

Christchurch City Council Riccarton-Wigram Ward Electing 2 Councillors

Walpole Wenping CHEN

Independent

My principal place of residence is in the Riccarton-Wigram Ward area.

Post Graduate Diploma, Management

Bachelor, Mechanical Engineering

I worked for fifteen years for Siemens and a number of, companies as different roles from mechanical engineer to regional sales director in China before migrated to New Zealand with my wife and daughter in 2003, following two years study of management at Canterbury University then ran Red Cafe Riccarton for six and a half years.

I do think there is something fundamentally wrong within the organisation of Christchurch City Council (CCC) that needs to be corrected. Let us start with change of CCC's culture from rule-following and business as usual to customer-focused service before we can expect more and positive move towards fast and balanced rebuild towards a better and bright future of our garden city.

It is time for change! You deserve the change and a better service. You vote me, I work for you!
