Address block

Dear Firstname

Lyttelton, Governors Bay and Diamond Harbour wastewater project

Thank you for responding to the consultation leaflet and providing comment regarding the above project. All responses have now been analysed and will be considered as part of the process to make a decision on the preferred route for the Governors Bay to Lyttelton portion of this project. This will allow us to consider public feedback alongside other important aspects such as cultural impact, environmental impact, cost, time and ease of construction in relation to delivering this project.

Consultation feedback

All submissions (without names/addresses for privacy reasons), along with project team responses to each submission are available to view online at <http://www.ccc.govt.nz/the-council/have-your-say/whats-coming-up/consultation-search/> if you select "closed consultations 2015" and search for Lyttelton, and then click on the project name. If you are unable to access this information on line please contact me and I will arrange for a printed copy to be posted to you instead.

Summary of feedback

During the consultation period 44 submissions (including one group submission) were received. Of these 39 (89%) generally supported the submarine option (Governors Bay to Lyttelton), and there were no submissions received that were in support of the road option instead. There were 5 respondents who did not indicate either way (11%).

Consent process

The project team is targeting the lodging of the resource consents in relation to this project in December 2015 (subject to NZTA approval in principle to the use of the road tunnel for the pipeline). Once these consents are lodged there will be further formal opportunity for the public to provide feedback on this project, through the resource consent submission process.

Further information

If you have any questions about this project and would like more information, please contact me on (03) 941 5938 or tara.king@ccc.govt.nz

Yours sincerely
