc Westlake Reserve - not answered Knight Stream - No infrastructure to support this yet and even when constructed will be close to high speed roads including motorway. Already there have been instances of graffit in the area Scott Park - not answered	Thanks for your submission.
9.	20	1				Halswell Domain - It would be my only preferred option as neighbours not close by and other activities nearby as well. Westlake Reserve - Definitely don't want it here as it would be very noisy for the neighbours listening to skaters all day and night. There has been enough vandalism already with the toilet block and graffiti all over it as well as the goal posts. Leave the park as it is for the recreational walkers and rugby games cricket games and people enjoying the lake. A skate park will bring a lot fo unwanted teens hanging around causing more problems. Knight Stream - Will also be a problem with noise for neighbouring properties. Scott Park - Also a problem with noise for neighbouring properties.	Thanks for your submission. Noise assessments completed by acoustics engineers for other skate park projects have suggested a suitable separation between skate parks and residential dwellings is at least 40m. This formed part of the site selection criteria for this project. Specific measures will be considered during the design of the park to limit noise. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
10.	24	1	4	3	2		Thanks for your submission.
11.	26	1	2	4	3	Halswell Domain - In a non residential area, close to amenities, toilets etc. with parking but with enough people in the area to prevent graffiti and anti-social behaviour Westlake Reserve - Too close to residential areas, not enough room, would spoil the area. Knight Stream - Too close to a school with young children, too close to palyground with small children, not close to a bus stop for older children, with a sports pavilion it will be too much for the area. Scott Park - Doesn't sound suitable at all from the description.	Thanks for your submission. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
12.	27	1	3	4	2	Halswell Domain - It is central, visible, accountable and easy to get to for most of Halswell There are toilets, lots of people using the area and passing by with easily accessbile bus routes and crossing swchich make it safe I would feel safe letting my children go here Westlake Reserve - Westlake is too closed in. Whilst there are houses around, they are separated by high fences which means that it is not that visible i would not let my children go to a skate park there without supervision. The park is a known vandalism hotspot with the club rooms and the childrens playground both being burnt down over the last few years Knight Stream - It is too far away across a very busy road with no suitable crossing points for anyone not living in knights stream It is not really in a central place and has no easy bus access. I certainly would not let my children go unsupervised to this park Scott Park - Too small, too close to houses, no parking and no toilet facilities It is nice and open meaning it is accountable and less likely to be vandalised but is far from ideal	Thanks for your submission. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
13.	29	1	2	3	4	Westlake Reserve - There is no other facilities nearby ie shops cafes, to close to properties	Thanks for your submission.
14.	30	1	4	3	2	Halswell Domain - Yeah, it'd be sick! A great place to create new friends, and being from the local youth group it'd be an awesome place to take youth, and have them in a safe, controlled environment, getting them outdoors and teaching them new, fun skills.	Thanks for your submission.
15.	31	1	4	3	2		Thanks for your submission.
16.	32	1	3	4	2		Thanks for your submission.
17.	33	1	2	3	4	Halswell Domain - Best location, as local amenitites and existing activity are most suitable for the addition of a skate park. This park is closest to the shopping centre/ pool and is farthest from residential areas. Westlake Reserve - Unsuitable, Westalke is a wildlife area. The noise from a skate park would be disruptive to nearby residents, the wildlife and families using the park. The existing playground is well used by families and moving the existing playground is an added cost which is not necessary. There	Thanks for your submission. Your concerns around Westlake have been noted.

						has already been vandalsim in the area with the toilet block being burned down twice, the addition of a skate park is likely to increase antisocial behaviour and attract drug trading and crime, burglaries to the area. With a playground and extensive paved walkways in close proximity to a skate park, it is inevitable that there will be collisions between fast moving vehicles and children/ walders. Skate parks have a long association with tagging, drug sales, violence and other crime. This quiet community park would be fundamentally changed for the worse by the inclusion of a skate park/ bmx track. This park is fairly distant from the shopping centre and pool listed.	An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.	
18.	34	1	2	3	4	Halswell Domain - Halswell Domain is preferable due to the large area of the domain as well as facilities already in place. Shops are nearby as well as the library, pool and sports fields. The perfect all round child friendly area. Westlake Reserve - This area is in my street and the skate park would be too close to many houses. Already there are issues with drugs and cars in the area, as well as incidents of fire starting. The facilities around the proposed area would not be enough to keep the kids out of trouble. There is a power pylon right next to the proposed park, which will be too much temptation for the children, since we have already had a death. The nearby lake is also a risk due to the fact it is not supervised as the Halswell pool would be. westlake park is known for its peace and tranquility, often seeing families gathering for games of cricket, touch, kite flying, picnicing and walks. It would be a shame to lose the family vibe with the addition of the skate park, which is usually kids only escapes. Knight Stream - not answered Scott Park - the park is too small and close to housing to accommodate a skate park.	Thanks for your submission. Your concerns around Westlake have been noted. An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.	
19.	37	1	3	4	2	Halswell Domain - Best spot closest to many other activities eg Library, Domain, Key Activity Centre Public Transport Prevailing wind Would take nay noise away from the closest residents Westlake Reserve - No Commercial activity around. Not near the hub of Halswell Knight Stream - To remote to central catchment area. Scott Park - Residential all around it existing sport would require relocation	Thanks for your submission.	

Knights Stream

60 (25%) of submitters indicated that this location was their first choice.

1.	8	Halswell	Christchurch	8025	3	1	2	4	I am concerned for the wildlife at Westlake if the skate park was to be there. I have seen children from the ages of 7 to approx. 16 years chasing the black baby swans and on a couple of occasions throwing stones at the swans and geese and on the one occasion resulting in the death of a baby swan due to stone throwing.	Thanks for your submission. Your concerns have been noted.
2.	13	Halswell	Christchurch	8025	4	1	3	3	I like knights stream idea the best as i have seen how many children use the templeton area after school so if it was close to a school the convenience and use could be maximised. Also as a considered addition to a new facility it is not going to take away from existing use at the other parks. another location? perhaps it could be incorporated to the new subdivision between sparks and halswell roads/hendersons to milns (if footpath access was improved) dog walkers at westlake and halswell domain would be affected, also wildlife and young children -especially at halswell domain playground and when trains are running. halswell domain has alot going on already and often has an overflow of	Thanks for your submission. The space between Henderson's and Milns Rd is outside the catchment for this project, and the area is close to an existing skate facility at Hoon Hay Park. Your concerns around Westlake Reserve, Halswell Domain and Scott Park have been noted. The Westlake location was chosen as this was the space that had the most suitable visual surveillance in the reserve. There is not suitable surveillance at the Wigram Rd end or at Arkwright Place. This site is also next to a car park, bus service, playground and toilets.

									<p>parking even though the new parking has been put in. graffiti and care of the waterway at halswell domain are already an issue.</p> <p>if it was put at westlake could it be put more at the wigram road end or in the soggy end by the end of arkwright where in the winter its often to wet to use anyway? where the use is not going to change or interrupt what is on offer already as much.</p> <p>scott park is used alot for its grass area by other sports, do we want to take this away in a small park area?</p>	
3.	24	Halswell	Christchurch	8025	3	1	2	4		Thanks for your submission.
4.	30	Riccarton	Christchurch	8440	4	1	3	2	<p>I would like to express my opposition to a skate park in Halswell. However should this project proceed I recommend the following design points:</p> <ul style="list-style-type: none"> - adequate video surveillance coverage - that surfaces be covered with graffiti/tagging proof coatings - that any graffiti/tagging is promptly removed 	<p>Thanks for your submission.</p> <p>Installing CCTV cameras into parks has a high install cost and require good quality lighting. For the best solution to support safety and discourage antisocial behaviour, it is better to look at ways to mitigate antisocial behaviour. This can include a detailed site specific CPTED report during the design phase of the skate and recreation park.</p>
5.	34	Halswell	Christchurch	8025	2	1	4	3	<p>Would like to know what measures will be put in place to limit noise (hence why Scott Park & Westlake are NOT a good option location wise) and anti-social behaviour especially at night-time. Will this facility be one that is suitable for a large majority of the Halswell Community?? Work could be done to create a new playground / BMX track in the proposed Knights Stream sports park which we believe more would be happily use in this neighbourhood.</p>	<p>Thanks for your submission.</p> <p>Noise assessments completed by acoustics engineers for other skate park projects have suggested a suitable separation between skate parks and residential dwellings is at least 40m. This formed part of the site selection criteria for this project. Specific measures will be considered during the design of the park to limit noise.</p> <p>Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.</p>
6.	37	Halswell	Christchurch	8025	2	1	4	3	<p>Scott Park - Sounds to difficult. Westlake - seems to have enough activity already. Halswell Domain - Has a larger area, but for us more travel. Knights Stream sounds perfect!</p>	Thanks for your submission.
7.	38	Halswell	Christchurch	8025	4	1	3	2	<p>We are totally opposed to the development of a Skate Park in Halswell Domain, so close to neighbouring residential properties.</p> <p>There is no "suitable separation" from these neighbouring residents.</p> <p>William Brittan Ave is a quiet residential street and the noise level will increase dramatically. The Skate Park would be 50 metres from houses whereas your report states "most neighbourhood parks were eliminated due to the proximity to neighbours".</p> <p>The existing playground is very peaceful and extremely popular with families with very young children/toddlers.</p> <p>The families that use the existing playground "ill not wish to have their children subjected to the language and habits used by older children/youths who generally use a skate park - we have had direct experience of this with taking our own grandsons to a skate park.</p> <p>It will increase the traffic movement in a quiet residential street.</p> <p>It has the potential to devalue properties in the area. We would NOT have bought our home six months ago if there had been a Skate Park in the Domain - we bought it for the quiet and peaceful outlook.</p> <p>Contrary to the statement in your report "Having no evidence of vandalism or anti social behaviour" there have been several instances of graffiti in the last 6 months - cleaned up by City Care. Having a Skate Park could introduce more of this anti social behaviour.</p> <p>There are highly valued model engineering facilities .in the domain which have also been targeted by graffiti "artists" and cleaned up by the miniature railway society themselves.</p>	<p>Thanks for your submission.</p> <p>Noise assessments completed by acoustics engineers for other skate park projects have suggested a suitable separation between skate parks and residential dwellings is at least 40m. This formed part of the site selection criteria for this project. Specific measures will be considered during the design of the park to limit noise.</p> <p>Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.</p> <p>There is no evidence that a skate park will impact on property prices in Halswell. Anecdotal evidence of house values surrounding Prebbleton Community Park show no evidence of a decrease in house prices following the installation of a skate park.</p> <p>An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell.</p>

									We do not intend to be put in the position of being police for the area by providing "natural surveillance" for the Skate Park - who do we contact at 10 pm on a Tuesday night?	
8.	39	Halswell	Christchurch	8025	3	1	4	2	Scott Park is surrounded by housing. It has little park.	Thanks for your submission.
9.	40	Halswell	Christchurch	8025	4	1	3	2		Thanks for your submission.
10	51	Halswell	Christchurch	8025	3	1	4	2	Scott Park is too small, what area is there is used by children flying kites and playing ball, also no parking. I feel that Knights Stream sports park is the best option as it is all being developed there so there will be no disruption to other facilities.	Thanks for your submission.
11	53	Halswell	Christchurch	8025	2	1	3	4	I think the proposed Knight Stream sports park will be a perfect site for skate park, because it is a developing park so easy to put new plans like skate park, and there'll be a primary school nearby to be built, so it'll be a perfect place for kids.	Thanks for your submission.
12	56	Halswell	Christchurch	8025		1	2	3	we don't think it is a good idea to put a skate park near a childrens play ground	Thanks for your submission. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
13	59		Christchurch	8245	4	1	2	3	Not a great idea next to new carpark in domain, also right beside kids playground (younger kids)	Thanks for your submission. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
14	60		Christchurch	8245	4	1	2	3	Not by new car park in domain they would end up using that also!	Thanks for your submission. You concerns have been notes.
15	66	Halswell	Christchurch	8025	4	1	3	2	Halswell Domain seems to be getting crowded.	
16	68		Christchurch	8025	4	1	2	3		Thanks for your submission.
17	70	Lexi Park, Rolleston	Christchurch	7614	3	1	4	2		Thanks for your submission.
18	73	Halswell	Christchurch	8025	4	1	2	3	I support the project. I place Knights Stream as no 1 as there is good access, it is rapidly developing and will need youth facilities to help develop a sense of community.	Thanks for your submission.
19	76	Halswell	Christchurch	8025	2	1	3	4	Proposed Knights Stream Sports Park is the ideal location for the skate park as it will be developed along with the other recreation facets. Westlake Reserve is definitely NOT SUITABLE as there would be a conflict with young childrens playground, also many other sports use this reserve plus it is surrounded by housing. Halswell Domain may be suitable as there is room to accomodate the skate park and it fits in with the various sports in the domain. Certainly keep it away from areas close by to housing.	Thanks for your submission.
20	78	Halswell	Christchurch	8025	2	1	3	4	With the amount of new housing in Knights Stream I think it would be the better of the 4 suggested places. Halswell Domain also as it has some many amenities available on hand. Has Carris Reserve been considered?, a good alternative allowing for the amount of new housing in Wigram and Halswell Junction Rd areas.	Thanks for your submission. Carris Reserve was considered and was deemed possible. However it's dependent on when the Kart Track and Greyhound facilities are relocated. There are no timeframes around when the reserve will be developed, so will not fit in with existing skate parks budget timeframes.
21	83	Halswell	Christchurch	8025	2	1	3	4	Westlake is far too small and I'm sure the residents of the area won't want a lot of noisy teenagers gathering there. Its also a quiet area to go and contemplate and walk dogs, that by putting such a thing would disrupt. Put it in Knights Stream - not yet developed so wouldn't disrupt other areas that are now being used. A proper secure dog park in Halswell would be good - too many mountain bikers @ the quarry who are very inconsiderate and don't look out for dogs or stay on their paths!	Thanks for your submission. A dog park in Halswell is outside the scope of the project. Suggestion has been passed onto Parks Unit.
22	84	Halswell	Christchurch	8025	2	1	4	3	1. With an eye to the future, the Knights Stream Sports Park looks ideal - <u>provided</u> all the proposed development goes ahead. Can be incorporated into the sports park development plan. 2. Halswell Domain location also ideal <u>but</u> would be more costly having to relocate and re-develop the playground. 3. Westlake Reserve - just doesn't excite me at all plus - there would need to be	Thanks for your submission.

									extensive redevelopment - not as accessible as the last two sites either. 4. <u>No</u> - Scott Park would be <u>just</u> a skate park - too small. Really nothing else there. Nearest toilets Halswell Domain??!! That's ridiculous!	
23	89	Halswell		8025	4	1	2	3	Knights Stream sports park is perfect for this venture. There is a large amount of young familys in Longhurst and Knights Stream. Also the wildlife in Westlake and the domain would not benefit from a skatepark! Please leave Westlake and domain for people to enjoy water and wildlife in peace and have little children feeding ducks!! Thanks	Thanks for your submission.
24	94	Halswell	Christchurch	8025	2	1	4	3	I oppose to build a skate park at Scott Park. Scott Park is not a big size suitable for skating and also parking would be a big problem if there are more people to come to use for skating. Also, children, primary school kids have always used Scott Park as a route to go across to Oaklands School in the community. However, skate park is usually catered for youngster or teenagers, it might not be so suitable since the age groups are quite different from who are using the park currently. The other concern is Scott Park is very close to residents houses, probably can cause neighborhood disturbance. Thanks.	Thanks for your submission. Your concerns around Scott Park have been noted.
25	95		Christchurch	8025	3	1	4	2	Knights Stream Sports Park seems an ideal location. Dovetails well with other planned use. In the Domain it can be very busy indeed on Sunday afternoon with the model railway. I walk thru there everyday and many buildings (with the exception of the landy) are 'graffitted'. Knights Stream will not mean the extra cost and disruption of moving an existing playground. Scott Park is impractical due to no toilet facilities.	Thanks for your submission.
26	96	Halswell	Christchurch	8025	2	1	3	4	Westlake Reserve: Over my dead body! The proposed location is too close to the birdlife that lines the lake. Its also 20 seconds from our back fence and we already have graffiti problems and behavioural issues with noise and vandalism. Retirees in vicinity (a lot) also. Knights Stream Sports Park: Most fitting as has shops and school nearby and still has public transport and toilets. Halswell Domain would also be suitable.	Thanks for your submission. Your concerns have been noted.
27	98	Halswell	Christchurch	8025	2	1	3	4	Re Westlake Reserve: There have been many occasions the Council has repainted the toilet block to remove graffiti, both pre and post the fire there. The first parka top left there was burnt out and the replacement one to that was pushed over. The adjacent neighbours fence bordering the park has been graffitied at least twice. Also the fences further along the footpath have been graffitied. The Council's pump valve box, by childrens playground has also been hit with graffiti, along with a rugby post protector pad and a fence at entrance off Chillwell Place. Post weekend there are regularly alcohol bottles left around reserve, some broken which is dangerous for wildlife around the lakes, and pet dogs regularly walked in reserve. - Bottles and rubbish are regularly picked up by locals using the reserve. In the past playground equipment has been burnt and vandalised. CCTV camera were temporarily installed which seemed to fix the problem. So in my opinion I feel locating a skate park in this area may be more detrimental than as asset to the Reserve, which will be a shame for all ages using this area. I am not against skate pars or teenagers but wonder if it is wise to locate skate parks next to young children's playgrounds as teenagers will always be teenagers and behaviour, and language used may not be suitable next to youngsters areas.	Thanks for your submission. Your concerns around Westlake have been noted. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
28	108	Halswell	Christchurch	8025		1				Thanks for your submission.
29	118	Halswell	Christchurch	8025	2	1	3	4	I think the skatepark shouldn't go in Westlake reserve as very young children, mothers and toddlers are the main users of the playground there and having older children , teenagers near by may spoil their enjoyment plus the field next door is used for sports cricket etc so this may also be disrupted. As to there being no Graffiti in Westlake reserve this is untrue as the graffiti has been painted over by local volunteers the burnt out toilets were covered in graffiti	Thanks for your submission. Your concerns around Westlake has been noted. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
30	120	Halswell	Christchurch	8025	4	1	3	2	I'm totally opposed to it in the Domain. We live opposite the site & most weekends we are woken with yelling & screaming from idiots clowning around and a skate park will make it worse. We have had tagging & vandalsim as well. I think the location needs to be as far away from residents as possilbe. I think all of the sites are too close to residents. I think Carrs Road would have been a	Thanks for your submission. Your concerns around Halswell Domain have been noted.

									better place, as there aren't many houses around. Personally i don't think we need a skate park. When the carpark went in we were told the gates would be locked daily, but they never are.	Carrs Reserve was considered and was deemed possible. However it's dependent on when the Kart Track and Greyhound facilities are relocated. There are no timeframes around when the reserve will be developed, so will not fit in with existing skate parks budget timeframes.
31	123	Halswell	Christchurch	8025	2	1			Flying in the dark a little re Knights Stream. Therefore it may be that Halswell Domain is better suited as it is our community hub, with good provisions for the wider community in place. To consider Scott Park or Westlake reserve in the mix doesn't appear to have any consideration to the impact 'socially' it would have on these areas. Without burying ones head in the sand - if for some strange reason Westlake Reserve was to be selected the proposed location has not even been thought through other than saying it is by the road for security. If time was spent here in the 'wee hours' you'd know how dangerouse this would be.	Thanks for your submission. Your concerns around Westlake have been noted.
32	127	Halswell	Christchurch	8025	2	1	4	3	My preference would be to consider Carrs Reserve as primary location. The map is misleading (2011) as the building programme south of Halswell Junction Road & West of Wigram / Aotea Roads is now coming to capacity. Therefore Carrs Reserve is in a prime location for growing youth populations of these subdivisions Alternatively Knights Stream for above reasons. Scotts park - too small, likely impact on close housing & elderly population. The intermittent use for soccer is a good fit still. Westlake Reserve should remain as is, also due to the aging population & issues with unpredictable teenage behaviours	Thanks for your submission. Carrs Reserve was considered and was deemed possible. However it's dependent on when the Kart Track and Greyhound facilities are relocated. There are no timeframes around when the reserve will be developed, so will not fit in with existing skate parks budget timeframes.
33	130	Halswell	Christchurch	8025	2	1	4	3	I have put Scotts Park and Westlake as not a good idea - not because it is near my location but because for Scotts Park it is too built up for Skate Park also Westlake has some great bird life on and around it this would be disturbed by Skate Park.	Thanks for your submission.
34	133	Halswell	Christchurch	8025	4	1	3	2		Thanks for your submission.
35	135	Halswell	Christchurch	8025		1	2	3	Words fail me that consideration would be given to the area outlined in the Halswell domain in such close proximity to steam trains! There is enough vandalism in that area without attracting more youths. The noise with housing at such close range is not acceptable when it could be utilised 16 or 18 hours a day. At a stroke of a pen you devalue the area & make our properties difficult to sell. Think again!!	Thanks for your submission. Your concerns around Halswell Domain have been noted. As no additional lighting will be provided, it is not envisaged that this asset will attract use after dark. Skateboarders, scooter users and bike riders need suitable lighting to safely use the space. The gates to the car park are locked at night during daylight saving time from 8am - 8.30pm and during standard time 8am - 9.30pm. There is no evidence that a skate park will impact on property prices in Halswell. Anecdotal evidence of house values surrounding Prebbleton Community Park show no evidence of a decrease in house prices following the installation of a skate park.
36	141	Halswell	Christchurch	8025		1		2		Thanks for your submission.
37	143	Halswell	Christchurch	8025	2	1	3	4	Westlake Reserve is home to nesting bird pairs and a number of other bird species that come and go. The proposed site of the skate park would be very close to this lake. I am against the park being established here for ecological reasons.	Thanks for your submission. Your concerns have been noted.

38	147		Christchurch		2	1	3	4	<p>Hi. Thought I should update you on the history of issues at Westlake Reserve. We have lived in Eskdale Place for 15 yrs. Over that time there has been on going problems with anti social behaviour at the park. I can recall at least 6 fire call outs in recent years.</p> <ol style="list-style-type: none"> 1. Wooden memorial arch set alight. 2. Cabbage trees set on fire. 3. Playground set alight and melted slide tube. 4. Flaxes set alight. 5. Landscaping set on fire near western pond. 6. Toilet block (still closed) <p>Other problems have been broken glass spread over the cricket wicket and surrounding area meaning cricket was not played there that day. Also around play equipment. The rugby posts being removed and dumped in the lake. Cars doing skid practice over night on the rugby and soccer fields also meaning no play. Cars regularly park on the fields (in winter) as the car park is way too small. The gates for the car park now get locked at night. Human shit smeared over the drinking fountain. And it goes on and on. CCTV was installed to monitor/deter these things.</p> <p>But the best one is the death in the park near the play equipment. We are now reminded of this by a memorial seat with plaque under the pillion where the climber fall to his death one evening. Please remove the seat. We don't need to be remind of this. Best forgotten.</p> <p>Access is also problem as the bus service was destroyed for Westlake in the last reshuffle of routes.</p> <p>Happy the talk to you. But a skate park needs to be well away from residential housing. Washington Way skate park works well due to this.</p> <p>Regards Jeff</p>	<p>Thanks for your submission.</p> <p>Your concerns around Westlake have been noted.</p>
39	150	Halswell	Christchurch	8025	4	1	2	3	<p>I think halswell Domain has enough things going on already with Sports activities, trains, playground. I am nervous about the 'type' of person the skate park might attract. Already a lot of spray painting on buildings.</p>	<p>Thanks for your submission.</p> <p>The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.</p>
40	151	Halswell	Christchurch	8025	4	1	2	3	<p>To propose knights stream sports park as the most preferred location because it is going to be a sports park according to the initial CPTED assessment. Neighbouring properties have suitable oversight of the park for natural surveillance. As westlake reserve and Scott park have some mischief behaviours</p>	<p>Thanks for your submission.</p> <p>The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi</p>

									which could means that a bunch of teens have too much energies but nowhere to spare, to build a skate park in either of these two areasshould be a positive incentive to keep them occupied and transfer negative behaviours into something interesting. The reason to propose Halswell domain as the least preferred location is because there are the miniature trains and Canterbury Society of Model and experimental engineers actively exercising around the park. The playground always utilises by young kids aged around 0-10 yr olds. I don't think that a skate area would compatible with the existing playground & other two mentioned groups in the Halswell Domain.	(Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
41	154	Halswell	Christchurch	8025	2	1	4	3		Thanks for your submission.
42	155	Halswell	Christchurch	8025		1			I do not feel a skate park should be in the same area as a childrens playground. So many small children play at them safely now. A skate park should be where older children can let off steam without being a safety factor for little ones	Thanks for your submission The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
43	158	Halswell	Christchurch	8025		1				Thanks for your submission.
44	162	Halswell	Christchurch	8025		1			I think Knights stream sports park is a far better location than Halswell Domian. We have so much traffic that speed and do excessive speeds along William Brittan Ave- so many people with animals and children in the area. It's a real concern with safety at present without a skate park causing more traffic. their is too many young people (kids) and being by a sports park is alot more suited to a skate park. Definitely a 'no' from us in Halswell.	Thanks for your submission. Your concerns around Halswell Domain have been noted.
45	163	Halswell	Christchurch	8025	3	1	4	2		Thanks for your submission.
46	164	Oaklands	Christchurch	8025	2	1	4	3	I don't know of any other suitable locatons but feel that the skate recreation park needs to be in a high visability area with toilet facilities and other sports grounds would be a bonus	Thanks for your submission.
47	165	Halswell	Christchurch	8025	2	1	3	4	Skate parks should be located as far away as possible from residential areas. They have a propensity to attract trouble. I have spoken to some of my neighbours and no-one wishes to see one established in westlake reserve. I regularly take my grandchildren there and would not like to see it disrupted in any way.	Thanks for your submission. Your concerns have been noted
48	170	Halswell	Christchurch	8025	4	1	3	2		Thanks for your submission.
49	172	Halswell	Christchurch	8025	4	1	3	2		Thanks for your submission.
50	174	Halswell	Christchurch	8025	4	1	3	2	The introduction of these parks can lead to an increase in "tagging" and a fall in property values. The "Knights Stream area has a school over the road" (to be built) - this seems an appropriate location for such a facility.	Thanks for your submission. There is no evidence to back up the claim that installing a skate park will impact on property prices in Halswell and lead to an increase in tagging. Anecdotal evidence of house values surrounding Prebbleton Community Park show no evidence of a decrease in house prices following the installation of a skate park.
51	176	Halswell	Christchurch	8025		1				Thanks for your submission.
52	177	Halswell	Christchurch	8025	3	1	2	4	I don't believe it, "a skate park", we don't need one, thank you Noisy etc etc. With our lovely lake at times fill of lovely ducks, geese, and swans like us do they need the noise and no doubt mess left around Far rather see this money spent on fixing the discusting toilet block with the money. It has been horrible for months. The poor children that play cricket/soccer in the park No toilet Since the security light has been removed the standard of our lovely park has fallen	Thanks for your submission Your concerns around Westlake have been noted. The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised. Installing CCTV cameras into parks has a high install cost and require good quality lighting. For the best solution to support safety and discourage antisocial behaviour, it is better to look at ways to mitigate antisocial behaviour. This can include a detailed site specific CPTED report during the design phase of the skate and recreation park.
53	180	Halswell	Christchurch	8025	3	1	4	2	The Knights Stream Sports Park would seem to be the best site out of the four suggested site's, as it is a new park and there are two new large subdivisions,	Thanks for your submission.

									plus schools' and shopping area's. The site would give a much larger scope for the positioning of a Skateboard Park without having to move any of the existing equipment, which would have to be moved on other site's you have named. Halswell Park for instance has a very well used young children's playground and model railway which could be affected, and seems very excessive given you have a site that is new. Having the Skateboard park in Knights Stream Sports Park means that as people move into those new area's they will know there is a Skate Board Park, as opposed to all other site's you have suggested.	
54	182	Halswell	Christchurch	8025	2	1	3	4	We feel Knights Stream is the best proposed location as it won't interfere with any existing playground areas and can be easily incorporated into the plans for the sports park before being built. We wouldn't want it going in Westlake Reserve, as this is the closest site to where we live and we regularly use the playground and area with out young family	Thanks for your submission.
55	184	Halswell	Christchurch	8025	2	1	3	4	Our first preference is the Knights Stream Sports Park. It is yet to be developed so an opportunity exists to include the Skate Park in conjunction with the development of the rest of the recreation activities. The Westlake Reserve and Scott Park would be a definite <u>NO</u> because there would be no suitable separation from neighbouring residents. also, both areas have children's play areas in close proximity which could encourage problems with older children using the playground equipment designed for smaller children. Our second choice would be the Halswell Domain provided the separation from the children's playground could be achieved.	Thanks for your submission. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
56	189	Halswell	Christchurch	8025	2	1	4	3	Scott Park already used Basket Ball Childrens Playground Soccer field constant use for a lot of the year West side of Park 5 Houses on Boundry East side 5 Houses on Boundry Nottinham Av & Checkets too narrow for parking cars No Toilet No shops close by	Thanks for your submission.
57	206	Westlake	Christchurch	8025	2	1	4	3	Skates are very noisy therefore I think it needs to be away from a residential area. Being in the centre of this is not a good idea for at times on special occasions there would be loud music. And so I think Knights Stream is the best place.	Thanks for your submission Noise assessments completed by acoustics engineers for other skate park projects have suggested a suitable separation between skate parks and residential dwellings is at least 40m. This formed part of the site selection criteria for this project. Specific measures will be considered during the design of the park to limit noise.
58	210	Halswell	Christchurch	8025	1	1	1	1	Halswell Residents Association is happy with the 4 proposed locations as potential sites. We have no view as to which might be the best.	Thanks for your submission.
59	222	Halswell	Christchurch	8025	2	1			As a resident who backs onto Westlake Reserve - please leave this Reserve as it is. The existing toilet block which has been burnt and graffied is a concern and over recent years the playground equipment has also been set on fire. A skate park in Westlake Reserve would be a meeting point for all hours of the night.	Thanks for your submission. Your concerns around Westlake have been noted.
60	237	Halswell	Christchurch	8025	2	1	4	3	Halswell Domain • A quiet park enjoyed by, young, old, joggers and dog walkers. The tranquillity of this park would be interrupted by the above users. • Retrofit means potential for additional expense and interruption to above activities. • The train park is the unique attraction at this park and attracts many families, particularly with small children. The skate park could easily be incompatible with this train attraction. Proposed Knights Stream Sports Park • New park that can be designed correctly, not retrofit to ensure correct placement of skateboarding giving consideration to safety, amenities and • Cost should be minimised as part of new installation. • This would give this park a unique attraction not available at the other parks.	Thanks for your submission. Your comments have been noted. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community. Your comments around recycling bins has been passed onto the Parks Unit.

									<p>Scott Park</p> <ul style="list-style-type: none">• Used by young and old to practice basketball.• Thoroughfare used by students and families of Oaklands School, morning and evening.• Just over 110 metres across from Nottingham Avenue to Checketts Avenue, this park is relatively small for this kind of activity, particularly if it is to also continue to support current activities.• Nottingham Avenue, Checketts Avenue and Wales Street are busy roads throughout the day since the new motorway has been opened (shortcut to/from Dunbar Road etc.). Nottingham Avenue has the child care centre and Checketts Avenue is busy during school hours as well as having large trucks parked beside the park day and night. The T-Intersection of Revell Street with Checketts Avenue makes for additional traffic issues. There are no formal crosswalks at any of these streets.• There are no toilets at this park.• The footpaths require upgrading to ensure safe movement between the park and homes for safe skateboarding. Let's not kid ourselves, if the footpaths are not safe, the roads will be used and Nottingham Avenue, Checketts Avenue and Revell Streets do not lend themselves to safe transit to and from Scott Park. <p>Westlake Reserve</p> <ul style="list-style-type: none">• Quiet park enjoyed by, young, old, joggers and dog walkers. The tranquillity of this park would be interrupted by the above users.• This park has the unique attraction of two small lakes to walk around. The paths should be widened if skateboarders are to share them. Currently, cyclists are able to avoid walkers and joggers by moving onto the grass if necessary. This is not possible with skateboarders; they need to stay on the solid surface of paths.• Retrofit means potential for additional expense and interruption to above activities.• The toilets have already been vandalised and unless better surveillance is envisaged• The toilets would be required to be replaced.• There is the added risk of skateboarding close to water. <p>It would be lovely if the council could place litter and recycling in all parks as with the Margaret Mahy Park. These should be serviced at least once per week; preferably, on a Monday morning as the weekend is the time that most rubbish of one dumped.</p>
--	--	--	--	--	--	--	--	--	--

Knights Stream - Your Voice submissions

11 (30%) submitters indicated this location as their first choice.

No.	ID #	Halswell Domain	Proposed Knights Stream	Scott Park	Westlake Reserve	Full Comments	Project Team Response
1.	1	2	1	4		A skate park in the Domain could be hidden from the road and neighbours thereby not allowing much natural surveillance. Scott Park is too close to neighbours.	Thanks for your submission.
2.	2	2	1	4	3		Thanks for your submission.
3.	5	3	1	4	2	Halswell Domain - Have it in the new Knight Stream Park, there is already enough things at the new site. It will add to Longhurst and Knight Stream Park Westlake Reserve - already enough there, good for little kids with ducks and playground	Thanks for your submission.

						Knight Stream - it will be be great with the new development, it should be there Scott Park - dont know scott park	
4.	9	2	1	4	3	Halswell Domain - Would be awesome to incorporate a bike park like Westburn for younger children as well. Westlake Reserve - Would be awesome to incorporate a bike park like Westburn to attract younger children too. The toilet facilities require replacing quickly. Knight Stream - not answered Scott Park - as there are no toilet facilities, this is nit an appropriate place for a skate park.	Thanks for your submission. The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised.
5.	13	3	1	2	4	Halswell Domain - Might be good, not too many houses on the boundary and iis a big space Westlake Reserve - Not here, this park has two largish lakes and is a nice peaceful area. Not big enough Knight Stream - New housing with lots of young families might be good here Scott Park - Doesn't sound suitable	Thanks for your submission.
6.	21	2	1	4	3	Halswell Domain - I do not want a skate park at all, consider basketball hoop or adult size adventure playground etc. main concern would be a lack of supervision which is often attached to venues such as skate parks and also the noise or nuisance to other residents. therefore halswell domain may be the best location. Westlake Reserve - this is more of a natural reserve type area and should be encouraged to be that way with more walking tracks/plantings not a skate park Knight Stream - I think that the distance to neighbours is a big concern. in particular noise travels easily in this area.. toilets are needed immediately although it is noted they intend to get some. I have already observed skaters skating inappropriately in the area on walls that have metal plates in them to stop such behaviour and I don't think that a skate park would curb this behaviour I think it would encourage it. There has also already been tagging on new fences in nearby areas.	Thanks for your submission. An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell. The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.
7.	22	4	1	3	2	Knight Stream - ideal spot. New Subdivision would benefit from this.	Thanks for your submission.
8.	23	4	1	2	3	Halswell Domain - It is an area that is somewhat isolated and off the public thoroughfare. Already that part of the domain can affected by littering, broken glass. There has been incidences of tagging and grafitti on the buildings nearby. The kindergarten nearby could also be affected with uninvited visitors as it is relatively private and secluded. It is an area where families like to walk through with young children. One musn't forget that there is also a cementary nearby ...would the possible noise impact on those that come to visit or funerals?	Thanks for your submission The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community. There is suitable separation between the proposed skate area and cemetery for no noise impact.
9.	28	2	1	3	4	Halswell Domain - It is a very good choice. Halswell Domain park is human-made park. There have a fully public facilities. And there is also a new one (not old like westlake) At here, cleaner from council will do a regular clean. It keeps very tidy and clean. It is also a very safety place. A small pool will not kill the child. A train program attracts amny children to come. That means, teenagers could play different games over there. So many choices. Westlake Reserve - I just dislike to have the skate in a nature reserve park at westlake. There have so many animals, like ducks, swans, geoses and migratory bird. If you build a recreation park beside the lake. It is kind of pollution. The children don't know how to care the animals. I have saw some teenagers throw stone to the animals. They have to learn how to care them and then come to play. Knight Stream - I would like to say the new developed area will be the best option. There has a good size for skate and will have many residence live there. It also close to the Wigram Skies. There will not have some residence say "No". Before they buy the property, they will choice they like the recreation or not. Scott Park - Compare to other, it is a small one for recreation park. and I have went and had a look. It is very close to neighbouring residential properties. It will make noise.	Thanks for your submission Your concerns around Westlake have been noted.
10.	35	4	1	3	2	Halswell Domain - I think due to the trains at the domain there is a real disconnect between younger children & those who will use the skatepark. It is a younger area. Also I believe the current car park would be impacted by skaters using it as well potentially causing damage to cars or people, which is a health & safety risk. Westlake Reserve - not answered Knight Stream - I think this is the best option as it is a sports park which will have many facilities. It is a growth area & the fact the neighbouring properties have an oversight of the park is very useful. Scott Park - not answered	Thanks for your submission. An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell. The proposed skate park is for local community use of a beginner to intermediate skill level. Westlake Reserve

32 (13%) submitters indicated this location as their first choice.

No.	Submitter ID #	Address 2	City	Postcode	Halswell Domain	Proposed Knights Stream Sports Park	Scott Park	Westlake Reserve	Full Comments	Project Team Responses
1.	14	Halswell	Christchurch	8025	2	4	3	1		Thanks for your submission.
2.	16	Halswell	Christchurch	8025	2	3	4	1		Thanks for your submission.
3.	17	Halswell	Christchurch	8025	3	2	4	1	1. 1st choice Westlake Reserve- large park with plenty of space for a good sized facility, accessible from all sides of park and surrounding areas, on a bus route, toilets available, parking available, away from main roads but central to a large part of Halswell area, not too near housing but clear views from road for safety and easy access for ambulance in case of accidents. 2. 2nd choice Knights Stream- as not yet started would be easy to put here but is close to a main road and on the outskirts of Halswell, may not be used to the fullest. 3. 3rd choice Halswell Domain- already has many activities would be a shame to replace a great existing playground, main road to cross to access for a large part of Halswell, most activities there at present require adults to take children to them. 4. 4th choice Scott Park - too small, too close to houses, currently used for other sports why force these more suitable sports for this park to find somewhere else when the previous choices are much better for a skate park?	Thanks for your submission.
4.	19	Halswell	Christchurch	8025	2	3	4	1		Thanks for your submission.
5.	33	Halswell	Christchurch	8025	2	3		1	I have deliberately left "Scott Park" unticked. I live on the street it is on and often see teenagers using the basketball court til late daylight hours on all days of the week, also weekend days. I am glad to see them there and not doing things that others do that get bored people into trouble. The playground is used such alot too. Negative - no toilet and i suspect graffiti could become a problem there & noise. Would be dissapointing to lose the popular football field & area. Was hard to decide - all great areas.	Thanks for your submission. Your concerns around Scott Park have been noted.
6.	35	Halswell	Christchurch	8025	2	3	4	1		Thanks for your submission.

7.	45	Halswell	Christchurch	8025	2	3	4	1		Thanks for your submission.
8.	46	Halswell	Christchurch	8025	2	3	4	1	Scott Park would have been a good park for a skate park it is so under utilized. But car parking on Checketts Ave and Nottigham Ave is a nightmare, that is why I scored it so low.	Thanks for your submission.
9.	54	Halswell	Christchurch	8025	2	3	4	1	Westlake and the Domain already have residents that are under the age of 14. Where as Knights Stream will depend a lot on newfamilies moving in. Scott Park is simply to small.	Thanks for your submission.
10.	58	Halswell	Christchurch	8025	4	3	2	1		Thanks for your submission.
11.	69	Halswell	Christchurch	8025	3	2	4	1		Thanks for your submission.
12.	71	Halswell	Christchurch	8025	2	3	4	1	I do not support Scott park as it is too small for the proposed skate park. We would like to keep the space for football.	Thanks for your submission.
13.	72	Halswell	Christchurch	8025	2			1	Toilets fixed, lights remain on during night, car park is locked @ nights (close residents could assist with this on a roster basis)	Thanks for your submission. The car park at Westlake is locked at night. As per CPTED guidelines, lighting of parks is discouraged unless it's an essential designated route. Lighting will not be provided, as Council do not want to promote night time use of the space. As no additional lighting will be provided, it is not envisaged that this asset will attract use after dark The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised.
14.	77	Halswell	Christchurch	8025	3	2	4	1	Our number one preference is due to therebeing a lot of space which means the new park will have a lesser impact on the surroundings. Also the park will have plenty of passers by wich meansm security for the children playing.	Thanks for your submission. Your concerns have been noted.
15.	81	Halswell	Christchurch	8025	1	3	4	1	Halswell Domain would be a first choice option as it would be located with other so call 'Hub" activities, is centrally located, handy to toilets and other amenities. Westlake is also relatively central with toilet facilities. Cannot comment on Knights Stream Sports Park as not familiar with that area. Totally opposed to Scott Park. it has no immediate toilet facilities and is very close all round to neighbouring housing. We only live one street over and can clearly hear noise levels when functions are going on in the Park. The noise from a skate park in that area would be very annoying indeed in what is now a relatively quiet area. Also would hat to see the sport field moved.	Thanks for your submission Your concerns around Scott Park have been noted.
16.	100	Halswell	Christchurch	8025		2	3	1	1. There is a children's playground for young children and a miniature railway in Halswell Domain. 2. Another skate area in Domain would be too much, conflict of interest, encourage tagging of facilities and residents fences (this is already occurring). 3. Separate the age groups, mainly older children and teens use skate parks. Give them a separate area away from young children with families.	Thanks for your submission The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community's.
17.	103	Halswell	Christchurch	8025	4	3	2	1		Thanks for your submission.
18.	107		Christchurch	8025	3	4	2	1	Halswell Domain already has a lot to offer with the trains, pools, playground. Westlake is quite a large reserve so could definitely accommodate a skate park. There is a huge number of families living in the vicinity of Westlake it would be a great addition to the park which at present looks a little abandoned by the council. Why not add a tennis court and the skatepark to Westlake. Its so big it has room.	Thanks for your submission. If Westlake was selected as the suitable site for the proposed skate and recreation park a tennis court can be considered during the design phase.
19.	109		Christchurch	8025	2	4	3	1	I favour Westlake Reserve as I think that its more sheltered from the NE wind and would be used for many months of the year. Young people would appreciate a gethering place to use their skills and energy & meet other young people. The Halswell Domain site also has got many attributes as it has lots of attractive activities in the weekend ie mini Railway, playground & sports on the fields.	Thanks for your submission

									We see the boys wndering around with skateboards looking for steps & slopes to use their boards on.	
20.	114	Halswell	Christchurch	8025	4	2	3	1	I feel that there are too many over 60's units and penioners living down Halswell Rd opposite the domain. We like our peace and quiet. Having a skate park over the road will not be peacefule or quiet with young teenagers roaming around at all hours of the day and night. I'm worried about property damage when they are heading home at night.	Thanks for your submission. If Halswell Domain was selected as the preferred location, the skate and recreation park would be located beside the playground on William Brittan Ave. The car park is locked at night and the skate park will not be lit, therefore nigh time use is not expected.
21.	134	Halswell	Christchurch	8025	4	2	3	1		Thanks for your submission.
22.	166	Halswell	Christchurch	8025	2	3	4	1	Westlake has been zoned "red" -not because of earthquakes but because after the toilet was burnt down were told "no money to fix it!" (surprise enough for new ones) families, clubs, groups were ince able to spend a happy day picnicing there, not now, one scummy portaloo! Cant enjoy that 3rd world environment. All tuned to custard when a security camera+lights were removed. Good sade environmentally attractive until a very costly mistake. We have to look at this war zone sight every day 24/7 and now attracts night time parties etc, why? because its a derelect area once a safe and attractive place to be proud of. Now a Graffiti eye sore. We pay our rates (higher now). We want value! Repair the toilet block.	Thanks for your submission. Your concerns have been noted The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised.
23.	168	Oaklands	Christchurch	8025	2	3	4	1	I think Scott Park is too Small for a Skate park Either Westlake Reserve or Halswell Domain would be my preferred locations. I have ranked Westlake over Halswell Domain as there is a greater number of houses who's residents could access the reserve without having to cross a busy road (such as Halswell Rd).	Thanks for your submission.
24.	178	Halswell	Christchurch	8025	4	3	2	1	Westlake reserve is more central to the new subdivisions (Longhurst / Kirkwood) and it has plenty of room.	Thanks for your submission.
25.	187	Halswell	Christchurch	8025	4	3	2	1	We both feel very strongly against the skate rink being in Halswell Domain in the place it shows for it to be. We are submitting a petition also signed by many neighbours. My new vehicle has been broken into twice now, and the number of times the toilet block has been gravitied, it shows that we do NOT want any further encouragement of bad behaviour in our area. 1) There is NOT suitable separation from residents 2) Westlake does NOT effect as many residents 3) No relocation of playground needed at Scott Park	Thanks for your submission. An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege. Prebbleton Skate Park in Selwyn is a good example of this close to Halswell. Noise assessments completed by acoustics engineers for other skate park projects have suggested a suitable separation between skate parks and residential dwellings is at least 40m. This formed part of the site selection criteria for this project. Specific measures will be considered during the design of the park to limit noise.
26.	190	Halswell	Christchurch	8025	3	2	4	1		Thanks for your submission.
27.	196	Halswell	Christchurch	8025	4	4	4	1	I am 16 years old and live in Halswell, I ride bmx and skateboard. I have become lazy and unmotivated because there is nowhere to ride in Halswell. I think Westlake Reserve would be the best spot because it is centered and has carparking and heaps of entrances. There are also heaps of houses facing the park which would make it safe. There are heaps of kids in my area who would use it. Because the park toilets got burned and the jetty needs fixing it would be good to have it all overhauled at one time.	Thanks for your submission.
28.	203	Halswell	Christchurch	8025	2	3	4	1		Thanks for your submission.
29.	205		Christchurch	8025	4	2	3	1	WHAT EVER THE LOCATION THE AREA SHOULD BE FENCED AND LOCKED AT NIGHT TO STOP IT BECOMING A HANGOUT FOR VANDELS	Thanks for your submission.
30.	210	Halswell	Christchurch	8025	1	1	1	1	Halswell Residents Association is happy with the 4 proposed locations as potential sites. We have no view as to which might be the best.	Thanks for your submission.
31.	213	Halswell	Christchurch	8025				1		Thanks for your submission.
32.	217	Halswell	Christchurch	8025	2	4	3	1	My number one preference is for Westlake Reserve - ASSUMING THE TOILETS ARE GOING TO BE REBUILT. It is the most central of all the options for the entirety of the larger Halswell suburb and therefore ideally situated to benefit the greatest numbers. There is a lot of surrounding space available here for people to put gear	Thanks for your submission. The Parks team are currently researching options to get the toilets being reinstated at Westlake with options including repair, fireproofing the building or replacing the building so that it's upgraded and fireproof. The project is on the current work plan and has been prioritised.

									<p>without impacting on the rest of the park or its users. There are also basic facilities and a drinking fountain immediately nearby. The playground can then also be used by younger siblings of skate park users. The lack of nearby food options might also actually help in deterring youth "hanging out" all day.</p> <p>Halswell Domain also provides most of the above options, but I do feel that there is plenty already happening in this park year round and another recreational item of this nature is highly likely to draw in a large number of extra users. I would support the option near the Model Railway and strongly oppose the location near the League grounds due to it's obscurity from the road.</p> <p>Scott Park is NOT a great choice simply by the lack of toilets and water drinking facilities. No child is going to hold on to a call of nature for the length of the drive to Halswell Domian, let alone those who have made their way to Scott Park by skateboard and would need to skate to the Domain. The nearby garden along the edge of the park would simply turn into a toilet for users of all ages.</p> <p>Finally, Knights Stream Sports Park looks ON PAPER as though it should be a good option. But I am loathe to see money invested into something that is based only the "anticipation" that many more young families will move into the area. It is also VERY lopsided and non-central in its location for the greater Halswell area, and is very likely to only end up catering to the immediate neighbourhood.</p>

1.	47	Halswell	Christchurch	8025	3	4	1	2		Thanks for your submission.
2.	67		Christchurch	8025	4	2	1	3	I think Halswell Domain has enough sports & activities. It does need another sport. At times parking is a problem. Scott Park or Knights Stream has fewer activities, so would be a better option.	Thanks for your submission.
3.	175	Halswell	Christchurch		3	4	1	2	Scott park would be great. The skate park would work well with the half court facility already there and the open grassed area doesnt seem to be used all that often. The half court is always busy with basketballers the only down side is that it is hardly maintained nets, court paint, backboards etc.. Perhaps if there was more reason for the council to maintain new recreation facilities in Scott park the courts would get a bit of attention through that. Positive aspect for young skaters is that there are local shops on Nottingham ave for food! It would be great to upgrade a park in Oaklands as theyre all a bit out of date.	Thanks for your submission.
4.	210	Halswell	Christchurch	8025	1	1	1	1	Halswell Residents Association is happy with the 4 proposed locations as potential sites. We have no view as to which might be the best.	Thanks for your submission.
5.	220	Halswell	Christchurch	8025	3	2	1	4	As a resident living nearby to Westlake reserve, I object to the development of a skate park in Westlake Reserve. This is NOT an appropriate location for a skate park. Already, residents are often wakened at night with fireworks, noise associated with alcohol consumption and other anti-social activity. The toilet block was vandalised and burnt down, and there is graffiti in the area. Having a skatepark in the area will further encourage unsupervised youth activity late at night, and disturbance to neighbourhood households. If the Council decides to build a skatepark in Halswell, the only suitable area is the Halswell domain, where it can be part of the community complex, comprising the new library and community pool. There are fewer residents in this area, and having the proposed park located alongside the other community recreational amenities will allow monitoring by council staff and other users of the community facilities. There will be less disruption to residents. If any remedies are required (such as removal of rubbish and graffiti), it will be more likely these would be promptly attended to as part of the community facilities complex	Thanks for your submission. Your concerns around Westlake have been noted.
6.	233	Burnside	Christchurch	8053	4	3	1	2	Submission re Skate Park. The members of CSME (the Model Engineers) have carefully considered the implications of having a Skate park situated adjacent to our facilities at Halswell Domain. We are of the view that the proposal carries a number of negative implications and wish to indicate that Halswell Domain is not a suitable venue for a Skate Park.	Thanks for your submission An effectively designed and appropriately sited skate park is a hub of positive activity. When a skate park is correctly integrated into a community and activated regularly, positive culture overcomes negative behaviour because skate park users establish a sense of ownership and privilege.

									<p>We submit the following reasons for our objections:</p> <ul style="list-style-type: none"> -Anti social behaviour. The advice from police is that there is an increase in the number of incidents that they investigate in any area following the installation of a Skate Park. They say poor behaviours do not originate with skaters but with groups that associate with skaters. -Proximity. The suggested site is virtually adjacent to our Clubrooms and facilities. -Domain overload. In 2004 the CCC Reserves Manager indicated that Halswell Domain was at risk of being 'saturated'. Soccer, Tennis, Bowls, Softball, League, Netball and Cricket are all accommodated along with a Scout Den, CSME, and two children's playgrounds. He suggested that a search commence for an additional recreational area to be sited between Halswell and Prebbleton. -Vandalism. We as a club counter a steady level of vandalism. Tagging is a constant problem but is promptly painted out, broken glass and other unsavoury items are removed. We have had a ride on mower destroyed and signs trashed. -The Playground. This is a highly valued and widely used asset which is encroached upon by the Skate Park. The prospect of intimidation of young children by older young people is deeply objectionable. -Potential Damage. The car park is not fenced, other than by a curb, leading to a concern that sports fields may be damaged by cars. <p>We suggest that Scott Park be considered for this project. Russell Gifford (Club Secretary) 16th March 2016</p>	<p>The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.</p>

No.	ID #	Halswell Domain	Proposed Knights Stream	Scott Park	Westlake Reserve	Full Comments	Project Team Responses
1.	4	2	4	1	3		Thanks for your submission.
2.	12	4	2	1	3	<p>Halswell Domain - Having a skatepark next to a kindergarten and the Halswell miniature trains is a bad idea. This area is perfect for children and having the skate park will bring in undesirable youths into the domain and the children will have nowhere to go. Please think of the little kids. They don't need to be around garffiti, and rubbish and to feel unsafe.</p> <p>Westlake Reserve - Don't ruin the gorgeous reserve</p> <p>Knight Stream - not answered</p> <p>Scott Park - not answered</p>	<p>Thanks for your submission.</p> <p>The proposed skate park is for local community use of a beginner to intermediate skill level. Prebbleton Community Park (Selwyn District Council) and Trousselot Park, Kaiapoi (Waimakariri District Council) are recent examples of successful family spaces integrated with skate, play and recreation facilities. It is proposed that the Halswell Skate and Recreation Park will be a similar space for all members of the community.</p>
3.	14	3	4	1	2	<p>Halswell Domain - I think the Halswell domain already has a lot going on for it with the pool etc while it may seem efficient to place a skate park there with the other entertainment, there is a large suburbia area with a lack of anything in it from Wigram through to Halswell road. It would be good to see more good stuff in the middle of Oaklands/Westlake.</p> <p>Westlake Reserve - People don't tend to gather at Westlake reserve. It's a nice place (minus the duck poo) to go to, but more for a walk around the lake. While a park might draw people there, I think it'd be a mix of age groups.</p> <p>Knight Stream - That's ages away from Halswell!!!! They've already got plenty of playground stuff for there 5-10year olds. I feel like the population of the long hurst area is more families with very small children.</p>	Thanks for your submission.

						Scott Park - Scott park already has a group of sporty teen age boys that hit up the basketball court, and it's in the middle of suburbia Halswell. I think that would be a great place to attract more people to and build on the energy that's already there.	
4.	25	2	4	1	3
