A Vote for me is a Vote for You

*My principal place of residence is in the Riccarton-Wigram Ward area.*

Like you, I want to feel excitement and hope about our city. It's our community and we deserve a City Council we can trust and enjoy, and that functions really well. At the moment we don't have that.

Yet, right now at this election we have a once only opportunity to transform this community. So I'm keen to roll up my sleeves and do everything I can to help.

I bring a wealth of local government experience including 9 years as Mayor of Christchurch from 1989 until 1998, and a strong sense of community. I've had experience in business, community groups, innovation and education. I have a MA (Hons) from Canterbury and an honorary PhD in commerce.

I love bringing people together to create the magic that Christchurch people are renowned for.

It's your community and its your Council.
