6. Does this Activity Plan need to change as a result of a Service Delivery Review (S17A)?

No S17A Service Delivery Review for this planning period.

7. What levels of service changed from the LTP 2018-28 and why?

Activity/ Level of Service	Change from 2018-28 LTP	Reason	What will be done differently	Options for consultation
AMENDMENTS				
13.5.2.1 Legal contact and advice provided in a timely manner	90% advice provided within agreed timeframes	Changes to funding of Legal Services requires changes to criteria for acceptance of legal advice requests.	Legal team will contact the business unit requester to indicate whether the request has been superseded by another matter which has higher organisational priority and the internal capacity does not enable the requester's timeframe to be met.	Internal service, no consultation required
13.5.4 Percentage of internal business unit requester satisfied with the legal service provided	From At least 75% satisfaction to Set baseline	The changes to ways of working will likely lead to reduced internal business unit requester satisfaction. Seeking a baseline survey in first year of LTP to help set realistic future year targets.	Not all requests from business units for legal advice will be able to be met given the reduction in budget. The legal team will need to determine organisational priorities. Low risk, low priority requests will not be supported by legal advice.	Internal service, no consultation required
13.5.6.4 Cost effective legal service provision	From 55-45% split at year end to Maintain between the range of 50% - 75% internal provision and 25% - 50% external provision	Changes to funding of Legal Services will alter the split of provision between internal and external advice.	Allocation of legal advice requests will be to the internal legal team in the first instance and will only be instructed externally on approval of the Head of Legal Services.	Internal service, no consultation required
13.5.3 High quality legal advice provision	From 98% of strategic/complex legal advice evidenced by peer review to 90% of high risk complex legal advice evidenced by peer review	Changes to funding of Legal Services will reduce the capability of achieving 98% peer review of advice provision especially from external lawyers.	Changes to funding of Legal Services will reduce the capability of achieving 98% peer review of advice provision, because internal resource will have greater responsibility for completing peer reviews and at times the tight timeframes and limited internal capacity will mean a peer review will not occur.	Internal service, no consultation required
