

# Christchurch City Council

## Hagley-Ferrymead Ward

### Electing 2 Councillors

---

#### Lisle HOOD

Independent

*My principal place of residence is in the Hagley-Ferrymead Ward area.*

I have been a resident of the ward for over thirty years and been involved projects contributing to the city's business and residential fabric since the early 1980's. I have a background in commercial and industrial design and a special interest in the development of vibrant and sustainable communities which has led to my involvement in urban design projects. It is my belief that we need to be facing up to the issues affecting our local communities and developing workable strategies to deal with these issues and provide a greater involvement in our future for our citizens. The issues of transparency, accountability and democracy are paramount to our citizens having a sense of future and confidence in our Council.
