esultant excess of vehicles parked on the

			In fact, I find slower speeds make me less alert.
			Just because cars are being driven at slower than the designated speed limit of 50 kmh is not sufficient reason to low vary throughout the day and we mostly drive accordingly.
			I also cycle around at times and have never found the vehicular traffic to be a problem.
			I DO NOT support your proposed change!!
41957	Oliver	Preston	This change will not make roads safer, in fact it will encourage people who normally keep to speed limits to break the
			This is because, as more and more draconian speed limits are put in place (recent changes in town to 30kmph, Westr get more and more tired of them. This will doubtless lead to, on average, more dangerous speeds being reached tha
			Furthermore this should not be done without first asking the ratepayers (who are paying for the activities of the city This 'have your say' process is simply hearing the ratepayers out. Rate payers should have a real say that really can c proposing is a waste of valuable money, and a poor use of the millions of dollars received to make Christchurch a bet
			Finally this change is going to incriminate so many average kiwis heading home from work and going the standard 50 to manage to weave in and out of the multiplicity of finicky speeds without making mistakes.
			Rather than endlessly tweaking speeds in Shirley, or anywhere in Christchurch. Spend money on improved roads, tra countless other things that will not aggravate people to speed recklessly.
			For these reasons, please halt the planned changes.
			Regards,
			Oli Preston
41960	Paul	Hyman	You need to know that this is a terrible idea. Why are you choosing to punish the general law abiding public? Lowerin problem speeders. They will ignore 40kph as much as they ignored the current speed limits. Your chances of catching will probably catch loads more people doing 50kph.
			Voss street, it is wide and straight and consequently we have people speeding down interests in slowing down traffic then there would be money for narrowing, and installing speed bumps and other sp lowering speed limits will make it look like something is being done for the price of updating a few signs. But in realit majority for the sake of appearances.
41962	Gaye	Stevens	Riselaw Street need to have speed reduced as there is a school entrance and parks where kids are all the time.
41967	Eric	Ackroyd	Good idea, fully support - traffic rat-runs at speed at peak times from Marshland to Shirley Rd or vice versa via side st scootering, especially for kids to get to school. Slower speed limits make such school trips safer and give kids and dri needs slower speed limits outside Shirley Intermediate and Shirley Primary but I understand central government is c speed limits outside schools.
41974	Robert	Smith	Dropping the speed limit isn't going to make it safer.
			The introduction of speed bumps or similar would address the issue.
41978	Rachael	Travaille	Reducing speed around our area will only penalize residents who keep to the current speed rules. What you need to o drivers who are speeding at excess speeds (100kmph for example) down our street, loosing traction, doing burnouts council needs to consider these people and how to combat this problem rather than this weak excuse at solving a no are bad quality roads and pot holes that reoccur and are badly repaired, dangerous excessive speed, dangerous peop

ower the designated speed limit. Conditions them. stminster St and Preston's at 40kmph) people han before. ty council) what they think about the idea. h change what is happening. What you are petter place to live. I 50kmph. It's simply unfair to expect people traffic lighting and roundabouts and ring the speed limit will do nothing to stop ing them doing 80kph will remain tiny, but you wn here all the time. If there was any actual speed reduction measures. I am guessing ality you will just be punishing the vast

streets. This move will encourage cycling and drivers more time to react. Shirley Rd itself s currently developing a new standard for

to do is penalize or reduce the amount of its and driving excessively noisy vehicles. The non-existent problem. Our problems in Shirley eople and very bad police followup/response

			time when called, gravel being left on the roads so people are doing burnouts on it, not enough police presence in the response time in Shirley needs to be improved, or speed cameras to capture the people actually causing the traffic ex area would be improved by the council maintaining shrubs and bushes that obscure vision at intersections. Reducing terrible congestion around the Briggs Road/Emmett Street corner. Adding a roundabout/traffic circle here would pro intersection. Reducing speed does not help the road rage, impatience, dangerous driving and (council)bush-obscure intersection.
41987	Garth	Jensen	Changes to the 50km limit should NOT be necessary. Older children are sensible enough to NOT require reduced spe
			Young children have school staff in school areas, have traffic lights and crossings where required and are the response controlled zones i.e. there is and should be adult supervision in all areas that children move. Bus lanes and cycle lane traffic movement in Christchurch. We don't need further traffic flow impingement especially where it is not necessary
41994	Noel	Nelson	This proposal is a waste of time and money.
			Those who obey the law will reduce to 40k. I suspect that these people dont generally cause crashes.
			Those who regularly speed, ignoring the speed limit, will still speed and ignore the speed limit. These are the ones wh not always directly, but possibly be creating a dangerous situation another driver or pedestrian could react to.
			I suggest that the Council committee who came up with this idea, spend the whole day on a Saturday or Sunday sitted the lunatics who see a wide open street and race to the other end. These people wont take any notice of a 40k sign.
			The only way to make the roads safer from speedsters would be to Police every street every day. There is no way our
42002	Sharon	Marsh	
			I think lowering the speed limit on Hills road, Akaroa Street, Briggs road is a great idea.
			We have many families and children in this area, with local shops and a park just over the back.
			Cars and Trucks travel down Briggs, Akaroa and hills roads from the city or marshlands road.
			Very fast, more than the 50k limit. It would amazing if the trucks could not come down these roads, they travel over the speed limit, hitting the pot hole and jump when these trucks come flying past. I don't see the need to come down a suburban street, when there is ple new motor way is open.
			Regards
42005	Matthew	Wilson	The people that are speeding are not going to stop with a speed decrease. Your slowing the honest law abiding peopl ridiculous and only after this will cops be there revenue gathering to try catch people. Like I said it won't stop the one
42006	Erin	Crowther	Hi,
			I really object to this - please don't do it. It seems silly to do based off "a few minor crashes in the past few years." Thi make mistakes when they are driving. I live and work in Shirley and the riff raff driving recklessly will NOT be deterred life annoying for other people who are driving responsibly.
			Kind regards,
			Erin

his is likely to happen anywhere and people red by a 40 kph sign. All you're doing is making

42007	Jean	Flannery	We was a solution with Marshland Road, to the Fitzgerald Avenue junction with Moorhouse Avenue, that is a direct route route has, as anticipated, not been reduced noticeably by the new Cranford Street arterial
			Large lorries actually cause our house to shake as they pass us, when travelling at - or close to - 50kph
			Speeding is already a common occurrence on this stretch of road, even with a 50kph limit - particularly from Akaroa cameras would be of great help in enforcing the speed limit.
			Westminster Street already has a 40kph limit and - especially at school pick-up time - cars frequently still speed along
			My neighbours, who are elderly and do not have internet access, join me in these views.
42009	John	Coulson	I was pleased to see this proposal. Trucks frequently shake our house when travelling at, or possibly above, the curre
			Traffic on the Briggs Road - Hills Road stretch is heavy, and the current 50kph limit is often exceeded. Vehicles avoidin limit are adding to the problems. But the new limit will need enforcement if it is to be successful.
			I travel along Westminster Street at school pick-up time and am frequently tailgated, even overtaken, by cars when d
42010	Dave	Gardner	I approve of this change,
			I travel through this area on bicycle and car to the palms and to my friends house and it will be nicer to travel thoroug appropriate speed of 40kmph
42016	Jay	Carr	I live in this area and I have doubts that lowering the speed limit alone will do little to change driving behaviours. A ne Quinns Road) is wide and straight which does nothing to discourage drivers from going faster - it will be a waste of m
			It will make little difference to those that regularly go well over 50 anyway, and I doubt there would be enough monit this. I also therefore doubt any costs could be recouped by additional fines for those going over 40.
			I see that it has already been discounted, but I really think the money would be better spent building traffic calming r slow.
42017	Andrew	Green	Traffic calming measures are under your control and should be added to the long term plan. The issue in these areas those that are exceeding this limit. Rather than putting a lower speed limit, which people will continue to break, physe excessive speed is the practical method to make sure that no one will get hurt. All funding should be put into traffic c there have been recorded safety issues, by adding padeatrian crossings where needed and traffic isaldns to truely ke issue in the area, rather than a blanket approach that won't actually fox the underlying issue of people already speed
42018	Aaron	Dekker	Can you include Richmond North in this or create a new proposal for Richmond North?
42021	Rose	Myall	I fully support this move. There is a lot of traffic on these busy roads and even now many vehicles travel far too fast.
			Drivers avoid the side roads that already have a 40kph limit. I just hope the police will really enforce this limit on all the
			I don't live right on the main road but still feel vibration from heavy lorries that don't keep their speed down.
42022	Mel	Busch	I personally don't think changing speed limits will do much to reduce dangerous driving in Shirley. The people who s regardless of the posted limit!
			However, I do think more needs to be done around the school speed limit! At the moment there is no signage that it i school drop off hours on Shirley Road. There are frequent near-misses on the school crossing! I've seen cars run the r with the green signal!!!

speed in these streets are going to speed

it is a school zone or reduced speed limits in e red light while tooting at children crossing

			Also, more needs to be done to fix the actual roads - the sink hole in Emmett Street keeps getting patched over, only why it keeps happening, not just patch over.
42023	Jacob	Uden	
42027	Hayley	Bensemann	You would be better off putting speed bumps down the streets, people that are speeding don't tend to care what the much safer option.
42031	Courtney	Henderson	I don't think this is really much a say with the way this is question is phrased. I think it's a waste of time and money. this has never been something we have though about
42041	Geoff	Moore	I have no issue with the speed being reduced to 40kp/h but more so due to the state of the roads like Emmet. Howev bit as they don't pay attention to the current 50kp/h limit. There needs to be a higher police presents in Shirley as co speeding.
42047	Adam	Brownie	Slowing down people in areas I see is far more dangerous than having speeds at 50km through residential neighborh who do dangerous maneuvers to get past drivers who are already driving well under the posted speed limit - The rea people on the roads who are driving 20+kmh under the speed limit who will now drive even slower again causing yet capability to stick to the posted speed or fairly close which is deemed safe, then they should not be able to hold a lic the roads. A decrease in speed I see is nothing but an attempt to increase revenue bought in by police stops and doe inconsiderate or poor driving ability.
42049	Dot	Volovik	Was just wondering how we go about putting up a 10km sign re the racing down Hewlings Street Shirley I see you are some one is going to get seriously injured we have a few children that play down our street
42071	Manpreet	Singh	Please put some speed breaker too Thanks
42074	Nyal	Dillimore	I live in Shirley and almost daily I see/hear cars/trucks or motorcycles speeding down Emmett street. The only time I excessive speed or reckless/dangerous driving is when we were in lockdown 4, lockdown 3 sadly it started up again. limit especially after I witnessed a car that crashed through a fence just before I left the school with my 2 children at crashed was on the footpath, I'd hate to think what would have happened if there were children walking home 10 mit trucks going down Emmett street because each time they pass my house, see a station , my houses anxiety each and every time. The reason this happens is because the road has been dug up so many times by Counci any solid ground alongside our home or at the front near the road (also thanks to a sewage station being built on our road that is yet to be fixed and I've seen fast vehicles almost "taking off" so to speak. I would love to see a reduction kids are walking down the road and there are no 'school kids' signs, in fact adding sign on Riselaw and Emmett woul like to see the cars slow down for the ducks who visit every year from Spring through to Summer with the possibility request more cameras down our streets to identify the cars of those culprits who do burnouts, donuts etc late at nig consideration and sense of entitlement is not something we ought to have deal with or accept. Thank-you for your ti
42082	Scott	Koorey	, which is part of the proposed Shirley area for speed reduction. Sabina Str street (about the width of 5 cars), and is straight for most of its length. As a result, we would often have cars speeding some cases going as fast as 80kmh.

ly to sink again soon after. Please look into

he limit is set at. Speed bumps would be a

ever don't believe it will slow the speeders one constantly there are cars doing burnouts and

orhoods. All this causes is frustrated drives real issue here is not road speeds it is the vet more frustration. If they do not have the license as they are not safe people to have on pes not actually address the real problem of

are making a few change in Shirley I'm afraid

e I haven't been concerned in 6 years about n. I am 100% supportive of reducing the speed at 3pm, we were on bikes and the car that mins earlier. Also I have concerns about large e shakes like there is an earthquake, I get ncil workers that now there doesn't seem to be our fence line). In addition there is a dip in the on in speed because during the school term buld be worth the investment and I would also ty of animal crossings. Lastly, I'd like to night or early morning, their lack of r time and consideration.

Street is unusually wide for a suburban side ing noisily up the street - I would estimate in

				Additionally, the intersection where Sabina Street crosses Hercules Street is extremely dangerous, and I have observe there. Hercules is also a wide and straight road, and although it gives way to Sabina, some vehicles travelling fast frow will ignore the give way and just speed through the intersection along Hercules.
				Therefore, my proposal is that speed-calming measures be installed at the Sabina/Hercules intersection, to mitigate chance of collisions at the intersection.
42086	Martin	Maunsell		It's a good idea to slow the traffic down, especially in the streets that are around schools
42088 & 43690	Rebecca	Roper-Gee		I support effective measures to slow traffic in Shirley. The majority of streets in Shirley are winding, limiting the dista making decisions about crossing and speed. It is a medium density residential zone with a high proportion of Kainga and a lot of children in the neighbourhood. Many children walk, cycle and scooter to Shirley Primary School with a fa adult. I have seen many close calls between kids and cars, and I have struggled myself at times to cross roads safely of at speed. I lived in the area under consideration for a decade and although my home is now outside this area I still live proposed area most days (often with my 9 year old) to access the school, park, community garden, community centre more careful culture around road safety for the neighbourhood. However, given that speeding is already an issue, I a will help - those who speed now will presumably continue to do so. I would like to see other options such as traffic care conspicuous predestrian crossing points such as traffic islands or pedestrian crossings.
42095	Teresa	Frapwell		What a waste of money and resources. The roads in this area need up grading. There a continuous sink hole in Emme The lowering of the speed limit has failed in other suburbs of chch (mairehau) What makes you think it will work in S need to come up with a better solution then this.
42113	Emma	O'Connell		Lowering from 50 to 40 will make no difference to accidents or people getting hurt. Speed bumps would be a better of entrance. Lowering the speed is just another form of control. There are other local areas where the speed has been d go 50. Very rarely do I encounter a driver going the 'required' 40. Just leave our streets alone at 50.
42132	Robert	Fleming		Fully support. The speed limit changes made to some St Albans streets as part of the DEMP programme has resulted to the perception of average speeds being slightly lower. Occasionally it is necessary for me to use some of the street to a lesser extent Hills and Shirley Roads) feeling quite bike unfriendly. Thank you for the opportunity to comment.
42138	Dave	Diggs	Crester Credit	the time of day for the minor crashes? and is it necessary to disrupt the neighbourhood over a few minor incidents. The speeding is primarily related to some gangs and associates that have little regard for the law so a speed change speed limit changed.
42151	Amon	Brown		A good start to creating safer streets. I support this proposal.
42622	Cody	Cooper		I support this change.
43230	Orlon	Petterson		To whom it may concern. I'm writing in support of the proposed speed reduction in the Shirley neighbourhood. As a any vehicle traffic around me. As a driver this lower speed limit is suitable given the nature of the streets. As a resider will eventuate and the safer environment this will provide for residents, kids in particular as well as the animals in the
43265	Margaret	Barrett		I agree with all the changes. I am in favour of a slow zone being created in the streets nominated.
43473	Catherine	Tait		I have no objection to reduced speed limits in the area, however I am concerned that this is not the answer to the pro Marshlands road as it passes the shopping areas does make some sense as this is an area where traffic is often a lot fa to be supported by a speed camera and in my view that alone would be a better solution. In respect of the streets ma

erved and been involved in several near-misses From having just come off Marshlands Road

problem in Shirley. Slowing traffic through It faster than it should be, but this would need marked on the map, the people who speed in

			these areas are not people who will follow speed limits anyway! The issue here is boy racers and because of the wide partake in sustained loss of traction. For this reason I think there is no point in the reduced speed limit as all that will accidently goes over not the ones who are causing the real problems by racing up and down the streets. Again speed that we do not currently have the funding for more efficient measures such as speed humps and round-about's. Ther waste of taxpayer money to change all the road signs to lower speed limits on these side streets. I am aware of a cou the area and again these were not caused by people who were abiding by the existing rules so lowering the speed lim would be interested to know more about why the Council thinks that this will work in the environment I have describ
43533	Aaron	Simon	I would like to see how you plan to reenforce this change with changes to the road layout. Self-reenforcing road desig would expect to see some sort of visual narrowing of the zone at the very least.
43804	Emma	McGurk	Hi there, I agree that something needs to change in order to keep our community safe. I sector to be and and the sector of the
			Every day I hear these vehicles and worry for my kids on bikes and my dog. Emmett st is particularly bad as it has mul wide for dangerous driving. We need speed bumps as well. Please consider this for the safety of my community.
43805	Jozef	McGurk	we have noticed significant street, and people doing burn outs and the like. I have seen multiple police chases coming through, and my sister-in- year while police were in pursuit. A reduced speed limit in Shirley would be a welcome change, furthermore putting s would be incredibly effective and functional at keeping speed down and ensuring the streets are safer for ourselves a
43807	Aimee	Tang	People drive up and down shirley streets so fast, this project would make it safer for kids, cyclists and drivers. 40kph l help achieve this.
43979	Geoff	Sharp	The idea of 40 kmh in residential streets is fine.
			However in this block there are a number of Main streets that feed in & out of the area. These streets should remain a
			These streets are all wider than the others . Emmett St, Acheson Ave, the bottom portion of Quins Rd, Hammersley A
			all the other Streets will be fine at 40 kmh (with probably no effect on traffic speed at all).
			Locally buses are often cited as examples of "speeding vehicles". They have been limited traveling on Emmett St at 4 causing house movement, which they still do to a degree).
			As for other speeding vehicles, i don't believe the hooligan element that shows up occasionally will respect a 40kmh one. That's a matter for Law Enforcement (i wish.).
43998	Glen	Koorey	I support this proposal; it's a logical low-speed neighbourhood area. Although you might not be able to install full tra budget pressures, I'd suggest that you look at low-cost "paint, planters & posts"-style treatments on some of the wid Quinns south, Voss & Hammersley. These were used successfully in Dunedin as a first step for the Central Schools Clu "kerb extensions", or central islands with planting to break up the long sight lines down a street.
44027	Adam	Lines	Thank you for the opportunity to submit on these changes. I was wondering if there is any scope to lower the speed li these reductions won't be complemented with traffic calming at this stage, I wonder if the average speed limit drop v to suggest. Thanks again for the continued commitment to deliver safe streets.
