

Project 68389 | Condall Ave Street Renewals

Date Requested: 28 August 2025
Date Provided: 10 September 2025

Request

The current status of any work relating to project 68389 - Condell Ave Street Renewals, including any planned activities in the next 12 months.

Council Response

Before consultation and engagement with the local community can proceed, we must first actively explore options to address a potential budget shortfall, including potential funding opportunities and cost optimization measures, which early designs indicate may be likely.

Christchurch City Council remain committed to advancing the project efficiently and will keep all stakeholders informed of any significant developments. We anticipate proceeding to construction in FY26 following a successful community engagement process.
