I ask that the Christchurch City Council continue funding the Arts Centre because it is the most important cultural centre of Christchurch. It's closure would be a very sad moment for a such a large number of people in Christchurch and New Zealand. We note there is a very large amount of funding going to Sports Please keep the balance by funding the Arts

The Arts Centre is a special, magical place. I have lived in Christchurch all my life and cherish taking time on a Sunday to walk through and feel like I'm in another world. It's so good for the soul when facing the Sunday scaries of returning to work for the week. Please save the arts center! It's a gem and a rare find in our beautiful city. I was in the arts centre on February 22 2011 when the earthquake struck. Returning to it in its restored beauty reminds me that there is beauty after tragedy.

I want the Council to support the Arts Centre. Why? Can you imagine Christchurch without the Arts Centre? Because I cannot - countless others would feel the same. An Arts community cannot survive without funding. This centre is so important to the development of young artist. Please think again. Surely this is more important than funding the commonwealth games.

They should keep the funding up for this wonderful place. It is a wonderful place for Christchurch to have. The amount of money they need is very little compared to what it would cost if we the rate payer had to run the place completely. The company running it. Are doing a great job. Please give them there funding.

Yes thank you for the opportunity to make comment. As a regular visitor to the precinct I feel that more community interaction with more community on show may enliven the area. Foremost in my mind is the Saturday market which at present clogs up the pathways, public spaces and surrounding streets of Dean's Bush. This could be moved back to the Arts Centre on a weekly basis and with it a large crowd of people who would be happy to interact with all that is happening there. Of course the Dux building would add the jewel to the crown if it were open and operating .
Thank you. Regards Patrick Fitzgerald

The Arts Centre is a hub and celebration of arts and heritage drawing in many tourists and locals. This is particularly key to maintain and celebrate at a time where Christchurch's iconic structures and places of heritage such as the Canterbury Museum and the Christchurch Cathedral aren't open to the public. The Arts Centre serves as one of the few places in Christchurch where one can go and enjoy a wide variety of arts, not only local art from around Christchurch and Aotearoa, but from visiting artists. Aside from the benefits the Arts Centre provides Christchurch and the public, the Arts Centre is run by people extremely passionate about what they do, who are dedicated to ensure the prosperity and future of the Arts Centre. I have doubts that the Christchurch City Council could improve on the benefits that the Arts Centre provides to the public and to arts, while on the same or lower budget with the same passion and efficiency. If it costs ratepayers more for the council to own the buildings then I struggle to see how council taking over this public hub of arts would provide any benefit to the public. As someone who is passionate about arts, the Arts Centre is incredibly unique and valued. It adds a key aspect to Christchurch's identity and is a place I am proud to have in my city.

The Arts Centre. One of our local, and national treasures. This place that tells the story of who we are as a city, the things that matter to us, the personality and culture of who we are in our creative selves. The markets, the local producers, the stores inside, ALL unique to Christchurch. They all tell the story of who we are, and what we value in this city. The tourists that visit, whether domestic or international, WON'T find this in any other city in New Zealand. It's not 'just another sports stadium', or 'just another stone church', or just another beautiful Botanic Garden', or just another Art Gallery, or just another museum. Fabulous though all those things are. Every city has them, or something like them. But the Arts Centre, the life it supports, the creative expression it brings to the world. That is UNIQUE to us. To who we are. It's absolutely vital that this life-blood of our city continue to be funded.

The Arts Centre Trust was set up to save the heritage buildings from demolition and to provide subsidized cultural uses. The Arts Centre is the largest built heritage site in the Southern Hemisphere and of Category 1 heritage status, and is a cornerstone of local and international tourism. Mature cities that value their built past with contemporary uses, are prepared to contribute by incentivising this cultural activity for the benefit of all.

Not only has the Centre been wonderfully and carefully restored and is therefore safe and visually outstanding, it houses a variety of tenants and arranges a large number of activities to educate and entertain all ages, ethnicities and interests together with increasing numbers of tourists to the city. It is the cultural heart of the city which in turn attracts hundreds of people who will then visit and support all the other outstanding attractions in the central city. The amount sought from the Council is a small sum to save the experience for all citizens.

The Arts centre is one of the City's greatest assets used and loved by both local residents and visitors .It is just re-emerging as a new centre for community, creativity and proudly representing the city's heritage . This needs to be supported and further developed at this crucial stage and for the City Council to consider abandoning funding for this centre at a critical time is short sighted and out of touch with what the city residents want and the whole community can benefit from . To the contrary it is a wonderful large site which could accommodate more investment and activities to bring the creative energies together and help to further build this unique asset for Christchurch . The Tram project was designed around this destination and all these facilities are interrelated , please build on this base , which takes time and adopt a mature long term vision for our city .

The arts centre is an icon of christchurch's past, and especially post earthquake where so much of our older heritage buildings fell, torn down, or are still under repair, does the arts centre still stand out as the cornerstone of christchurch history. Its historical value as the old university, and the current use for the UC classics department is of high value to show that this building is tied to our growth and it is a safe haven for classics students and all sorts of unique businesses that operate out of the buildings in the arts centre

Of course the wonderful facility should be funded. It is a great asset to our city especially as many of our heritage buildings were lost in the earthquakes. It adds character and interest to our city, offsetting many of the modern buildings elsewhere in the centre of town, It is a great tourist attraction as well as a drawcard for local people. The weekend markets, permanent shops, cafes and the movie theatres are a great feature in the centre of the city even on the most unpleasant of days. Do not let short sighted thinking get in the way of funding this integral part of Christchurch. It has stood for many years and served the city so well, first as the University, then a part of it housed the Court Theatre and now as home to many other things. To me it is Christchurch and has so much more character and interest than the new Stadium for example. The Dux de Lux should also be re-opened as it too completes the Arts Centre and was very much it's centre in the past. It would be a tragedy if this incredible assets were lost. It must be funded and continued on for many more years to come.

As a child, I cut my creative teeth in The Arts Centre. From dance lessons as a tot, to music lessons after school, to kickstarting my musical career busking within its grounds, the Arts Centre has been a prominent feature. Its galleries are vital for artists & art appreciators alike. As a child I attended exhibition openings with and for my father (Paul Deans) & grandfather (Austen Deans), and I love swinging through to check out the latest exhibitors. Christchurch – and New Zealand as a whole – need places like this to help foster artist development, whether upcoming or experienced. Providing a space where the two can meet is integral to a thriving community. Post quakes, it is one of the few remaining landmarks for many. But The Arts Centre is more than just a beautiful collection of buildings, it is a place for people to gather and create and be inspired – a much loved hub for the people of Christchurch and visitors alike. And with all that is going on in our world, local & global, we absolutely need to support The Arts Centre.

The Christchurch Arts Center is essential for small businesses to flourish, with its events attracting so many people from within and outside of Christchurch. It represents everything we should aspire towards as New Zealanders - such as creativity, community connection, ambition, and supportiveness. It is a place of so much learning and a key contributor to the wellbeing of Christchurch students and residents. It is an incredibly important part of Christchurch and its positive impact will be restricted greatly if it does not receive adequate funding.

The arrs centre provides the community free weekly concerts, a museum, and a gallery. It provides a vital service for lower income people to experience it. I know personally I attend most concerts. I cannot afford to attend most of the performances here.

It's a beautiful historic place, but also one of the beating hearts of the city. Supporting a hugely diverse range of arts, businesses, and important creation. Plus it is a wonderful place to take young kids exploring. A key link between the botanic gardens and the city. In my mind, it is one of the most important historic places in our city. It must be supported for the future, in order to keep this amazing space available for all.

The Art Centre is one of the most precious and valued landmarks of Christchurch. It attracts tourists from around the world who love visiting it, the Botanical Gardens and Hagley Park along with the Museum, all in the same close area. It is a wonderful resource for concerts, craft activities and just enjoying being there relaxing. We have said many times to each other that we are HAPPY TO PAY MORE RATES if we can continue living in such an incredibly beautiful city - and without a doubt the Arts Centre is one of the real jewels in the crown of Christchurch. The Council will be failing us badly if it doesn't support the Arts Centre financially. PLEASE DON'T FAIL THE PEOPLE OF CHRISTCHURCH...

The Arts Centre is an iconic heritage building where musicians, artists and creatives work and inspire others. The building contributes to what makes our city special and different. It is much loved and is visited regularly by local citizens and tourists from around Aotearoa and the wider world and generates income for the city. In my opinion the CCC has a duty and should do all in it's power to preserve the cultural heritage that remains, given thar so many special building were lost or demolished as a consequence of the earthquakes

The CCC should fund the arts centre because it is wanted by the people of Christchurch. In the past it has been a thriving centre of Film , Theatre, education, visual arts , music, festivals, food trucks, markets. Not to mention the memorable hospitality of Christchurch institutions le cafe, boulevard bakehouse and the Dux de Lux. It is now home to the wonderful Lumiere theatre: perfectly positioned across the road from the botanic gardens. Post earthquake there have been some worrying developments such as ripping all the trees out of the Hereford st carpark and installing a first class hotel.It is starting to look very corporate and barren. It needs to get back to its bohemian roots and be a place for artists. A good start to this would be the trust board co operating with Richard Sinke and getting the Dux up and running again. In Christchurch we have lost so much. The arts centre must be saved. Altiora Peto : I seek higher things. We all need Art. We all need the Arts centre.

Has the Council considered the number of young people who work, or perform, at The Arts Centre? The Council not supporting The Arts Centre is intellectual and emotional abuse. The Arts Centre was often the first, and only, job that these young people will have. I've been exhibiting at The Arts Centre for decades and I'm appalled. - Stanley Palmer, 87 years.

The Arts Centre is a vital piece of the Christchurch community infrastructure. It is a public good that demands protection and funding, for the whole community's benefit, both direct and indirect. Commons like it are precious, and very hard to re-establish once dismantled. Defunding the Arts Centre will represent an enormous, and likely permanent, loss to the city, its people, and the systems that support wellbeing. Please, PLEASE, reconsider removing its funding.

The Arts Centre has become a wonderfully vibrant area where people from all over Christchurch meet and get together. The restoration has been immense and brings a fantastic heritage side to Christchurch that we are lucky to have post 2011. Losing this would be hugely sad, as it gives Christchurch a different view, and options to include the arts and a wonderful place for everyone to visit.

Why on earth would you not fund such an amazing piece of history and architecture as the Arts Centre. It is the centre piece of Christchurch bringing the community together - the Sunday market, cafes, Rutherford's den, the Great Hall with its beautiful stained glass, the cinema. This place is iconic and central to community and a draw card for tourists. Central to the Botanical Gardens, Harley Park, the Hospital and the Art Gallery. As a rate payer I should have a say in where my money is spent. Please support the Arts Centre and withdraw payment for the cathedral. Get rid of the waste of money that is the cathedral and support the Arts Centre that brings so many more people together!

I work for the University in the Teece Museum. I have seen the numbers of visitors grow within this year. I see people sit down at the piano by the art gallery in the Art Centre and play phenomenally amazing music that the general public would only get to hear if they paid to attend a concert. I've seen the appreciation of those who stop, sit and just take in the beauty in people's talent and music. I've seen hundreds of people bring their children through to participate in the free children activities offered within the art centre and at the free teece museum. Our education system is failing badly everyday despite the dedication of the front line staff. What the art centre has on offer gives parents a space to show their children another avenue of areas of interest that our school staff may struggle to offer. The Asian visitors that stream through that space is also phenomenal. You, the council have wasted millions on parakiores major issues. Therefore all your judgements of choices with our rate payer dollars is highly questionable at the least. De-funding the Art Centre given the value it has across many demographics of society is ludicrous in comparison to continually pouring our dollars into a sinking rec centre. Get a clue.

It is unthinkable that The Arts centre should be sidelined...like waste material. It is a necessary part of our cultural fabric in this city. It is an anchor for so many arts related happenings in its centre and in our city surrounds. Places like this are vital to our cultural health, they foster and nourish our creative juices. I cannot imagine that the Christchurch City Council could not realise it has an obligation as representative of the city's citizens to keep this alive for our children's children and beyond.

Dear Councilors, I was surprised when I first learned that the CCC would be dropping the \$1.8m funding of the Arts Centre. The reason I was shocked relates to the importance Cantabrians clearly attached to the Arts Centre, after the Christchurch earthquakes and the significant amount of money invested to restore the buildings - on a clear community mandate to do so. The Arts Centre has been a symbol of the city's resilience and it doesn't make sense that after spending over \$100 million restoring the buildings, for the ongoing running and maintenance costs to be stopped or passed onto another organisation, without the means. Keeping the Arts Centre vibrant is critical for the Art's community, but also for the reputation and pull this Christchurch & Canterbury icon has from a destination management perspective. As a former CEO of Destination Great Lake Taupo and GM Hurunui Tourism, I'm well aware of the value this icon has in attracting visitors to the region and the multiplier effects of their spend on things like accommodation, food & hospitality, crafts and services in the region. Over the past 8 months, I have been working as a business founder in the Health Technology Centre (HTC) within the Arts Centre. As a new business, Calmly Limited has benefited from the ability to work in a vibrant space with excellent support of the Art Centre staff and HTC Manager. It is evident that a well run Arts Centre can facilitate collaboration well beyond the Arts. While I appreciate the Council has many competing priorities in it's long term plan, I ask that you consider how much has been invested, how much the community values this space and the potential for additional costs down the line, if regular maintenance and management funding is cut. I think the CCC should take a solutions based approach, where they try to make the Arts Centre more cost neutral over a 5-10 year period, rather than what appears to be a sudden and rash decision to cut the funding altogether. Thank you for reading my submission. I am happy to be contacted, should that be of assistance. Yours faithfully Scott Pearson Community member and Business Founder

REASONS FOR PRESERVING THE ARTS CENTRE Heritage Entertainment Hospitality Tourism Arts Education
 The Arts Centre is rich part of Christchurch's heritage. Architecturally it is impressive and unique. For decades it has been a public space - open for all of the citizens of Christchurch to use, and a well-known and desirable tourist destination. I went to University there. When the University of Canterbury moved to Ilam there was discussion over its future and a fight to save it. Since then it has been a vibrant home of the Arts and a place of meeting, culture, hospitality, tourism, entertainment. The Court Theatre and Southern Ballet, cinemas and workshop spaces have operated there for decades. In the 1990's it was the home of Fringe theatre festivals and physical theatre/street theatre workshops. The Buskers' Festival took off there and ran for many years. While some of these specific ventures have moved to other places, the spaces have been redesigned and offered resonant spaces for other arts enterprises. The Free Theatre operated in the wonderful space that has now been redesigned as Christchurch's best Art cinema - Lumiere. The University School of Music has returned and enlivens areas of the precinct. This Arts Centre has continued to reinvent itself and will do so for decades to come. The Great Hall continues to host wonderful music and performance events, including visionary celebrations for Matariki, Christmas, summer. The markets and galleries are vibrant and varied, homes for craftspeople, artisans, artists, performers, musicians. The Artists in Residence programmes have been instrumental in creating wonderful original work, and there is theatre training, and workshop space available. Enormous efforts of planning and considerable resources have been expended on its maintenance over the years -before the 1990's and in the rebuilding after the Earthquakes. The fruits of these efforts need to be retained for the public, for visitors from other NZ cities and international visitors - while simultaneously benefiting local business offering hospitality, food and beverages and other entertainment and arts. This is a civic space, historically rich, and relevant still for the people of Christchurch and known as an innovative, accessible centre for arts by travellers and other people all over the world. We look to the Council for foresight and vision in terms of fostering and preserving the unique flavour of this city. It would be shortsighted indeed to pull out the blanket from under this vibrant and rich precinct at a time where the city is undergoing a renaissance with the new sports stadium and the reinvigoration of the central city with the huge development of inner city housing. The Council will be applauded for efforts to maintain, preserve and develop the Arts Centre. The Arts are central to a city's identity and to the cultural and spiritual wellbeing of humans.

The Arts Centre is one of a small handful of historic jewels in the crown of the city as far as I'm concerned. I can't believe we are having this discussion regarding it's future. For too many years we have displayed an appallingly cavalier attitude to our heritage, unfortunately accelerated in the immediate post quake era.

A fairer question would be why the council should cease to fund the Arts Centre..The. Council has long taken the view that an important part of its function is to allocate ratepayer-generated funds to support cultural assets and recreational and leisure facilities for the benefit of citizens and as enhancements to the city. Examples of these are the library(TUraga), the art gallery, sports facilities such as the stadium , parks and reserves including Hagley Park etc etc. I am sure the council does not need me to explain this. Without these facilities Christchurch would be a very poor place to live.The CCC has always in the past used its ratepayer - generated funds to help maintain its important heritage buildings. All cities of any worth all around the world shoulder this burden as a duty to past and future generations and a matter of civic pride. All over the world it is found that given maintenance costs these heritage buildings cannot be self sufficient. The amount of ratepayer money supporting the Arts Centre, as I understand it is quite amodest amount of money given that this is a truly defining building for the people of Christchurch and a huge attraction to the countless visitors interested in our cultural history. The council will be aware that the Board of Trustees is bound by statute to keep the range of buildings properly maintained. I suppose that if they could no longer afford to do this or had any doubts about solvency, they would have to wind up the trust. In my view the Arts Centre has an appealing mixture of interiestingcommercial tenants (coffee bars, wine bar-cafe, retail. Cinema etc) and arts - related less profitable tenants, bsuch as Rekindle was. I beg the council not to take any decisions that will jeopardise our beloved Arts Centre.

To the Christchurch City Council, The Arts Centre is not just a building; it's a cultural cornerstone, a vibrant hub of creativity, and a source of inspiration for the entire community. Its absence would create a void in the city's cultural landscape, impacting residents, visitors, and future generations alike. Investing in The Arts Centre is an investment in the heart and soul of Christchurch, preserving its heritage and ensuring its continued vitality. Please reconsider and prioritize funding for this invaluable institution.

It came to me as I am sure it did to many others when they heard this news an absolutely huge shock when i heard that the CCC may not fund the Arts centre. I genuinely thought it was a joke. It just didn't make sense. It truly sunk in when I went there to see an absolutely incredible show (Me and My nana) and saw the signs everywhere did it truly sink in. To me The Art Centre is the heart of the city, more than Cathedral Square has ever been. Past, present and future it is so important. Past - people watching while having a wine in Annie's wine bar, scared scriptless and pints in the Dux. Boulevard Bakehouse and Court Theatre ghost tours. Present - the sheer quality, variety and universality of shows, retail and experiences there. Performances in the Great Hall from preschool music to chamber music. The recent Off Centre Festival was one of the best days out with my 3 year old. The vibe truly felt electric and it was amazing to see everyone smiling and having a good time. It felt like days of old but also updated to days of now. It feels modern, current and allows performances, theatre, art and cinema to occur that doesn't anywhere else in the city. The buildings and location itself is one of the highlights themselves. I worked in tourism for a long time and along with the BOtanic Gardens, the Arts Centre was one of the places and experiences that I told every tourist to go to. It is such a unique architecture and amazing to walk through even when there aren't performances. The retail, cafes and vibe are not replicated anywhere else in the city. I love my city and the Arts centre is a big reason why. I would be heartbroken to see these buildings be allowed to sit and crumble and not be used to their potential (especially after all the skill and expertise and money that has been spent so far painstakingly restoring it) Future - it needs one. Enough said. Too important to let go.

We love going to the Arts center. So do my family that comes down from the Bay of Plenty, and when the museum reopens its going to busy. What will happen to that beautiful place if it shuts down? We don't have alot of old buildings left. Please fund the arts center more people can then see how beautiful it is as well as our city

Absolutely why wouldn't you?! It is the most important place in Ōtautahi /Christchurch - for locals, our tamariki, visitors. Arts, food, dance, choirs, local crafts, residencies, stone work, history, education spaces. It would be a loss of our cities soul. Far too much to contemplate loosing. This is where our Council needs to put money. Ngā mihi. Long term resident, business owner, mother, educator, ally.

The Arts Centre sits as a most beautiful example of hope in its restoration after our earthquake destruction. But a building is as good as the spirit and strength of its people within. The council must continue to fund our Arts Centre to maintain this spirit of creative hope for our future citizens. Please do not prioritise the physical (sport centres) over the creative wellbeing of the arts . Both are essential aspects of a healthy city.

The Arts Centre is a beautiful place where my young family and I visit and get inspired. I've lived in Auckland and Hamilton before moving to Christchurch a few years ago and have struggled to find creative communities here, except when I get amongst what's happening at the Arts Centre. You'll lose such a vital part of Christchurch's already fledgling cultural sphere. Do the right thing and fund this amazing part of our home!

If you choose to look at the city you want Chch to be in 5, 10, 20 etc years time, what do you want for everyone? What will the city look like, what will people be doing and how will we be addressing and supporting our social, cultural and artistic communities? If you value these things, I would strongly recommend we continue to support the use of the Arts Centre. It's the most inclusive, architecturally stunning and future-looking precincts of our city's creative culture. If you look at the gigs and events that have been happening there over the last few years, you will see a broad range of programming and support for a huge range of both upcoming and established artists and creators from all over the city. It would be more disappointing then you can imagine for hundreds of thousands of people to see this taken from them. Everybody holds such great memories of the Arts Centre, what would you gain from compromising that? Most memorable cities have arts centres of some sort. Please don't reduce us to being an ordinary, banal den of mediocrity. Help save our Arts Centre.

If you mention 'arts' to anyone in Christchurch, the majority of people would think of The Arts Centre. It was such a thriving hub of the creative arts, (music, theatre, dance, visual art, craft, literature, food) before the earthquake. I know – I worked there as the Arts Advisor for five years and then had offices on the premises working for the Christchurch Arts Festival and the Writers Festival (WORD Christchurch). It was the engine room for planning and presenting cultural events in the city. The Arts Centre is vital to complement the larger venues in the Performing Arts Precinct. It serves the community in an accessible way and needs to continue to grow to be a part of the next generation of creative people in the city. Over the years The Arts Centre is the place where I have seen the coming together of different ethnic groups – it is a neutral ground where they can interact with and educate the local population on the changing face of our city. It is such an important feature for all of us – please support them so they can continue their efforts to maintain and grow the facility to be the best heritage and cultural hub in the city again.

The Arts Centre is more than just a place for art; it's a vibrant hub for our entire community, both old and new, here in Christchurch. From supporting local artists to hosting events and markets, The Arts Centre has quickly become a cornerstone of Christchurch's cultural scene. As someone who has performed and attended events there, I've witnessed firsthand its growing impact. By investing in The Arts Centre, the council can further nurture this vital community asset, benefiting both residents and visitors alike.

The City Council is trying to encourage more people into the Centre of the city. We have moved into the Central City district and love the vibe but need this area of the Arts Centre to continue to provide craft renewal, cultural, artistic and musical events that we love. We don't just want shops and museums. We bring our friends and grandchildren here because of the value provided. Without funding this will slip.

We came to visit Christchurch on a journey and wish we had more time there. While the whole city was great to discover, the most impressive time was at the Arts Centre. We had the pleasure of going on a tour with lovely staff, came for a concert in the Great Hall and saw many exhibitions. All on one property! Absolutely fantastic what the team of the Arts Centre is managing to do. There was so much going on and we did miss many events because we had to leave too early — next time we will check the Arts Centre website first and plan our visit around it so we won't miss anything!

We travelled New Zealand and saw so many different special spaces. When we visited Christchurch, the arts centre was the best place. Such good food for lunch, so much to see, someone was playing the piano in the courtyard and the staff put a bubble machine out for kids. everyone had a great time and we stayed longer than planned - worth it! You should keep funding the space, they do a really good job.

The Arts Centre is a precious taonga. It was saved from dilapidation and demolition by an incredible community movement. It is a sanctuary, a symbol of survival and resilience. It houses so many stories - my father went to university there in the fifties and I think of him every time I walk through one of the grand doorways. It is irreplaceable architecturally, it is an anchor point in the arts precinct, it brings together the community, art and history lovers, tourists, families - it is a fine example of some of the ways we can, to heal from some of the wounds of our colonial past, move respectfully backwards and forwards as partners to Te Tiriti. We need our City Council to remain committed - in every way - to the sustainability of this treasure.

I consider that Christchurch City Council should fund the Arts Centre because it is an important part of our history and heritage. Christchurch needs to protect and keep the remaining older historical buildings because so many have been either replaced by tacky tacky characterless boxes, or there's just wasteland areas where buildings were previously. I also believe that the Christchurch Cathedral should be saved. Perhaps the Council could make cutbacks in other areas or charge users of some specific services more? And in my opinion we do not need any more cycle lanes. It's about priorities. Do we want to have a culturally bland city or do we want to protect Arts, culture and historically important buildings? I believe these buildings contribute to what makes Christchurch unique. Yours sincerely, Juliet Tyler.

I wish to support the continuation of Christchurch City Council funding for the Arts Centre, without which the city of Christchurch might lose one of its finest taonga. The Arts Centre is an intrinsic and vital part of the Christchurch arts environment, being located in close proximity to the Christchurch Art Gallery, COCA, the Canterbury Museum and the former Robert McDougall Art Gallery and it needs to continue to play its part. The current Arts Centre carries on the legacy of the University of Canterbury's BA and MA degrees of the past where students studied subjects such as languages, literature and history. Lumière Cinema caters for foreign language films, literature carries on in drama performances, history is expressed in The Teese Museum. What a loss it would be if all this cultural richness were to disappear. For me personally, the Arts Centre continues to be a significant part of my life in all the above aspects, and in art and music too. A student in the 60s, the University of Canterbury is my Alma Mater. I have precious memories from those days. I attended many lunch time concerts in The Great Hall, free in those days, and the importance of music has also carried on with many concerts still being held there, and with the venue being the platform for fostering young talent. I attended many lectures upstairs in rooms on both sides of the clock tower entrance. One memory lingers. Gordon Troup, already a legend in his time, had a second marriage and a young family. A small group of us had MFS, Mediaeval French Studies, in his study, and on certain days we would hear running up the stairs and a little boy, I think in a Cathedral Grammar uniform, would burst through the door and make a beeline for the cupboard where his dad had the biscuit tin. I was often in Rutherfords's Den, I was often in the library where there were nooks and crannies and desks for two so that it was not only a place of study but a place where affections developed. In the current Arts Centre, I appreciate the creativity of different artists and craftspeople. Last year, for instance, I sourced most of my Christmas presents there, finding unique handmade gifts for my family, including the grandchildren. We, the people of Christchurch, can be proud of our Arts Centre which serves both locals and visitors. Long may it continue to do so.

Not only is the Arts Centre the former site of my old University College where I studied for my Degree it has also acquired in its present form a well deserved iconic status as a unique symbol of Christchurch and Canterbury's history and national significance In my view (and I believe many others) its importance as that -as well as tourist and commercial potential - rates it at least the equal of the maimed and neglected Anglican Cathedral and- superior to the Covention Centre and football stadium etc., which have benefitted from the City Council's unwarranted largesse with Ratepayers funds

The arts centre is a set of heritage buildings gifted to the people of Christchurch and important to the cultural fabric of the city. They provide a variety of public spaces where citizens and tourists can experience some of the arts that the city has to offer while providing an architectural link down Worcester street from the cathedral to the museum.

I would prefer as a ratepayer to see the Arts Centre funded than the cathedral. The Anglican Church can fund the cathedral. The Arts Centre is for everyone & is diverse & far more appealing & useful. Tied in with the Museum & Gardens, it is more dynamic & interesting offering both domestic & tourism opportunities. Please review this spending decision in the LTP.

The Art Centre should be funded because art is for everyone. It feeds the soul. It's a place to help relieve mental stresses, anxiety of daily life and experience peace in art and creativity & stimulate & nurture those senses in our brain. Art is subjective but also nurturing and a release from the daily grey weight of life. The Art Centre is awesome for individuals, families, groups, tourists learning NZ culture, it's a place to just be & lose yourself, no electronics required. Art is for all. Art is healing, nourishing, entertaining, thought provoking. We need art in our lives. Please fund it. Thank you

The arts centre is incredibly important to Christchurch community, attracting tourists as well. This doesn't just serve Christchurch but places around like Selwyn and Waimakariri. This place is important for people to learn, explore and appreciate others art and it's somewhere I visit alot to be inspired or just for something to do that is low cost. If this isn't funded it'll affect so many people, especially in a world where everything is so expensive this place is inexpensive and is something people can do, and you'll be taking that away

This is a cornerstone heritage property appreciated through NZ and indeed the world. With Christchurch having lost so much this cannot be one of them. Prioritise this building. Make cutbacks elsewhere. Living on Ilam Rd and seeing roadworks for 1 year!!!!!! So as to install a bike line feels like a preposterous waste when considering the loss of the Art Centre.

The arts is such a vital form of expression and communication. To remove that funding, and therefore the vessel that carries this expression, te Matatiki toi ora, you are dampening a community that is welcoming and inclusive and incredibly creative. How, in this day and age, is that not a priority? Please reconsider funding plans. What is a city without the arts?

I think removing the ability for people to freely express themselves in the field of arts through funding that is currently provided will have a huge effect on the passionate arts community in Christchurch. A very important part of the arts centre is that it brings about community engagement which we as a country and as humans need more than anything in the years to come and following on from COVID. Community creates support and when you feel supported your confidence comes through which not only allows people to create beautiful pieces of art but it also encourages them to be themselves and engage with others which we all really need right now!

Dear Christchurch City Council, Well done for doing a superb job of keeping this city functioning, providing large public events and supporting local groups- thank you. But I urge the Council to reconsider its decision regarding discontinuing its funding of The Arts Centre. The Arts Centre is of vital importance in this city- now even more than prior to the earthquakes. We have lost so many heritage buildings which made Christchurch "Christchurch", and to have The Arts Centre up and running again since its restoration and thriving with public events which suit those of us who prefer smaller crowds, has been the most wonderful, heartwarming thing. I grew up going to performing arts classes in The Arts Centre as a child, then worked at the old Court Theatre for years. In 2021, The Arts Centre made it possible for me to fulfil a dream of producing "The Secret Garden" in the Great Hall, and then "A Little Night Music" in 2022. They work hard to help theatre practitioners bring performing arts to the stage for the people of Christchurch to enjoy. They protect the beautiful buildings for future generations, and support artistes to be creative and thrive. We want our families to have the pleasure of sitting in the quad watching a free movie on a summer evening and laughing with hundreds of others- what a feeling of community! (Shades of "Cinema Paradiso"!!) We want it to survive so our children can continue loving the place they've been coming to for years and can one day bring their own children to enjoy the arts on offer. We want to feel proud of these extraordinary buildings and the warmth within them when we have visitors from overseas and are looking for beautiful, quintessentially "Christchurch" places to take them. The Arts Centre gives Christchurch a heart. I hate to think what it would be like if it lost its funding. Please keep it beating. Thank you.

The Arts Centre, is a Historic Building Complex, we have very few of these left in ChCh. These buildings and the Arts can not be separated, if we are to use our integrity. The Arts have always been an important part of Society, A city without the Arts is a lack lustre city. The Arts Centre is an important part of the Tourist Map, of things and places to go. We would be at a great loss without it. Please consider this carefully, with respect Georgina Papageorge.

I strongly oppose any cuts to the support of The Arts Centre. Retaining funding for the Arts Centre will ensure that cultural initiatives can continue and influence the city's citizen's culture and well being. This is especially important now that the Arts Centre has nearly completed restoration. Citizens now have expectations that the facilities are being used accordingly. Cutting the funding will render one of the internationally acknowledged key icons of the city meaningless.

No arts centre this size, especially in heritage buildings, can survive without public funding. Insuring, maintaining, and operating an entire city block of heritage buildings costs money. Without Council support, The Christchurch Arts Centre Trust will be heading towards insolvency. The Arts Centre brings so much life to Ōtautahi, which has an otherwise rather dull city centre. The range of community-funded, multi-cultural events year round - from kapa haka to opera, music from the Muslim world to jazz, hip hop dance to ballet, Sculpture and Matariki festivals to children's theatre and circus arts - offered by the Arts Centre are of huge value to Ōtautahi

As one of the few publicly accessible and well-used areas (by residents and visitors alike) of Heritage and character buildings in Christchurch, The Arts Centre is a key feature and brings a focus to our city and its past. For visitors to Christchurch, there is need for physical areas to connect with when they are here. The Feb 2011 EQ removed a number of these. I support the provision of funding to keep The Arts Centre in operation as it caters for a wide range of people through the activities, businesses and organisations based there. I acknowledge there are sections of the community who do not use this part of Christchurch, as with other parts of the city. As is always the case, not all residents will use all locations or services a city council provides. Ensuring the provision for Arts spaces, Educational spaces, and other spaces that give the opportunity for community connections are part of a healthy vibrant city.

The Arts Centre is one of very few beautiful historic stone buildings left after the Christchurch earthquakes. It has been home to many arts, theatre, music and craft groups in more recent times and is loved by locals and visitors to the city. If left to fall into decay (or be demolished) it would be another ugly scar in Christchurch as a reminder of the destruction caused by our earthquakes, and a unique historic building would be lost forever. Personally I have many precious memories of concerts, plays, lunches and happy times spent in the Arts Centre. Please continue to fund this important facility.

The Christchurch Arts Centre is the most important and oldest amenity in Chch (Provincial Chambers currently mothballed) that serves both Christchurch and tourists, NZ and International, with a stunning environment. Since the earthquakes the redevelopment has injected new life and activities that I have discovered and now make the effort to regularly visit and take or recommend visitors to see. While the centre has many tenants, much of the spaces and buildings are there to see and enjoy with out charges and for such a large collection of unique individual structures the costs to preserve and maintain together with the huge increases in insurance, the costs for this jewel in Christchurch cannot be sustained entirely by the Arts Centre. It is a Christchurch asset that helps define our city and therefore city must help it survive and prosper.

My family and I are very concerned to hear of our City Council's intention to withdraw annual funding for upkeep to our Arts Centre, and we urge the Council to reconsider its proposal and to retain the current funding model. The Arts Centre is a gem of a place with significant historical significance - a taonga; and, importantly, is one of the very few heritage sites left in our city. As such, it deserves to be and remain a generously-funded site. To continue the funding model will ensure the Centre's buildings will not only retain their pristine condition into the future, but will also assist its many artisan business operators to thrive in a central city location that we citizens and thousands of tourists all love to access and support. To withdraw same funding risks a private ownership model, intent on profit-making that would surely ensure a steady deterioration and decline of the Arts Centre site. It might also prevent public access to the site. We therefore, urge the Council to continue to fund heritage and this site, in particular. So much has already been spent on salvage and reinstatement of the site to its present splendid condition. Withdrawal of funds would send a signal that Council simply does not place a value on the heritage area that the rest of us love and value highly.

I urge you to please keep supporting the Arts Centre. It has been beautifully restored at considerable expense and an attraction for locals and visitors alike within the city centre. It should be considered as a real asset. It does, however, need more attractions, such as cafes, bars with outside music (like the Dux Delux used to be) to encourage people to stay for reasonable lengths of time.

The Arts Centre is a wonderful facility that provides an incredible experience for many of us Cantabrians - it is such a shame to hear that the council isn't seeing its worth. Firstly, it is a beautiful historic building which deserves to be preserved and loved, with a loss of funding we could risk the building not getting the maintenance it needs, and at the heart of the city by the tourist attractions such as the cathedral, art museum and gardens, it would be such a shame to waste the potential of the wonderful building. Its amenities have served me and many others well - I completed an internship at the classics museum, I use the UC study spaces within for my degree, I visit often for the weekend markets and the lovely cafés and restaurants. It is one of my favourite places to take visitors to show a piece of Christchurch and its history. Now that it has been quake repaired and upgraded with a lovely hotel - it would be an absolute waste to stop funding the arts centre. By stopping funding to the Arts Centre you send the message that creative, communal, historical and educational spaces aren't worth the councils time or money. It is not too late to make the decision to keep backing the arts centre!!

This institution is an incredible asset to the city- its vibrancy and diversity of audiences and programming is incredible given the scarcity of funding it operates with as a non profit. The challenges it now faces due to the increased operating costs they're faced with shouldn't mean the end of this incredible institution. We as a city need to ensure its continued delivery - not just as a historic collection of buildings but with the programming that impacts so many hearts and minds. The precinct is so much more inclusive and a heart to the city than it ever was pre-earthquakeLike the gardens, is THE jewel in our city. There is no way that the same level of programming can be achieved for the same cost if the council end up taking over the facility...it will cost US (the ratepayers who pay for your budget) more. Please ensure a sustainable operational funding model in support of the Trust.

Growing up in Christchurch, my memories at the Arts Centre are treasured and lengthy. From school visits learning about science, to my first theatre productions, to days out with grandparents trying fudge samples, this is a special place that gives so much to the community. It was the Arts Centre that taught me about culture, science, art, and the importance of supporting local. This place is a cultural icon, and is at the centre of who we are as a city. After loosing so much of our history as a city since the earthquakes, the Arts Centre plays a vital role in connecting the present and past. No one does it like the Arts Centre does. Funding will allow this legacy to continue, as an important heartbeat in our beautiful city.

The Arts Centre is a vital and important part of Christchurch, Canterbury and New Zealand. It is a very beautiful and tangible link to our shared past, incredible important to our present lives and vital to our exciting future. We have lost so much of our heritage architecture and the Arts Centre is a beautiful restored architectural precinct. It anchors and calms the city centre with its exquisite forms, alleys, courtyards and interrelated spaces. It can house and support a wide range of artistic and creative endeavours. It is an increasingly rare shared experience for all of Canterbury's peoples and our visiting family and guests. It is imperative that the Christchurch City Council continues its financial support for the Centre and ensure its continued survival. The Art Centre is must survive and flourish, anything less is dereliction of our duty to past and future generations.

The Arts Centre has provided many multicultural interactive events that are accessible and affordable for most people. It is a vehicle for promoting diversity that is much needed in Christchurch and sets the city apart from most others. The Arts Centre is a cultural hub that has helped develop artists in Christchurch that further promote the city's identity. It would be a huge loss to Christchurch if the Arts Centre were to close as it would be hard pressed to find something that would suitably replace it that as the same values.

The Arts Centre is a tourist attraction, and part of a limited number of historic buildings in Christchurch that locals and tourists can explore and not just look at from the outside. Funding arts and history is just as important as sports stadiums. How many tourists visit empty stadiums every day, compared to the daily visitor numbers at the Arts Centre? Its survival is important to the small business that surround the art centre as well. If you want to revitalise the CBD, fund things that keep the tourists and locals going there.

The Arts Centre is essential to the history and layout of the arts district. It would be devastating to both the cultural and aesthetic identity of the city to lose this iconic complex. Removing this attraction would also have a devastating effect on tourism and spending in the northwest of the CBD. Especially with the museum being under construction, losing the Arts Centre as a focal point would drive spending to other quarters of the city such as Riverside, which already receives plenty of business.

One of few old buildings left. It needs to be saved. Such a great tourist attraction and an asset to the city.

Te Matakī Toi Ora | The Arts Centre is the envy of art centres in Aotearoa. There is no other place I know where a project is so easily incubated: workshop, rehearsal space, performance venue, accommodation, restaurant, cinema, staff, community, vitality – Christchurch has it all in one place at the heart of the city. Our recent PORTALS project was developed for Off Centre and Auckland Arts Festival over a week at The Art Centre. For a Tāmaki-based practitioner, discovering The Arts Centre was a revelation. The integration of the facility and support of the staff set an environment for us to create and produce without complication. I had the best experience of coordinating a project bringing international and local artists together with the help of Chris Archer and his team. When it comes to developing the next project, The Arts Centre is my first choice.

I think this is a valuable space for the community, providing great events and spaces to be used. Creating a creative hub in gorgeous heritage buildings and home to some of the best retail shops celebrating NZ crafts and NZ made a unique shopping experience for visitors to Chch.

The Arts Centre forms part of our connection to the past, my grandfather worked as a chemist there while it was a University, and I have visited and taken classes attenuated concerts there, beyond my original connections it is an important piece of architecture and an integral part of the cities tourism and cultural scene, dropping it's funding world be deeply shortsighted and a hard also in the face to all who have worked so hard to provide and enjoy it. Please keep the funding, we need the arts, we need the arts Centre, and we need to retain our history.

The Arts Centre is a huge part of our city. There have been so many wonderful experiences and opportunities for community to connect through initiatives run by the Arts Centre. It's a place where everyone is truly welcome and all cultures and identities are celebrated. It's the backbone of diversity in our city and something we clearly still need work on.

The Arts Centre is part of Christchurch's heritage and it makes the City unique. It is being redeveloped as a functional space and it is important that it can continue as such. The Art Centre is a Christchurch Taonga, a tourist attraction, a cultural centre and community facility. For the above reasons I ask that the Christchurch City Council to include funding for the Arts Centre in The Long Term Plan.

It seems ludicrous that this should even be a question, because the Arts Centre is one of Christchurch's (and NZ's) premier cultural venues and should be given sufficient funding to continue its work inspiring current and future generations of locals and tourists alike

The Arts Centre is an icon of Christchurch, not only for locals but for tourists. It should remain funded as such a big part of our City and a way to bring continuity from pre-Earthquake Chch to post-Earthquake Chch. To defund the Arts Centre would be a great loss.

the art centre has been integral to my university experience, and has a lot of important history which makes me proud to be a cantabrian. We must protect that.

The city should do anything possible to hold its finger nail grip on cultural relevance. It seems a short sighted misalignment of priorities when budget can be spent so freely in other areas of recreation. A quake memorial, a stadium and an airport to fly somewhere else. Christchurch deserves better.
