|  | <p>Resource Management Act 1991</p> <p>Christchurch District Plan</p> <p>Proposed Plan Change</p> | <p>4</p> |
| <p>NOTE: The rule amendments proposed in this Plan Change have no legal effect until the Council's decision approving the Change is publicly notified (s 86B).</p> <p style="text-align: center;">SHORT-TERM ACCOMMODATION</p> <p>Explanation</p> <p>The purpose of Plan Change 4 is to:</p> <ol style="list-style-type: none"> a. include provisions that more specifically and appropriately respond to demand for visitor accommodation in residential units. This affects zones that generally enable residential activities at present (including residential, rural and commercial zones and the Papakāinga/Kāinga Nohoanga Zone). The changes apply to both hosted accommodation ("bed and breakfasts" and "farmstays") and unhosted accommodation ("guest accommodation") in the current Plan; b. clarify the extent to which different types of visitor accommodation activities are subject to objectives and policies to primarily locate in commercial centres; c. better differentiate between residential and visitor accommodation activities including clarifying the activity status of activities like serviced apartments and other forms of short-term accommodation. <p>This Plan Change does not address the standards for visitor accommodation activities in the Specific Purpose (Golf Resort) Zone.</p> <p>In parallel with this Plan Change, the Council is implementing the National Planning Standards definition of "visitor accommodation". This will replace the current definitions for "guest accommodation", "bed and breakfast" and "farmstay" in the District Plan. Consequential amendments from this change are noted in the text below for reference only. They are not proposed to have legal effect until the Plan Change becomes operative.</p> <p>In summary, the Plan Change:</p> <ol style="list-style-type: none"> 1. combines the definitions for "guest accommodation", "farm stay" and "bed and breakfast" into one definition ("visitor accommodation", relying on the National Planning Standards definition) and uses activity specific standards in the rules to differentiate between these activities; 2. amends the definitions of "residential activity" and "residential unit" to better differentiate these activities from visitor accommodation and to clarify the status of other types of short-term accommodation which may not be captured as "living accommodation" in the current definition including serviced apartments, house-sitting and home-exchanges. 3. includes amendments resulting from the broader scope of the "visitor accommodation" definition (which includes farm stays and bed and breakfasts whereas "guest accommodation" specifically excluded them). Replacing the term means that definitions like "sensitive activities" that rely on the "guest accommodation" definition previously did not apply to farm stays and bed and breakfasts but now do, as do some of the transport standards. | | |

4. makes amendments resulting from the removal of the “guest accommodation” definition, specifying which ancillary activities (like conference or fitness facilities) were included while the new “visitor accommodation” definition does not. Some changes have been made to the rules in zones or areas like the Accommodation and Community Facility Overlay to continue to provide for ancillary activities where these are not already permitted in the zone or overlay. In the ACF Overlay, limits on the scale of ancillary activities have been introduced consistent with the limits in the Residential Visitor Accommodation Zone.
5. introduces a new objective and several new policies in the residential chapter which are specific to visitor accommodation. These differentiate between small-scale and/or hosted visitor accommodation activities that retain a residential character and are appropriate to locate in residential zones and larger scale activities with a commercial character that are primarily directed to commercial centres.
6. amends a policy in the commercial chapter to clarify whether or not the intention is to primarily direct visitor accommodation within the Four Avenues into the Entertainment and Hospitality Precincts.
7. introduces new standards for hosted visitor accommodation in a residential unit (formerly “bed and breakfasts”) including limits on late night arrivals and departures and sizes of functions.
8. changes the activity status for unhosted visitor accommodation in a residential unit in most residential zones from Discretionary to Controlled for 1-60 nights per year, Discretionary for 61-180 nights per year and Non-Complying for more than 180 nights per year.
9. changes the activity status for unhosted visitor accommodation in a residential unit in most rural zones from Discretionary to Permitted for 1-180 nights per year (subject to requirements to keep records and provide information to the Council) and Discretionary for more than 180 nights per year.
10. supports the ongoing use of heritage items by enabling them to be used for visitor accommodation in residential zones for a larger number of guests and a greater number of nights per year than residential units. A Controlled activity status resource consent is required if a manager or supervisor does not live on site so that amenity impacts on neighbours can be managed.
11. differentiates between several types of activities that currently sit under the “farm stay” definitions and applies different standards to them (e.g visitor accommodation accessory to farming as opposed to visitor accommodation accessory to a conservation activity or walking or cycling track.)

Reasons for the Plan Change

Firstly, there has been a significant increase in offerings of visitor accommodation in residential dwellings (home-share accommodation) since the District Plan provisions were last reviewed. This has given rise to concerns about the effects of the activity on neighbours and the surrounding area. ChristchurchNZ estimates that between June 2016 and June 2019 the percentage of accommodation guest nights taken up by Airbnb and HomeAway/Bookabach guests rose from less than one per cent to approximately 27 per cent. In the twelve months up to September 2019, on those two websites alone, there were approximately 4,230 listings for home-share accommodation in the Christchurch district of which 2,135 (50 per cent) were for whole residential units¹.

These numbers have decreased as a result of the Covid-19 international travel restrictions but are likely to return to a comparable level once international travel resumes.

¹ Information on the number of listings comes from AirDNA, an independent market research firm which compiles web scraped data on Airbnb and HomeAway/Bookabach, the two largest operators in Christchurch District. There are a number of other platforms where home-share accommodation can be listed, so the AirDNA statistics will generally be conservative estimates of the size of the market rather than exact figures. This data does not distinguish between “whole unit” listings where the owner may live in a different residential unit on the same site.

Secondly, there have been issues identified with the objectives, policies and rules that apply to home-share accommodation through decisions on resource consents by Council and the Environment Court.

The District Plan distinguishes between “bed and breakfast” activities where a permanent resident is required to be present for the stay and “guest accommodation” activities, which do not have that requirement.

The current District Plan rules generally require a Discretionary resource consent for “guest accommodation” activities in residential and rural zones (with some exceptions) . This requirement applies from the first day that the unit is let.

Data collected from AirDNA suggests there were an estimated 1,600 listings in residential zones in 2019 that required a resource consent although it is difficult to determine from the listings which sites may still have a permanent resident in another unit on the site. There are likely to be more listings in rural zones that are not part of a farm stay or rural tourism activity and also require a resource consent.

Despite this, only a handful of resource consent applications have been received.

Decisions on two of those applications were to decline the application despite the environmental effects being found to be less than minor. The applications were not considered to be consistent with the objective and policy framework for non-residential activities which seeks to “restrict the establishment of other non-residential activities, especially those of a commercial or industrial nature, unless the activity has a strategic or operational need to locate within a residential zone, and the effects of such activities on the character and amenity of residential zones are insignificant.”

The Commissioners on those two decisions noted that they were “troubled” by the outcome but felt that the existing policy framework for non-residential activities did not give scope to approve the applications . One of those decisions was recently successfully reversed by the Environment Court which noted that “the plan provisions may not adequately respond to the demand for this activity.”

Thirdly, there is a lack of evidence to justify the current policy framework and rules in the District Plan that necessitates a review. Through research that Council has undertaken, there has not been found to be significant negative impacts of home-share accommodation in a Christchurch context on housing supply and affordability, rural character and amenity nor the regeneration of the Central City that would otherwise provide a basis for a restrictive approach to small-scale, part-time listings by permanent residents of the unit or rural holiday homes listed when not in use by the owner(s).

A further explanation of these changes is set out in the evaluation report prepared in accordance with section 32 of the Resource Management Act 1991 (RMA) (“the s32 report”) that accompanies this Plan Change. The s32 report should be read in parallel with this Plan Change.

Chapter 14 Residential

14.2 Objectives and Policies

14.2.1 Objective - Housing supply

14.2.1.1 Policy - Housing distribution and density

Table 14.2.1.1a

| | |
|---|--|
| Residential Guest Visitor Accommodation Zone | Comprises a number of sites situated in residential locations that were previously either zoned or scheduled for guest visitor accommodation purposes in earlier district plans and continue to be used for guest visitor accommodation . The zone provides for the ongoing operation, intensification or redevelopment of these established activities, compatible with the character and amenity of adjoining residential zones. |
|---|--|

14.2.1.2 Policy - Establishment of new medium density residential areas

(...)

- a. Provide for medium density residential development in defined arterial locations identified as suitable for larger scale community facilities and ~~guest visitor accommodation~~.

14.2.6 Objective - Non-residential activities

- a. Residential activities remain the dominant activity in residential zones, whilst also recognising the need to:
 - i. provide for community facilities and home occupations which by their nature and character typically need to be located in residential zones; ~~and~~
 - ii. provide for visitor accommodation in accordance with Objective 14.2.9 and Policies 14.2.9.1 to 14.2.9.4; and
 - iii. restrict other non-residential activities, unless the activity has a strategic or operational need to locate within a residential zone, ~~or is existing guest accommodation on defined sites.~~

Note: this objective and its subsequent policies do not apply to brownfield sites.

14.2.6.3 Policy - Existing non-residential activities

- a. Enable existing non-residential activities to continue and support their redevelopment and expansion provided they do not:
 - i. have a significant adverse effect on the character and amenity of residential zones; or
 - ii. undermine the potential for residential development consistent with the zone descriptions in Table 14.2.1.1a.

Advice Notes: Note:

1. This policy also implements Objective 14.2.4.
2. Policy 14.2.6.3 does not apply to visitor accommodation. Refer to Objective 14.2.9 and Policies 14.2.9.1 to 14.2.9.4 for the relevant provisions.

14.2.6.4 Policy - Other non-residential activities

- a. Restrict the establishment of other non-residential activities, especially those of a commercial or industrial nature, unless the activity has a strategic or operational need to locate within a residential zone, and the effects of such activities on the character and amenity of residential zones are insignificant.

Advice Note: Policy 14.2.6.4 does not apply to visitor accommodation. Refer to Objective [14.2.9](#) and Policies [14.2.9.1](#) to [14.2.9.4](#) for the relevant provisions.

~~14.2.6.7 Policy – Guest accommodation~~

- ~~a. In the Accommodation and Community Facilities Overlay, provide for guest accommodation within defined arterial locations that:
 - ~~i. are within walking distance of the Central City and suburban commercial centres;~~
 - ~~ii. front onto core public transport routes; and~~
 - ~~iii. are not dominated by residential development.~~~~
- ~~b. In the Residential Guest Accommodation Zone, provide for the ongoing operation, intensification or redevelopment of existing guest accommodation sites, compatible with the character and amenity of adjoining residential zones.~~

14.2.9 Objective – Visitor Accommodation in Residential Zones

- a. Visitors and other persons requiring short-term lodging have a broad choice of types and locations that meet their needs where:
 - i. this is compatible with the function and level of amenity intended for the zone; and
 - ii. the use of any residential unit is still predominantly a residential activity, and the residential character of the site is retained.
- b. Visitor accommodation is only established in residential zones (except for the Residential Visitor Accommodation Zone and Accommodation and Community Facilities Overlay) where it of a scale and character that is consistent with meeting objectives for:
 - i. a sufficient supply of housing, including affordable housing, with a choice of locations including an increase in the number of households within the Four Avenues;
 - ii. a revitalised Central City with a wide diversity and concentration of activities that enhance its role as the primary focus of the City and region;
 - iii. enabling the revitalising of commercial centres;
 - iv. protecting strategic infrastructure from incompatible activities and avoiding reverse sensitivity effects on them; and
 - v. high quality residential neighbourhoods with a high level of amenity.
- c. Visitor accommodation in the Residential Visitor Accommodation Zone and Accommodation and Community Facilities Overlay can establish, operate, intensify and/or redevelop in a way that is compatible with the character and amenity of adjoining residential, rural or open space zones; and does not expand the activity outside of the existing zone or overlay area into other non-commercial zones.

14.2.9.1 Policy – Visitor Accommodation in a Residential Unit

- a. Permit visitor accommodation in a residential unit where:
 - i. at least one permanent resident of the site is in residence for the duration of the stay;
 - ii. the number of visitors, including additional guests not spending the night, is comparable to use by a residential household; and

- iii. disturbance to neighbours is minimal.
- b. Manage visitor accommodation in a residential unit while the permanent resident(s) are not in residence to minimise adverse effects on the residential character, coherence and amenity of the site and its immediate surroundings including through:
 - i. restrictions on the scale, duration and frequency of use to ensure that the residential unit is still predominantly used for a residential activity; and
 - ii. management of operations to minimise disturbance of neighbours, including providing contact and site management information to guests and neighbours.
- c. Avoid visitor accommodation in a residential unit at a scale, duration and/or frequency that cannot be managed in a way that minimises adverse effects on commercial centres or the residential character, coherence and amenity of the site and its immediate surroundings; or that would be likely to give rise to reverse sensitivity effects on strategic infrastructure.

14.2.9.2 Policy – Existing Visitor Accommodation

- a. In the Residential Visitor Accommodation Zone, provide for the ongoing operation, intensification or redevelopment of existing visitor accommodation sites, compatible with the character and amenity of adjoining residential, rural and open space zones.

14.2.9.3 Policy – Visitor Accommodation in Defined Arterial Locations

- a. In the Accommodation and Community Facilities Overlay, provide for visitor accommodation within defined arterial locations that:
 - i. are within walking distance of the Central City and suburban commercial centres;
 - ii. front onto core public transport routes; and
 - iii. are not dominated by residential development.

14.2.9.4 Policy – Other Visitor Accommodation in Residential Zones

- a. Visitor accommodation not provided for in Policies 14.2.9.1-14.2.9.3 shall not locate in residential zones, except where the activity provides for the ongoing use of a heritage item consistent with Policy 9.3.2.2.3 and adverse amenity impacts on residential neighbours can also be minimised.

14.3 How to interpret and apply the rules

- a. The rules that apply to activities in the various residential zones are contained in the activity status tables (including activity specific standards) and built form standards in:
 - i. Rule 14.4 – Residential Suburban Zone and Residential Suburban Density Transition Zone;
 - ii. Rule 14.5 – Residential Medium Density Zone;
 - iii. Rule 14.6 – Residential Central City Zone;
 - iv. Rule 14.7 – Residential Hills Zone;
 - v. Rule 14.8 – Residential Banks Peninsula Zone;
 - vi. Rule 14.9 – Residential Large Lot Zone;
 - vii. Rule 14.10 – Residential Small Settlement Zone;
