

A photograph of a park scene. In the foreground, a large field of yellow and white daffodils is in full bloom. In the middle ground, a white, circular gazebo with several columns stands on a grassy area. The background is filled with tall, leafless trees, suggesting a late autumn or winter setting. A large tree trunk is visible on the right side of the frame. The sky is overcast.

**PUBLIC CONSULTATION
2006**

SUBMISSIONS

Three draft plans were advertised in the Christchurch Press and the Christchurch Star for public comment on 19 August 2006, with a period of 10 weeks to 25 October 2006 provided for submissions to be lodged. These plans were the Draft Hagley Park/Botanic Gardens Master Plan, Draft Hagley Park Management Plan and Draft Christchurch Botanic Gardens Management Plan.

A limited number of copies of the plans were made available free of charge and were also able to be viewed at all City libraries and Council offices. A larger number of a consultation information brochure was widely distributed. All documentation was also able to be downloaded from the Council's website Have Your Say pages.

Two public meetings were held at the Christchurch Netball Centre in South Hagley Park to give information on the draft plans – one in the morning and the other in the evening.

A choice of ways in how submissions could be made was given. These were:

- Submission form attached to the consultation brochure.
- By letter.
- Online form.
- Form downloaded from the Internet and printed.
- By email.

The consultation information was arranged to encourage the public to respond in more than one way:

- Comment on the three plans.
- Comment on the separately presented list of 56 projects included in the draft master plan.
- 'Yes/No' quick responses to key proposed projects.

597 submissions were received by the closing date. 101 submitters indicated that they wished to be heard, although some subsequently withdrew.

The Council resolved at its meeting on 16 November 2006 that a Hearings Subcommittee, comprising Mayor Garry Moore and Councillors Helen Broughton, Barry Corbett, Graham Condon, Carole Evans, Bob Parker, Bob Shearing and Norm Withers, be appointed for the purpose of hearing the submissions and reporting back to the Council with recommendations. The Hearings Subcommittee convened on Monday 11 and Friday 15 December 2006 to hear 70 submitters.

The Hearings Subcommittee reconvened on four separate occasions, including to make an on-site visit (2 and 30 April 2007, 19 May and 25 June 2007) to consider its response to the written and oral submissions and make recommendations to Council.

The Council resolved at its meeting on 16 August 2007 to adopt the recommendations of the Hagley Park/Botanic Gardens Hearings Subcommittee to adopt the draft plans, with the changes recommended by the Subcommittee, as the operative plans.

How submissions were received

Submissions were received in the following formats:

Brochure submission form (some with written attachment)	68 %
Online form	18 %
Letter or document	10 %
Downloaded and printed form	2 %
Email	2 %

Explanation of results

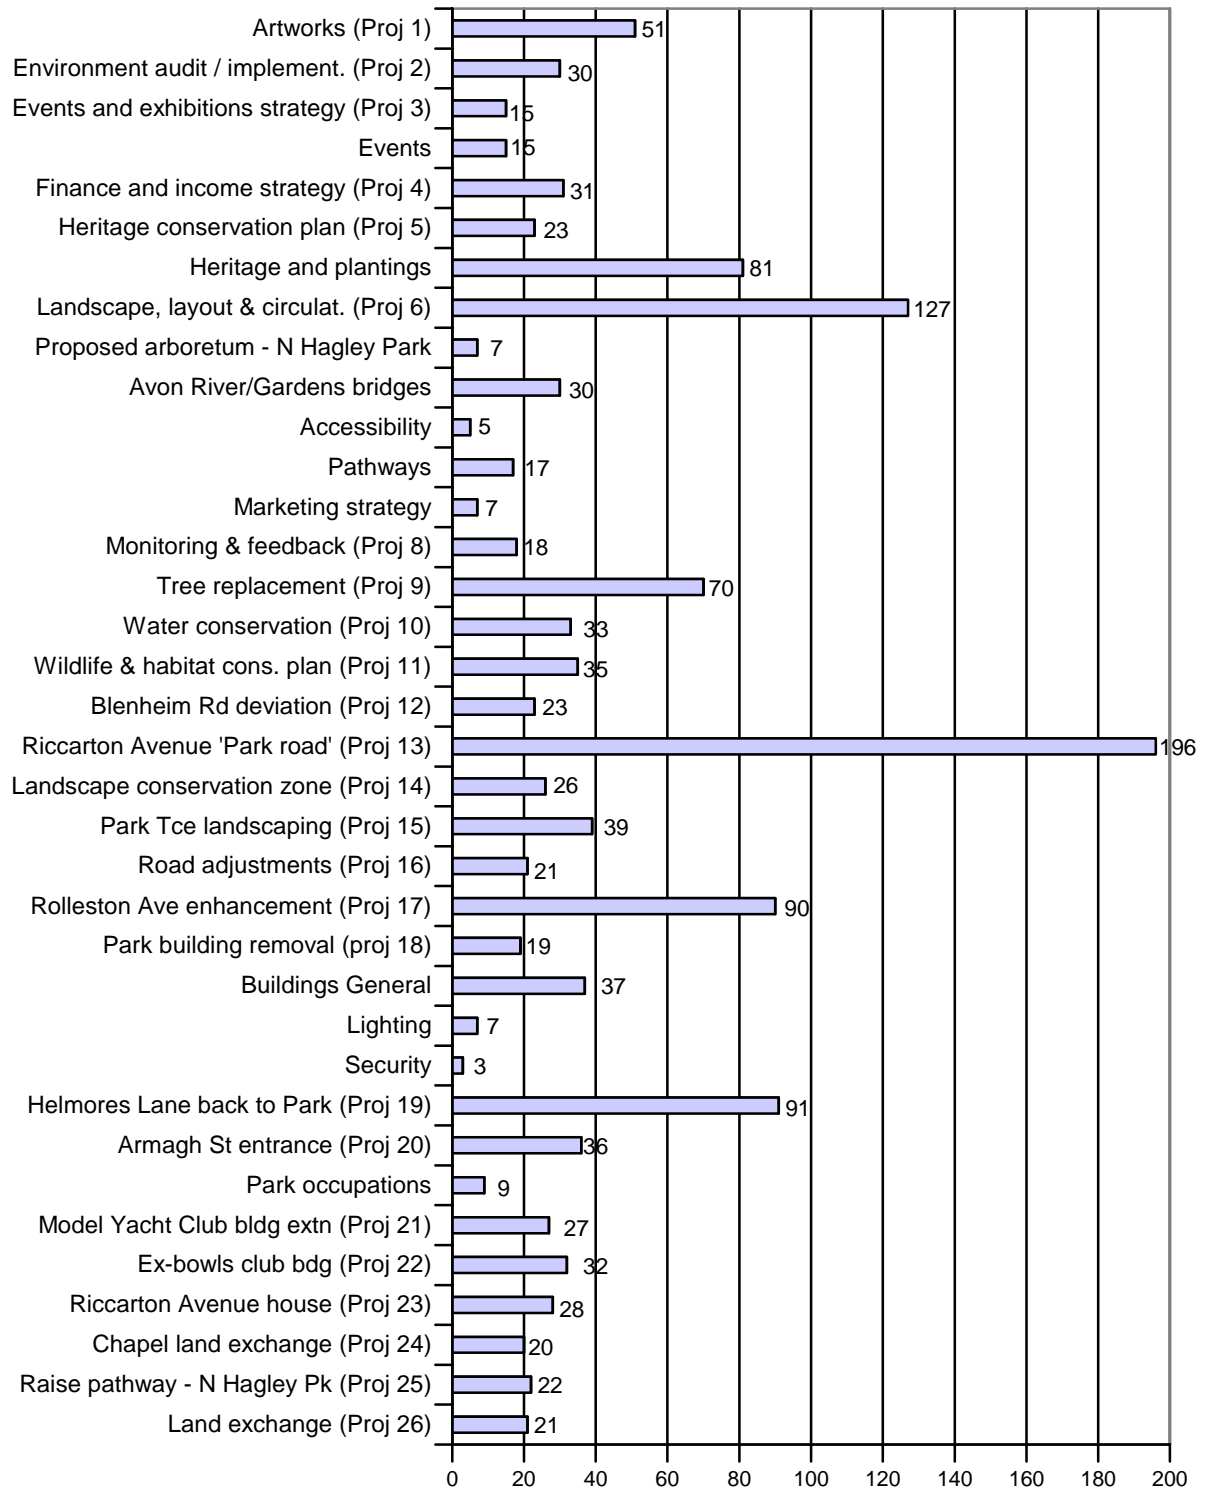

Some submitters made distinctly separate comments in their response to a particular master plan project and so the number of comments may be higher than the number of submitters (they may, more rarely, be less in some cases where a submitter's comment is not relevant and is not used). Also, not all comments necessarily expressed support for or opposition to the project being referred to.

Some of the responses can not be directly catalogued in a particular master plan project and are covered in separate projects - for example, 'Playground'.

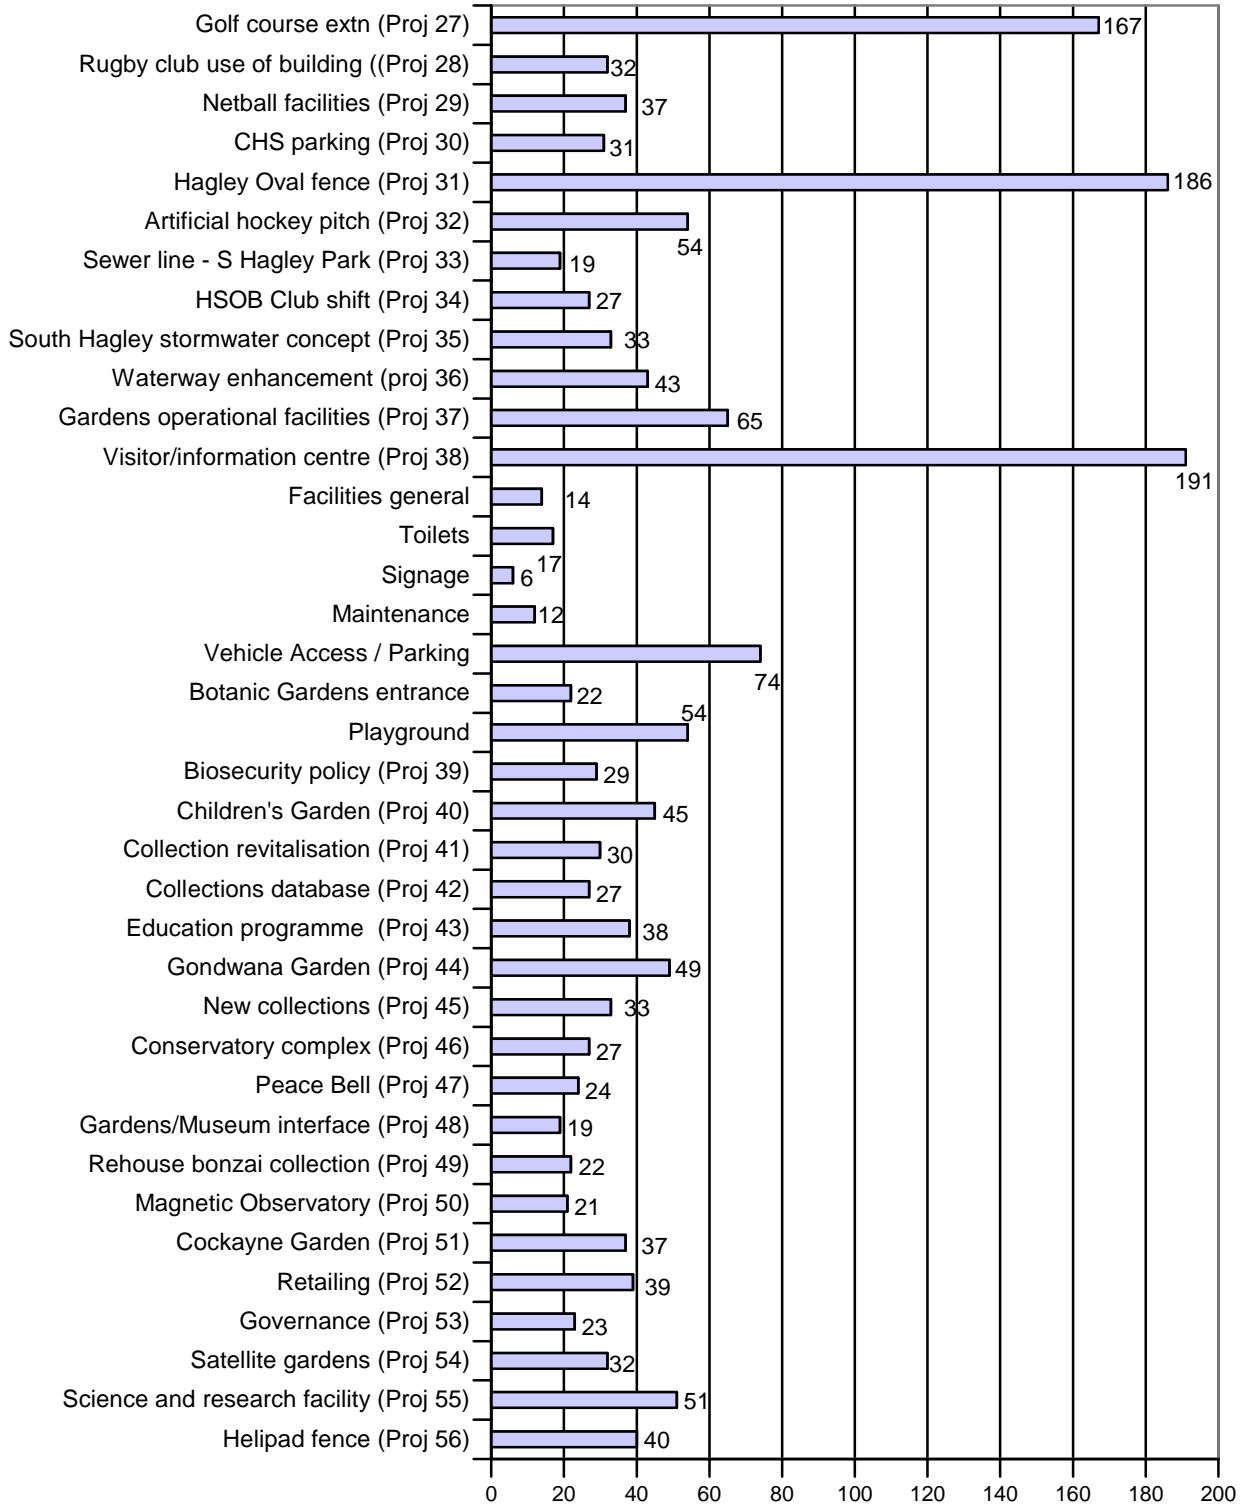

Rationale, comments, suggestions and/or notes accompany the response numbers in each table. These do not represent a full record of the content of the submissions, but are a statement of what has been assessed, through analysis, of key points made in the submissions. They are not a verbatim record of what the submitters have said, but as much as possible are objective interpretations of the submissions. In some cases, they represent just one submitter's views (this applies to bullet-pointed statements and ones that are tagged with the number "1") and in others two or more (here the statement is tagged with the number of responses that were made that are reasonably close to the statement).

This interpretation of the submission comments has been necessary considering the volume of material received, the wide range of topics that submitters have commented on and a tight timeframe to process the submissions. All effort, though, has been made to ensure a true and accurate, albeit summarised, record and interpretation of the submissions is reflected in this report.

Number of written submissions by category

HAGLEY PARK / BOTANIC GARDENS MASTER PLAN 2007

Quantitative summary results - from the written submissions

Notes:

The project numbers and names are the ones used in the adopted master plan and may differ from those used in the draft plan consulted on in 2006. Some submission comments do not relate specifically to a master plan project, but rather to a category of activity or asset. These are not numbered. Also, some draft projects have been removed from the master plan and these are also not numbered here.

^ Where the number of supporting or non-supporting comments for the project/category is the greatest, it is highlighted in bold font.

* Includes comments, suggestions, requirements and requests. With these, there is no clear indication of support or non-support for the project or category, although there may be some separation of support for options.

Quantitative summary results - selective responses (Quick and written)**

** Includes both the quick responses on the consultation brochure and those taken from the written submissions.

Table 2

Project	Name	Quick response question responded to OR written submission selection	Number of submission responses	Support Concept 1	Support Concept 2	Support Concept 3	No preference	Other
6	Landscape and circulation	What is your preferred circulation pattern for the Gardens?	416	156	51	50	118	47
		From written submissions	22	6 (1 not)	3	2 (10 not)		
30	Botanic Gardens operational facilities	Where do you think the Gardens operational facilities should be located?	452	218	71	56	67	40
		From written submissions	20	11	4	3 (2 not)		
31	Botanic Gardens visitor/information centre	Where do you think the new visitor/information centre should be located?	464	245	54	63	39	63
		From written submissions	107	30 (1 not)	10 (4 not)	10 (11 not)		41 (alternative location)

Concept 1 was:

- The new visitor and operational facilities are sited together at the existing Gardens works and nursery site.
- A new pedestrian and vehicle access bridge across the Avon River directly accesses this site.
- The new complex is integrated with Cuninghame House.
- A new pedestrian bridge crosses the Avon River from the Daffodil Woodland area in Hagley Park to an arrival point between the Archery and Armstrong Lawns in the Gardens.

Concept 2 was:

- The new visitor/information centre is located in Hagley Park between the Avon River and the western end of Victoria Lake.
- New operational facilities are sited together at the existing Gardens works and nursery site.
- A new vehicle access bridge crosses the Avon River to provide direct access to the operational site.
- A new pedestrian bridge crosses the Avon River from the Daffodil Woodland/hospital grounds area in Hagley Park, to the Armstrong Lawn in the Gardens.

Concept 3 was:

- The new visitor and operational facilities are sited in a complex including parking and a playground in the United Car Park, Hagley Park.
- A new pedestrian and vehicle access bridge crosses the Avon River in line with the new complex and a new route through the Gardens' native section to the conservatory/rose garden area.
- A new pedestrian bridge crosses the Avon River from the Daffodil Woodland area in Hagley Park to the area between the Archery and Armstrong Lawns in the Gardens.

Table 3

Project	Name	Quick response question responded to	Number of submission responses	Yes	Option 1	Option 2	Other	No
13	Riccarton Avenue enhancement	Do you support slowing or reducing vehicle traffic on Riccarton Avenue?	465	138	91	79	27	312

Table 4

Project	Name	Quick response question responded to OR written submission selection	Number of submission responses	Yes	No	No preference
17	Rolleston Avenue enhancement	<u>Option 1:</u> Do you support less traffic on the section of Rolleston Avenue between Gloucester and Hereford Streets?	481	161	269	51
		<u>Option 2:</u> Do you support the removal of parking on this section of Rolleston Avenue?	480	94	336	50
		<u>Option 3:</u> Do you support the narrowing of the parking area on this section of Rolleston Avenue?	461	90	313	58
		From written submissions	19	11	6	2
-	Helmores Lane back to Hagley Park	Do you support the closure to vehicle traffic of the part of Helmores Lane that passes through Little Hagley Park?	484	230	204	51

Table 5

Project	Name	Written submission selection	Number of submission responses	Option 1	Option 2	Option 3	Remove	Other
20	Ex-North Hagley Bowls Club facilities	From written submissions	32	6	3	2	18	3

Option 1: Return the part of the area that is not used by the Christchurch Petanque Club to public Park green space and lease to the Club the area presently occupied by it. If this was to occur, the building would need to be totally or partially removed. If part of the building is to be retained, the second story would need to be removed as a minimum, and the ground floor strengthened to comply with the present building code requirements. If the building is totally removed, the Club would need to build a new clubhouse, as is normal practice with sports clubs leasing Council park land.

Option 2: Remove the building and fences, and relocate the Petanque Club to another site within the City, thereby opening the whole area up for general public use.

Option 3: Locate the proposed Hagley Park/Botanic Gardens Visitor/Information Centre or associated facilities here or in the vicinity.

Table 6

Project	Name	Written submission selection	Number of submission responses	Remove	Retain	Other
20	House and grounds – 6 Riccarton Ave.	From written submissions	30	14	8	8
